## Bienvenidos a Repuestos El Navegante.

Aquí podrás encontrar mas de **35.000** productos de diferentes fabricantes, con una gran variedad de accesorios y componentes para tu embarcación, contamos con mas de 20 años de experiencia en el sector náutico, no dudes en contactarnos para aclarar cualquier duda que tengas, prestamos asesoría técnica lo que es un valor agregado, y te dará tranquilidad a la hora de tomar una decisión de compra.

### Nota Importante:

Debido a las restricciones causadas por el Covid 19, y otros problemas a nivel Mundial muchas empresas se vieron afectadas debido a la falta de materia prima, por este motivo tanto los precios como las fechas de entrega sufrieron cambios en gran cantidad de productos, comuníquese con nosotros a través del correo: [repuestoselnavegante@gmail.com](mailto:repuestoselnavegante@gmail.com) y solicite su presupuesto sin compromiso, también puede comunicarse vía Telegram o WhatsApp escaneando los códigos QR.

Los productos aquí publicados se encuentran en varias partes del mundo, pero la mayoría se encuentran en Estados Unidos y Europa, por lo que estos precios no incluyen gastos de envío.

También puede consultar en nuestra pagina [www.repuestoselnavegante.com](http://www.repuestoselnavegante.com) nuestros términos y condiciones antes de efectuar la compra, ahí podrá ver también nuestra política de devoluciones.

Los productos pueden ser entregados en un currier de su confianza.

En nuestra pagina podrá encontrar mas de **3.500** productos para entrega inmediata.

Nos especializamos en repuestos Volvo Penta, Cummings, Yanmar, Caterpillar, Mercruiser.

Ofrecemos repuestos para Generadores Onan, Kohler, Westerbeke, Fisher Panda y Northern Lights.

## Bottom Paint Comparison Chart

Types of Paint	Marpro	Pettit	Interlux	Sea Hawk
<b>Ablative</b> - Also known as self-polishing bottom paint, it is softer than hard-bottom paint and allows the coating to wear off at a controlled rate. Much like a bar of soap, once the boat moves in the water or there is a current and/or tide, the outer layer slowly wears away and reduces the paint buildup. The wearing away of the self-polishing bottom paint allows for new, unoxidized paint to be exposed. Therefore, if you are trailering your boat, or if it comes in and out of the water for any reason, it is recommended to use an ablative paint. Recommended for trailered boats.				
<b>BEST</b>	<b>Super-B Gold</b> Biocide: 67% Copper Dual Biocide: Yes	<b>Odyssey Triton</b> Triple Biocide	<b>Micron 66</b> (Saltwater Only) Biocide: 40.41% Copper Dual Biocide: Yes	<b>Biocop TF</b> Biocide: 38% Copper Dual Biocide: Yes
<b>BETTER</b>	<b>Super-B Ocean</b> Biocide: 45% Copper Dual Biocide: No	<b>Ultima SR-60</b> Biocide: 60% Copper Dual Biocide: Yes	<b>Micron Extra</b> Biocide: 38.6% Copper Dual Biocide: Yes	<b>Cukote</b> Biocide: 47.57% Copper Dual Biocide: No
<b>GOOD</b>	<b>Super-B Atlantic</b> Biocide: 35% Copper Dual Biocide: No	<b>Ultima SR-40</b> Biocide: 40% Copper Dual Biocide: Yes	<b>Micron CSC</b> Biocide: 37.2% Copper Dual Biocide: No	<b>AF33</b> Biocide: 47.57% Copper Dual Biocide: No
	<b>Super-B New England</b> Biocide: 25% Copper Dual Biocide: No	<b>Odyssey HD</b> Biocide: 45.7% Copper Dual Biocide: No		
		<b>Premium HRT</b> Biocide: 45.7% Copper Dual Biocide: No		
<b>Hard</b> - A hard modified epoxy. After a hard-bottom paint is applied, it is very durable and does not wear off. Hard bottom paints typically have a higher ratio of pesticides (usually copper) in them that are exposed in the outer surface of the bottom paint coating. As time goes by, the copper oxidizes and becomes less effective in combating marine growth. Hard bottom paint is generally used on boats when the boat sits for long periods of time without moving at all, or there is little movement of water (current/tide) around the boat. You should not use a hard paint if the boat is removed from the water longer than 72 hours, such as on a trailer or a lift. After 72 hours the hard-bottom paint will oxidize on the outer surface as a result of the air and becomes ineffective. If the boat is trailered or in a lift, the use of an ablative bottom paint is recommended.				
<b>BEST</b>	<b>Superkote Gold</b> Biocide: 67% Copper Dual Biocide: Yes	<b>Trinidad PRO/Trinidad SR</b> Biocide: 75% Copper Dual Biocide: Yes	<b>Ultra with Biolux</b> Biocide: 66% Copper Dual Biocide: Yes	<b>Tropikote</b> Biocide: 75.8% Copper Dual Biocide: Yes

