CROSS TOUCH INTERFACE

The Cross Touch interface lets you quickly and intuitively access technologies, and customize up to four independent viewing panes to your needs and situation.

HANDS-FREE FISHING BUILT IN

Bluetooth capability keeps your phone out of the water and in your pocket by displaying notifications on your SOLIX. You can also take control of your most used features with an optional Bluetooth remote (RC2).

Bluetooth

The Bluetooth word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Humminbird is under license.

HUMMINBIRD MAPPING AND i-PILOT LINK FOLLOW

Navigate with the detail and exclusive features of Humminbird LakeMaster, identify hotspots with SmartStrike compatibility and map the lake's depth contours, bottom hardness or vegetation with AutoChart Live. Use optional i-Pilot Link to automatically follow map depth contours through your compatible Minn Kota trolling motor.

MADE FOR THE DEMANDING TYPE

Engineered for the hardcore angler, every feature of APEX has been created with a fishing-first mindset. Get complete control of customizable settings and view combinations, powered by a lightning-fast dual-core processor. The possibilities are endless, because so are your expectations.

LOOK SHARP

APEX delivers eye-popping detail with a 1920H x 1080V full-HD, touchscreen display. See the incredible detail of sonar and chart images that will ensure you never miss a thing, on your choice of a 13.3", 15.6" or a massive 18.5" display. Thanks to the Cross Touch Interface, control it all using the touchscreen or the keypad-it's up to you.

MULTIPLE INSTALLATION OPTIONS

APEX's low-profile design provides a sleek look at the helm when installed with the included front-mount in-dash kit. Or, opt for the available rear-mount in-dash kit or the supplied gimbal mount for additional mounting options to fit your needs.
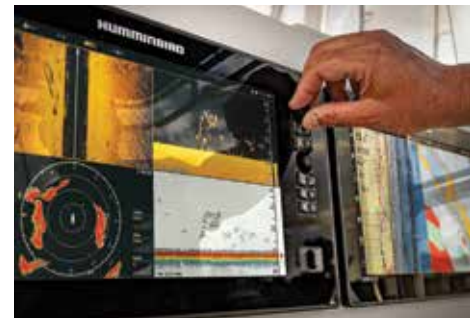

DUAL CHANNEL SONAR SUPPORT
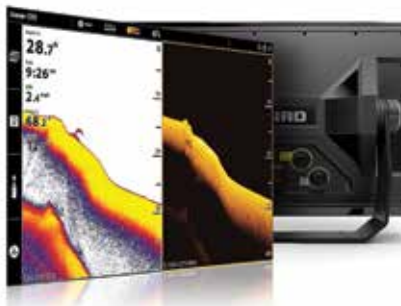

Get industry-leading MEGA Side Imaging+, MEGA Down Imaging+, and Dual Spectrum CHIRP sonar standard, with even more performance from a dedicated sonar channel for AIRMAR accessory transducers up to 2kW, plus integrated transducer ID for fast and easy setup. Visit airmar.com for more information.

NAVIGATE AND DOMINATE ANYWHERE

APEX control heads provide integrated GPS chart plotting overlaid on the built-in Humminbird Basemap. For an unmated understanding of what's below APEX is compatible with premium chart offerings from Humminbird CoastMaster and LakeMaster charts, as well as Navionics products to provide you coverage options no matter where you fish.

BRING IT ALL TOGETHER

Make the most of your time on the water with the exclusive boat control and fish-catching features of the One-Boat Network. APEX models seamlessly integrate and communicate with Minn Kota and Cannon products to unlock more features and capabilities for anglers everywhere.

SEAMLESS FISHING

APEX comes standard with a first-class offering of networking options including series-exclusive Dual Ethernet ports and HDMI In/Out ports. Additional networking options such as NMEA 2000 and built-in Bluetooth and Wi-Fi provide information that captains need to face any fishing scenario. Compatibility with advanced accessories like Humminbird CHIRP Radar, AutoPilot, VHF radio, CZone digital switching and Fusion audio APEX command center of your boat.