# HIGH LOAD COPPER BOTTOM PAINT

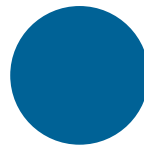

400 SQ FT / GAL YIELDS 2 MILS D.F.T.  
 TIME TO OVERCOAT - 80° F - 8 HRS  
 TIME TO LAUNCH - 16 HOURS  
 2 COATS, 3RD ON WATERLINE

THINNER  
 AS REQUIRED FOR  
 PROPER FLOW AND  
 PERFORMANCE  
 QUARTS - 7-2675  
 GALLONS - 7-2674

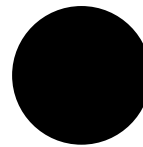

## Slime Control Xtra™ Multi-Season Protection - 67% Copper Boosted Copper Ablative

■ SUPER-B GOLD™ is the highest performance ablative copolymer on the market today. The highest copper content (67%) in our line, and in addition our performance booster SCX™ (Slime Control Xtra™) provides outstanding protection against slime, grass and weed. Continual release of biocide makes this self polishing copolymer most effective for anti-fouling protection, with only minimal paint buildup. Tough, multi-season paint for superior protection against hard and soft growth in extreme fouling conditions, and can re-launch after extended haul-out while retaining original antifouling properties. Perfect for powerboats and sailboats, and can be applied directly over properly prepared ablatives, epoxies and vinyl's, and most any other hard or ablative bottom paints.

## Slime Control Xtra™ Multi-Season Protection - 67% Copper Boosted Hard Modified Epoxy

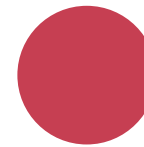

■ SUPERKOTE GOLD™ is the highest performance modified hard epoxy product on the market today. The highest copper content (67%) in our line, and in addition our performance booster SCX™ (Slime Control Xtra™) provides outstanding protection against slime, grass and weed. Continual release of biocide makes this modified hard epoxy the most effective for anti-fouling protection. Superior protection against hard and soft growth in extreme fouling conditions. Perfect for powerboats and sailboats, and can be applied directly over properly prepared epoxies and vinyls, and most any other hard bottom paints.

## SUPER-B OCEAN™ Multi-Season Protection 45% Copper Ablative

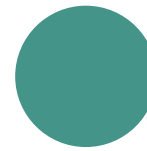

■ **SUPER-B OCEAN™** has a high cuprous oxide content (45%) with a coating that provides a self-polishing ablative technology. This coating will provide multi-season protection for moderate fouling conditions. No paint buildup will occur and eliminates the need for heavy sanding. Perfect for powerboats and sailboats in seasonal boating conditions. Can be applied directly over properly prepared vinyl's, epoxies and most any other hard or multi-season bottom paints.

# SINGLE SEASON COPPER BOTTOM PAINT

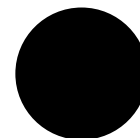

## Single Season Ablative - 35% Copper

■ **SUPER-B ATLANTIC™** is a single-season, high cuprous oxide ablative antifouling bottom paint that utilizes a highly effective self-polishing technology. No paint buildup will occur and eliminates the need for heavy sanding when it's time to re-coat your hull. SUPER-B ATLANTIC is perfect for powerboats and sailboats in seasonal boating condition. Apply directly over properly prepared vinyls, epoxies and most other hard or multi-season bottom paints.

## ALUMA PRO™

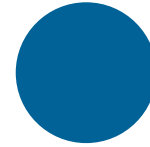

Multi-Season Protection

Bright Color Ablative Bottom Paint

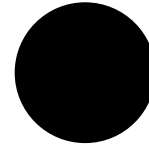

Perfect For Aluminum, Fiberglass Hulls, & Trailerable Boats

45% Copper Thiocyanate

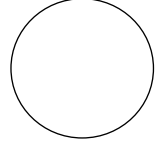

■ **ALUMA PRO™** bottom paint has the cleanest, brightest colors, the whitest whites and the blackest black. Combine all of that with a multi-season self polishing ablative copolymer, and our bottom paint line is as effective as it is clean & vibrant. This product provides antifouling protection against barnacles, algae and hydroids in salt and fresh water on boat bottoms only. This product has universal application over all types of properly prepared bottom paints. For use on fiberglass, aluminum, wood & steel hulls.