COASTMASTER
U.S. COASTAL
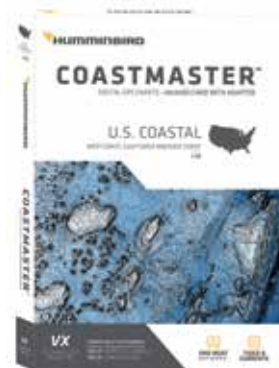

- VX Technology provides five customizable color palettes and faster map load times, so you can seize every moment on the water.
- See the world your way with three preset views. It's quick and easy to switch from fishing charts to nautical charts, or to create your own custom view settings.
- Using predictive software, CoastMaster allows you to plan your fishing day with tidal direction and height, as well as the speed and direction of currents and more, so you'll never be caught guessing.
- Create up to four user-defined depth highlight ranges, so you can easily target productive water and stay in the bite zone.
- Navigate safely and quickly identify spots where fish are hiding with red shading highlights for shallow water areas on an adjustable range from zero to 30 feet.
- Synchronize the depth contours and shorelines of your CoastMaster charts with the actual water levels, so that your chart will reflect the current water level of your fishing spots.
- Access a wealth of navigational data to make your next trip safe and successful. Access navigation aids, artificial reefs and points of interest.
- When paired with a Minn Kota i-Pilot Link, you can "follow" a selected depth contour line, delivering precise, automatic boat control
- Compatible with Humminbird HELIX G3/G3N and all SOLIX units.
- 1-Year Cartography Warranty.

Humminbird LakeMaster® PLUS Digital GPS Maps

HUMMINBIRD

NEW MAPS

- LakeMaster PLUS series includes all contour data, depth highlight and water level offset features found on a LakeMaster card, PLUS it allows for aerial image overlay on High-Definition waters. This gives you the ability to use quality aerial photography to view the entry and exits of creek channels, see how far a reef or weed line extends, and pick out shallow water rock piles, steep drop-offs or other features of the lake you've been missing from traditional maps.
- New High-Definition lake map data available for the following lakes: Dale Hollow, Green River, Martin, Sidney Lanier, Watts Barr, Weiss and more.
- Can be used with a Minn Kota i-Pilot Link trolling motor, allowing you to "Follow" a selected depth contour line, delivering precise, automatic boat control.
- Scrollable lake list allows you to view and research lakes from your Humminbird fish finder.
- LakeMaster PLUS cards are compatible with all GPS-equipped HELIX, SOLIX, ONIX and ION Series models, along with select 600-1100 Series models.
- Includes micro SD card with full size adapter and water resistant SD card carrying case.

Humminbird 360 Imaging

If the front of your boat is your prime fishing turf, mount up. This 360 Imaging bow-mount accessory gives you a 360-degree, detail-rich view of the water-with you standing literally in the middle of your sonar return as you troll.

Humminbird MEGA 360 Imaging - Universal

NEW ITEM

- Compatible with Minn Kota's HELIX and SOLIX trolling motors.
- The high-frequency beam of MEGA Imaging CHIRPs across the megahertz range to reveal the world below in picture-like detail all the way around your boat.
- Use MEGA 360 Imaging without sacrificing boat control. Whether trolling or using Spot-Lock, MEGA 360 Imaging is independently mounted, so your sonar picture remains unchanged as the trolling motor turns.
- Pick from two operation modes for this transducer; MEGA 360 Imaging or Side Imaging.
- View MEGA 360 Imaging alongside your choice of multiple sonar and map technologies for a complete understanding of your surroundings.
- Transducer shaft length: 50".
- Mounting bracket material: CNC-machined billet aluminum.
- Once connected to a compatible HELIX G3N unit with MEGA Imaging+ or SOLIX G2 unit, MEGA 360 Imaging view can be shared with All SOLIX models, and all HELIX G2N and G3N models when connected via an Ethernet network.
- Includes: MEGA 360 Imaging transducer with attached power cable and transducer cable, 10' SOLIX transducer extension cable, 10' HELIX transducer adapter cable, 10' MEGA 360 power cable and adjustable, aluminum MEGA 360 Imaging mounting bracket with depth retaining ring for shaft.