## AQUA B™

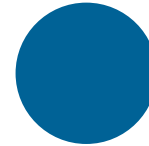

Multi-Season Protection

45% Copper Ablative

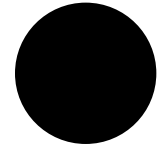

Water Based - No Solvent Smell

Cleans Up With Water

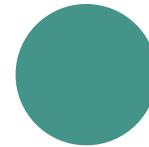

■ **AQUA B™** has a high copper content (45%) in a waterbase ablative technology. This coating will provide multi-season protection for medium fouling conditions. No paint buildup will occur and eliminates the need for heavy sanding. Multi-season paint for superior protection against hard and soft growth in fouling waters, and can re-launch after extended haul-out while retaining original antifouling properties. Perfect for powerboats and sailboats, and can be applied directly over properly prepared ablatives, epoxies and vinyl's, and most any other hard or ablative bottom paints.

## COPPER FREE BOTTOM PAINT

## SUPER-B ECO™

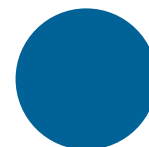

Multi-Season Protection

Copper Free Antifouling

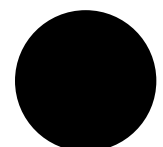

Professional Boatyard Coating

5.6% Tralopyril & 4% Zinc Pyrithione

■ **SUPER-B ECO™** is a high performance solvent-base antifouling paint that uses a high-end technology of 5.6% tralopyril and 4% zinc pyrithione. Provides multi season antifouling protection against barnacles, algae, slime and hydroids in salt and fresh water on boat bottoms only. Its ablative copolymer base renders a smooth finish with durability and abrasion resistance. Releases biocide by the constant exposure of new paint film to the water. Has universal application over all types of properly prepared bottom paints. For use on fiberglass boats, as well as aluminum, wood and steel hulls.

# EPOXY PRIMER

## Barrier Coat Primer - 7-267-

■ **MAR-PROTECT™ EPOXY PRIMER** provides a seamless epoxy coating that creates a high build water barrier that eliminates any direct path for water migration. Mar-Protect Epoxy Primer is a heavy duty 3:1 epoxy coating that prevents water absorption and blistering of your fiberglass hull, and makes an ideal barrier coat for metal hulls.

- High Build Epoxy Primer
- Prevents Water Absorption and Blistering
- Eliminates Direct Path for Water Migration
- Heavy Duty 3:1 Epoxy Coating
- Excellent Anti-Corrosive Substrate Primer for Metals

# TOPSIDE ENAMEL

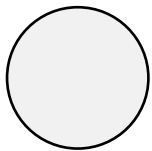

## Alkyd Topside Enamel

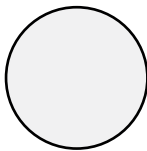

■ **PROFESSIONAL FISHBOAT COATINGS** are single component topside alkyd enamels giving you a hard protective coating for high gloss, color retention, and long durability. PROFESSIONAL FISHBOAT COATINGS are fast drying which, when brushed or rolled, give a smooth finish with excellent handle and flow. This widely used alkyd topside enamel has good resistance to tough chemicals, cleaning solutions and ultraviolet light with its advanced ultraviolet technology. Can be used on fiberglass, wood, aluminum and steel.

- Brushed or rolled gives a smooth finish with excellent handle and flow
- High Gloss with Great UV protection
- Good color retention
- Good durability to cleaning solutions, abrasion & stains
- Fiberglass, Wood, Aluminum and Steel
- High Performance Coating for Marine, Industrial & Offshore Structures

# APPLICATION TIPS

## APPLYING ANTIFOULING PAINTS

- Mechanically stir the paint thoroughly
- Use a 3/8" - 1/2" nap solvent resistant roller. Recommended thickness is normally achieved by the application of 2 - 3 coats.
- Apply an extra coat of antifouling to the waterline. Allow paint to dry thoroughly between coats and prior to launch.
- Small amounts of thinner may be required but should be kept to a minimum.
- Only apply between 50 - 85 degrees F.
- Humidity greater than 65% may slow drying
- Do not paint in direct sunlight or high winds
- Surface must be dry and free from contamination
- All products are formulated to cover 400 square feet per gallon
- Read the product label thoroughly