You've Never Fished Like This Before

With HDS LIVE, we took the most popular fishfinder series on the professional fishing circuit and made it even better for all anglers with a sleek, new design, faster processor, best-ever built-in suite of HDS navigation tools and support for a wide array of new fishfinding technology, unmatched by any other fishfinder.

Prepare yourself for a new level of fishfinding performance with HDS LIVE, which includes built-in Lowrance CHIRP sonar, support for Active Imaging, StructureScan 3D with Active Imaging and revolutionary LiveSight Real-Time Sonar. Equipped with the best set of navigation tools ever built into a fishfinder/chartplotter display, HDS LIVE features preloaded C-MAP US Enhanced Inland and Coastal mapping, automatic routing support and new Genesis Live on-screen mapping offering precision real-time mapping, down to ½-foot contours.

Active Imaging

Perfect for pinpointing fish-holding areas like rock piles, standing timber, weed beds, ditches and drop-offs, Active Imaging sonar delivers superior clarity and the highest resolution images of fish and structure at a longer range than any other structure-imaging technology.

Fish in Real-Time with LiveSight Sonar

Sonar interpretation made simple, LiveSight sonar turns all fishing into sight fishing, delivering the most detailed views of fish, down to every turn and flip of the tail, as they swim in and around cover. You'll be fishing in real-time as you watch fish react to your lure, see how they are relating to structure and gain insight on what will work, what won't and what to do next.

FishReveal

Makes fish easier to see on DownScan Imaging by combining CHIRP sonar fish targets with superior, high-resolution views of bottom detail, structure and bait fish. FishReveal removes the need to display CHIRP sonar and DownScan Imaging in a two-panel split-screen.

Lowrance ActiveTarget™ Live Sonar

LOWRANCE

NEW ITEM

- Watch high-resolution images of fish movements - tracking them as they swim in and around cover with ActiveTarget Live Sonar. When you see how fish are located near structure and watch them respond to your lure, you will know if your current technique is working, or if it's time to make an adjustment - information that is harder to get from traditional sonar or structure imaging.

- Track fish and your presentation with high-resolution views in front or below your boat, or use the Scout mode to see an ultra-wide, overhead view of structure and fish activity in front of your boat, perfect for finding bait balls and big schools of fish.

- ActiveTarget is compatible with Lowrance HDS LIVE, HDS Carbon and Elite FS fishfinder/chartplotters.

Lowrance HALO24 Radar

LOWRANCE

- 48 nm range from a compact 24" dome.
- HALO24 radar's pulse compression technology means no compromises in detection at either selected range, while beam sharpening provides enhanced separation between small or distant targets.
- Monitor two distance ranges at once in Dual Range mode which enables you to keep an eye on far away weather cells while watching for collision hazards up close.
- HALO24 radar delivers a full 360 degree sweep every second, thanks to its industry-first 60 RPM rotation at ranges up to 1.5 nautical miles.
- VelocityTrack technology provides instant visual feedback on whether targets are coming towards you or moving away. Simple color coding highlights potential hazards, improving your situational awareness and further reducing your risk of collision.
- Easy operation with harbour, offshore, weather, and bird modes.
- MARPA target tracking (up to 10 targets, 20 in dual range).

Simrad AP44 VRF High Capacity Pack

- Ideal for hydraulic steered outboard and sterndrive (inboard/outboard) boats up to 15 metres or 50 feet.
- This complete pack includes everything you need to build a Simrad autopilot system: RPU-160 reversible hydraulic pump, NAC-3 autopilot computer, AP44 autopilot controller, Precision-9 solid-state compass, plus all cabling and connectors required to build an NMEA 2000 network backbone or connect your autopilot system to an existing NMEA 2000 network.
- Our Virtual Rudder Feedback technology eliminates the need for a mechanical rudder feedback unit aboard many vessels, greatly simplifying installation.
- Easy setup with automatic tuning and compass calibration.
- Features automated turn patterns for fuel-efficient, hands-free maneuvers.
- No Drift steering holds your course against wind and tide.
- Depth contour tracking makes it easy to fish ledges and drop-offs.