## HOW MUCH ANTIFOULING PAINT DO I NEED?

The amount of paint needed can be summarized:

- $\text{Length} \times \text{Beam} \times .85 = \text{Total}$
- $\text{Total} / 400 \text{ square feet per gallon} = \text{Total Quantity Needed}$
- This is for 2 coats
- 2-3 coats are recommended

BOAT SIZE	BOTTOM PAINT NEEDED
14' Outboard	1 Quart
18' Runabout	2 Quarts
20' Sailboat	3 Quarts
24' Runabout	3 Quarts
30' Sailboat	1 Gallon plus 2 Quarts
32' Cruiser	1 Gallon plus 2 Quarts
36' Auxiliary	2 Gallons
40' Cruiser	2 Gallons

## ALUMINUM PONTOON BOTTOM SYSTEM

■ **MarPro's Aluma Pro** antifouling paint for aluminum and pontoon hulls, when applied over Mar-Protect Epoxy Primer, provides maximum protection for the hull preventing exposure to electrolysis and corrosion. By keeping the aluminum hull from coming in contact with both salt water and the antifouling paint film, this system eliminates the worries associated with protecting underwater aluminum.

### For Bare Hulls:

Many pontoon boat manufacturers apply a wax coating to pontoons before they leave the factory in order to better preserve the aluminum finish. This wax **MUST** be removed prior to painting.

1. Degrease/Dewax aluminum hull by scrubbing with a commercial dewaxer using a wet/dry method to remove this wax.
2. Sandblast or sand the surface with 60-grit sandpaper to achieve a good adhesion profile.
3. Apply two coats of Mar-Protect Epoxy Primer.
4. Apply two coats of Aluma Pro.

### For Previously Painted Hulls:

1. If the previous coating is compatible and is in good condition, thoroughly sand with 80-grit paper.
2. Solvent clean with MarPro Thinner to remove residue.
3. Apply one coat of Aluma Pro. If the previous coating is soft or in poor condition, remove to the bare surface by sanding or using a paint remover. Proceed with the Bare Hulls system as described above.

### For Previously Primed Hulls:

Mar-Protect Epoxy Primer may be applied over existing two-part epoxy finishes, provided they are in good condition. If existing primer is in poor condition, remove completely and proceed with the Bare Hulls system described above.

1. Sandblast, or heavily sand the surface with 60-grit sandpaper to achieve a good adhesion profile.
2. Wipe clean with MarPro Thinner.
3. Apply two coats of Mar-Protect Epoxy Primer.
4. Apply two coats of Aluma Pro. The coating performance is only as good as the surface to which it is applied.

## HYDROCOAT TECHNOLOGY ANTIFOULING

**HYDROCOAT®** Water-Based Ablative Paints have fewer VOC's, no foul smell and clean-up is simple with soap and water. Yet with all this green going for it, Hydrocoat® is a very effective antifouling and is as good as the best solvent-based bottom paints. Hydrocoat® can be applied over any other bottom paint without any preparation. Hydrocoat® makes everything easier, from painting, to clean-up, to breathing.

**Hydrocoat®** offers excellent multi-season protection against all types of fouling. Its innovative technology replaces the harsh solvents found in most bottom paints with water, resulting in an easier application and clean up, with no heavy solvent smell. Hydrocoat®'s ablative surface wears away with use, exposing fresh biocide while eliminating paint build-up and the need for sanding. Its unlimited dry time to launch allows for painting in the fall.

**Hydrocoat® ECO** Self-polishing, water-based ablative technology with organic Ecomea® biocide. Hydrocoat® Eco utilizes the highest level of new metal-free Ecomea® biocide available combined with a slime fighting inhibitor for unprecedented multi-season protection. This copper-free formula is compatible over almost all bottom paints and is safe for use on all substrates including steel and aluminum.

## ODYSSEY® MULTI-SEASON ABLATIVE ANTIFOULING

**Odyssey®** Solvent-Based Antifouling Paints wear away with use exposing new biocides. Both the biocides and the paint film disappear over time. These paints can be used multi-season and maintain a more steady performance throughout their useful life. These paints require movement of the boat in order to work. Works similar to a bar of soap by polishing away with use.

**Odyssey® Triton** delivers exceptional, multi-season, tri-biocide performance by combining the proven reliability of Copper Thiocyanate, the impressive strength of ECONEA®, and the versatile organic boosting biocide Zinc Omadine. This combination makes Odyssey® Triton effective against all types of fouling found in the harshest of marine environments.