Simrad SG05 Autopilot - Optimus Steering Integration

SIMRAD

- Allows boaters with Optimus EPS power steering or Optimus 360 joystick docking control systems to benefit from the unique features and performance of an award-winning Simrad autopilot.
- No need to install an additional autopilot pump, can be installed in minutes savings costly labour fees.
- Can be installed in minutes, whether for use on a new boat, or as a retrofit solution.
- Control via Simrad AP24, AP28 or OP10 display units for quick and easy use.
- Make the most of time on the water by using turn patterns such as a U turn, Spiral turn and many more - the SG05 can even initiate a zigzag turn.
- The SG05's connection to Optimus steering systems via the CAN-bus data network requires no additional hydraulic pump.
- The Simrad SG05 fully integrates with Simrad navigation systems via NSS, NSE and NSO multifunction display ranges.

Simrad Autopilot Drive Units

A reversible hydraulic steering pump is used to add autopilot capabilities to outboard or sterndrive (inboard/outboard) vessels with existing hydraulic steering systems. Larger boats need larger pumps; your choice of pump will decide whether you need a standard NAC-2 or high-current NAC-3 autopilot computer.

Navico Installation Rebate Program

The Navico Installation Rebate Program is designed to ensure the customer experience is trouble free from day one. Compensation will be provided where requirements are met in accordance with this program. The program differs slightly depending on the product brand and specifics are as follows:

Qualifications:

Have a current Direct Account/Authorized Reseller Agreement on file.

Lowrance branded products:

- A regular part of your business must include installation of marine electronics, as well as the sale of boats; OR
- You must have demonstrated sufficient expertise in marine electronics installation (with sufficient knowledge of boat construction to ensure correct installation of Navico products), and installation of marine electronics products must be a regular part of your business.
- You must be set up/approved as a Navico Authorized Reseller if not already a direct account.

B&G and Simrad branded products:

- Applicable to Certified Dealers only. This will be confirmed by Navico prior to processing the claim.
- Approved by Navico Sales Representative.

Compensation:

Lowrance branded products:

- Compensation amounts are based on the specific product installed. The maximum amount payable per boat is $400.

B&G and Simrad branded products:

- Compensation amounts are based on the specific product installed. No maximum amount payable or cap per boat.

Payments:

- Direct and Indirect Accounts - payments will be made in the form of a check. Please allow 1-2 weeks for payment processing.

Notes:

This program is subject to change at Navico's discretion. Thirty (30) days' notice will be provided prior to any change taking effect.

Claim Reimbursement Requirements:

- Only one (1) claim per vessel is required.
- Claims should be submitted using the online claim form that can be accessed using the link below. Claims submitted using the Excel claim form will not be processed.

  https://fs4.formsite.com/NavicoClaims/InstallationRebate/index.html

- Claims must be submitted within 60 days of installation. NOTE: You will not be able to submit your online claim successfully if it is already past the 60-day period.
- Must provide a copy of the NIF file and attach it to the online claim submission. For instructions, click here or refer to the Master Program Book.

Claim Status Inquiries:

- Email: sis@navico.com

Not a Navico Authorized Reseller:

- Go to; https://fs4.formsite.com/NavicoClaims/ARApplication-New/index.html

RAM Mounts

- RAM Mounts feature a double ball and socket system, providing modularity and adjustability. A RAM arm is the connection between the mounting base and your device.

- The RAM Mounts rubber ball is unique to the RAM Mounts system. This innovative rubber ball delivers vibration dampening, anti-slip capabilities, nearly 360-degrees of adjustability and the ruggedness that the marine environment demands. The RAM Mounts round bases are made out of marine-grade aluminum and are powder-coated to offer corrosion resistance for storage in salt and fresh water.