**Odyssey® 60** delivers exceptional, multi-season, performance against fouling by offering the highest copper content in an ablative available. With significantly more copper than many competitors, Odyssey® 60 offers stronger protection at a better value. Fast dry technology provides quick turnaround and increased production for all applicators.

**Odyssey® HD** multi-season antifouling combines controlled polishing ablative technology with a high copper content to provide a paint film strong enough to handle the tough marine environment from coast to coast. Odyssey® HD is compatible over most finishes and will not build up over time, leaving running surfaces smooth and clean. Odyssey® HD's copolymer resins withstand hauling and relaunching without losing effectiveness for both power and sailboats.

### PETTIT BOTTOM PAINT COMPATIBILITY CHART

This chart is intended as a guide only, additional preparation may be involved due to condition and age of the substrate. For additional paints or other preparation information, contact us at: 800-221-4466 or www.pettitpaint.com

\*Tin copolymer paints and modified antifouling paints (SPC technology) should be sealed with a coat of 6627 Tie Coat Primer, allow to dry 4 hours and apply new antifouling paint. This document is intended as a guide only, additional preparation may be involved due to condition and age of substrate.

## TRINIDAD\* HARD ANTI FOULING

TRINIDAD\* products have a proven track record of dependable antifouling performance, the active ingredient leaches out while the paint film stays mostly intact. Trinidad\* products do not require movement and work equally well at the dock and underway. Trinidad\* harnesses the power of an extremely high load of biocides to combat even the most extreme fouling conditions.

**Trinidad\*PRO** - the standard by which all bottom paints are measured. It remains the longest lasting, strongest antifouling paint available. Trinidad\*PRO provides unprecedented resistance to all fouling. Its hard protective coating has excellent adhesion, and withstands the toughest abuse. Left in the water, it will provide years of dependable service.

**Trinidad\* 75** - with a proven track record of dependable antifouling performance, Trinidad\* 75 has earned its reputation as one of the most respected names in the industry. Trinidad\* 75 harnesses the power of an extremely high load of cuprous oxide, to combat even the most extreme fouling conditions. Trinidad\* 75's durable, hard epoxy finish has excellent adhesion, and when left in the water, will provide years of dependable service. The antifouling of choice for professional applicators everywhere.

**Trinidad\* HD** provides excellent, long lasting protection, even under the toughest antifouling conditions. Trinidad\*HD provides dependable in-water antifouling protection while meeting the 330 gram per liter VOC regulations. Trinidad\*HD does not require movement and works equally as well at the dock or underway. It's durable hard modified epoxy finish has excellent adhesion, and is highly abrasion resistant. A good choice for powerboat or sailboat use in tropical and other warm waters where extreme fouling exists.

## UNDERWATER METAL PROTECTION

**Running Gear Guardian™** is designed to prevent fouling on all underwater metal running gear such as propellers, trim tabs, propeller shafts and rudder, prop struts, sail drives, strainers, bow and stern thrusters and other underwater metal or running gear by providing incredibly effective and long-lasting protection. Even low levels of fouling on running surfaces can cause efficiency losses up to 20%.

BLACK - 1870

## HRT\* - HYBRID REACTIVE TECHNOLOGY

HRT\* - Hybrid Reactive Technology features high density biocide utilization to maximize effectiveness by using biocide more effectively along with film modifiers to reduce yearly build-up, maintain uniform color consistency, and lower weight while providing a smoother finish than traditional paints. These film modifiers also increase coverage by 25% and continues working whether the vessel is stationary or in motion.

**Premium HRT\*** multi-season high copper antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. Equally effective on both power and sailboats, Premium HRT\* provides excellent antifouling protection without the costs associated with high end antifoulants. Its ease of use, impressive coverage, and attractive price tag make it an excellent choice for use as a boatyard's "house paint".

**ECO HRT\*** copper-free antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. ECO HRT\* smooth durable paint surface wears away over time, eliminating paint film build up and the need for sanding. This copper-free formula can be safely applied to all aluminum-hulled boats. It provides excellent antifouling protection and can be hauled and re-launched without any loss of effectiveness.

**Neptune HRT\*** water-based antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment. Soap and water clean up along with no strong solvent smell, yields a user-friendly application. Neptune HRT\* does not require sanding between coats saving time and money. With low VOC it's ideal for marinas under restrictions. Neptune HRT\* can be used over all previously painted surfaces.

**Unepoxy HRT\*** seasonal antifouling uses the latest technology available to create a hybrid paint film strong enough to handle the tough marine environment without building up over time. It is a dependable antifouling paint formulated to provide outstanding protection at a very affordable price. Its smooth durable finish is able to withstand beaching, trailering, and season long abuse.

## HOW MUCH BOTTOM PAINT DO I NEED?

- 1 Calculate the square footage of the hull to be painted - multiply the length of the hull by the beam then multiply that total by .85

$$\text{Length} \times \text{Beam} \times .85 = \text{Square Feet of Hull}$$

- 2 Divide that number (your square foot total) by the amount of coverage the selected bottom paint offers. This will give you a one-coat total.

## ANTIFOULING SPEEDCOATING

**Vivid®** offers the brightest colors, the blackest black and the whitest white available. Dual biocides provide excellent multi-season protection. Hybrid technology incorporates all the benefits of ablative and hard paints in one. Its hard, smooth surface withstands trailering and is easily burnished to a high performance racing finish. Vivid resists build-up and can be hauled and relaunched without repainting. Safe for use on properly primed aluminum. The perfect choice for any boat.

**Black Widow®** is the slickest, fastest, ultra-smooth burnishable racing finish available. Its powerful dual-biocides provide multi-season protection in all waters. Black Widow® is easily applied by roller, brush, or spray and is easily burnishable to a metallic "gun-metal" shine. Black Widow® makes an excellent paint for the bottom of any boat where speed is the number one priority, including racing sailboats, and high performance offshore powerboats. Black Widow® contains four strong slickening agents: Molybdenum Disulfide, PTFE, Graphite and Silicon.

## EPOXY PRIMER BARRIER COAT

### Pettit Protect® - 2 Coat Barrier Coat

#### High-Build Epoxy Primers -

- Faster and easier application
- Comprehensive gelcoat blister repair and prevention
- High-build formula covers in 2 coats vs the competitions 5 or 6 coats
- Exclusive low-VOC formula developed specifically for friendly application

GRAY - 4700/4701

WHITE - 4100/4101

**Pettit Protect®** is a heavy duty, two component, epoxy coating for use where maximum resistance to fresh or salt water is required. It reduces water absorption making it an excellent choice for osmotic blister prevention and repair. Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection. It also offers dependable corrosion protection on all underwater metals.

### What makes Pettit Protect® different?

**Pettit Protect®** uses significantly more of the waterproofing agent MICA. MICA at the highest concentration possible provides excellent protection from water intrusion.

## PROPELLER AND SHAFT

**Prop Coat Barnacle Barrier® 1792** provides protection for bare metals including steel, stainless steel, cast iron, copper, bronze, galvanized steel, and lead. It forms an excellent bond to underwater metals and running gear, and inhibits corrosion on these surfaces. Prop Coat Barnacle Barrier®'s smooth, hard surface will self-clean in service, and can be used above or below the waterline. The dried film of Prop Coat contains the highest percentage of pure Zinc.

## CLEANERS / DEWAXERS

**Bio-Blue Hull Surface Prep 92** de-waxes, cleans, and prepares bare fiberglass for painting. Easily removes unwanted contaminants and mold release agents prior to painting. When used with 4700/4701 Pettit Protect® and antifouling paint, it is part of an easy 1-2-3 system.

PETTIT ABLATIVE ANTIFOULING PAINTS

Pettit Ultima® SR-60 Ablative Antifouling Paint

PETTIT

- Dual biocides provide exceptional, multi-season, performance.
- Provides unmatched multi-season performance.
- High copper content yields best protection and longevity in high fouling areas.
- Slime release technology combines high biocide load with PTFE for better performance.
- **Thinner:** 185 Ablative Thinner.

PETTIT UNDERWATER METAL PROTECTION

Pettit Running Gear Guardian

- Superior underwater metal protection.
- Multi-season dual biocide formula prevents all fouling.
- Easiest application with long lasting results.
- Excellent adhesion and corrosion protection.
- Durable, slick, ultra-smooth finish.
- Increased fuel efficiency.
- For use on ALL underwater metals; propellers, rudders, trim tabs, propeller shafts, strainers, sail drives, struts, bow & stern thrusters.
- Will cover 65 sq. ft. of underwater metals.

Order No.	Mfg. No. / Description	List Price
<b>733750</b>	(1870)	<b>\$181.99</b> E0-9463100

Pettit Prop Coat Barnacle Barrier

- Provides superior underwater metal corrosion protection.
- Excellent adhesion to clean metals.
- Dried paint film contains the highest amount of pure zinc available.
- It's smooth, hard surface will self-clean in service and can be used above and below the waterline.
- Fast dry formula in an easy to use aerosol spray can or quart for large applications.

Order No.	Mfg. No. / Description	List Price
<b>733801</b>	(1792SC) 20 oz.	<b>\$29.79</b> E0-4322000

PETTIT PRIMERS

Pettit Protect High Build Epoxy Primer

- A heavy duty, two component, epoxy coating for use where maximum resistance to fresh or salt water is required.
- It reduces water absorption making it an excellent choice for osmotic blister prevention and repair.
- Its high-solids formula allows for quicker and easier application with fewer coats necessary for effective protection.
- Higher-solids equals 3 coat application instead of 6 needed by competitive products.
- It also offers dependable corrosion protection on all underwater metals.
- Use 97 Epoxy Thinner is needed.

**Pettit EZ-Fair - Epoxy Fairing Compound**

- EZ-Fair is a lightweight, two-part epoxy putty designed for filling and smoothing surface imperfections above and below the waterline.
- The special resins used in EZ-Fair impart a high degree of water and chemical resistance to the product, making it an integral part of the Pettit Gelcoat Blister Repair System.
- In addition, EZ-Fair is the product of choice for fairing metal keels or any underwater surface.
- Use it for leveling uneven surfaces, filling gouges, scratches or other damage on fiberglass, wood or metal surfaces.
- It's excellent chemical and water resistance make it the ideal choice for repairing blistered gelcoat in an osmotic blister repair system.
- EZ-Fair is non-sagging and non-shrinking and sands to a smooth finish.

**PETTIT EPOXY SYSTEMS AND COMPONENTS**

**Pettit Flexpoxy - Flexible 2-Part Repair Epoxy**

**PETTIT**

- Flexpoxy is a two-part epoxy resin that does not sag, run or shrink.
- Its thick formula allows it to fill large cavities in a single application.
- When cured, it remains flexible making it ideal for environments that require flex such as keel joint repairs.
- Flexpoxy creates a superior bond to all epoxies, polyester resins, metals and wood.
- It can be sanded, machined, cut, filed, planed, drilled, tapped or nailed making it perfect for filling, filleting, forming, fairing and fastening.
- This low odor formula is resistant to chemicals and is safe to use above and below the waterline.
- Flexpoxy can be molded and shaped during application and is easily tinted with paints and stains.
- Flexpoxy can be over coated by most paints and stains.

<b>735300</b>	(7076CRT) 2:1 A/B Mix, 250 ml	<b>\$29.89</b> E0-2422000

**PETTIT WOOD FINISHES**

**Pettit EZ-Wood Sealer**

**PETTIT**

- Seals open wood grain providing a more uniform finish.
- For all woods including teak, mahogany, oak, ash, fir, and plywood.
- Prevents excessive vehicle absorption from primers, paints, or varnishes.
- Excellent penetration into raw wood for improved stability and moisture resistance.

Order No.	Mfg. No. / Description	List Price
<b>380511</b>	(2018QT) Quart	<b>\$30.59</b> E0-4922000

**PETTIT THINNERS**

**Pettit Brushing Thinner #120**

**PETTIT**

- A general purpose thinner.
- Recommended thinner for clean-up of all Pettit, Z\*Spar and Shipendec solvent based topside enamels and varnishes as well as all antifouling paints except for Hydrocoat and Ultima SR-60.

Order No.	Mfg. No. / Description	List Price

<b>735956</b>	(121QT) Quart	<b>\$23.99</b> E0-9971000

**Pettit Fiberglass Dewaxer**

**PETTIT**

- Fiberglass Dewaxer is a special blend of solvents, formulated to cut through and remove mold release, grease, and previously applied waxes from the gelcoat.
- Can be used above and below the waterline.
- Fiberglass de-waxing is necessary because visible and invisible release agents remain on the hull from the manufacturing process.
- Covers approximately 400 square feet per gallon.

Order No.	Mfg. No. / Description	List Price
<b>736237</b>	(D95GL) Gallon	<b>\$48.79</b> C0-7414000

**Pettit EZ Cabin Coat Interior Paint**

**PETTIT**

- A high performance, water-based paint specially formulated for areas that are prone to moisture.
- Its durable finish easily withstands the humid, challenging conditions that promote unsightly mildew growth and cause paint failures in cabin interiors.
- Provides a moisture resistant, mildew proof finish that will stay good-looking, bright and color-fast for years.
- Ideal for high humidity areas such as cabin interiors, heads, lockers, cabinets, drawers and closets, it can be used on all interior surfaces, such as drywall, wood, fiberglass, wood coverings and even tile.
- Provides excellent adhesion to most glossy surfaces without the need for sanding.

# Premium Yacht Paint Solutions

## Topside Finishes

### Perfection®

A high-gloss, high-performance two-part polyurethane that combines a long lasting abrasion and chemical resistant finish with superb protection from the detrimental effects of UV rays. Its abrasion resistance makes it ideal for application to decks and gunwales. Perfection can be used anywhere above the true waterline on properly prepared fiberglass, wood, aluminum, steel and epoxy. The superb high-gloss characteristics, long-wasting color retention and durability makes Perfection the finest coating available.

Professional quality results are made easy with Perfection.

### Brightside® Polyurethane

Brightside is a hard, easy to use high-gloss one-part polyurethane topside finish. It has excellent application characteristics that yield a "sprayed on" look when brush applied in thin coats. Brightside is ideal for use anywhere above the true waterline and is easy to clean, resists staining and has great abrasion resistance. Brightside is also available in select colors in pints for striping and boottops.

### Bilgekote®

A fast drying, durable coating formulated for application in bilge areas. Bilgekote helps prevent substrate absorption of oil, gasoline or sludge (into wood and fiberglass surfaces). Want an easy-to-clean finish? Try Bilgekote today!

Gray YMA100	White YMA102

# Interlux® Antifouling Range

## Micron Technology Polishing Antifouling

- Micron is the original controlled-polishing antifouling, offering outstanding performance longevity with an extensive track record
- Longest lasting, multi-season protection with the ability to haul and relaunch without repainting
- Becomes smoother with use, reducing drag and maximizing fuel savings.

### Micron® 99

Ultimate Self-polishing antifouling designed for large yachts

- Multi-season antifouling with advanced Biolux® SPC Technology
- Controlled polishing for sustained protection in all waters
- For use on larger hulls (82+ feet) - professionally licensed application

Not for use in California

### Micron® CSC

Proven and trusted multi-season antifouling for all fouling threats

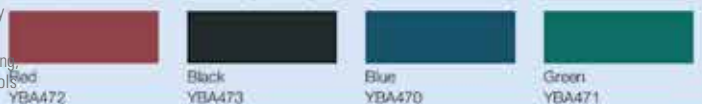

- Proven and trusted multi-season performance
- Suitable for power and sail, in all waters
- Minimizes paint build-up and sanding
- Not for use on aluminum
- Also available in High Solids VOC compliant formulation

### Micron® 66

Advanced self-polishing antifouling for multi-season performance

- Premium antifouling performance in the harshest fouling conditions - Use in salt water only
- Controlled polishing even while stationary
- Helps minimize sanding, drag and fuel consumption

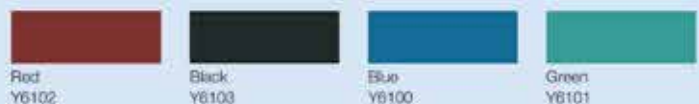

### Micron® WA

Micron Technology in a water-based formula

- Water Activated Matrix™ Technology delivers powerful protection with crisp, vibrant colors
- Outstanding protection in all waters
- Easy to apply, fast drying and easy clean up

Not for use in California

### Micron® Extra

Exceptional antifouling performance in all conditions

- Exceptional multi-seasonal polishing antifouling protection for all waters
- Biolux boosts performance by controlling slime
- Haul and relaunch without repainting with no paint buildup

### VC®17m Extra

High-performance, Low-friction antifouling for a smooth finish and dual protection for power and sail boats

- Dual protection with Biolux® Technology for protection against all fouling types
- Thin film with a fluoro-microadditive creates smooth, low-friction surface
- Provides a hard, smooth racing finish
- Quick-drying for a fast relaunch

Not for use in California

### NEW Micron Navigator™

Environmentally conscious multi-seasonal antifouling

- Water-based copper free available in bright colors
- Fast drying and lower temperature application - schedule flexibility
- Suitable for use on all boats types and substrates (includ. aluminum), in all waters

NEW!

### Micron® CF

Multi-season copper free antifouling for all substrates in all waters

- Multi-season, copper free antifouling
- Combats slime, shells and other fouling threats
- Suitable for use on all boats and substrates

## Pacifica® Plus

Ablative antifouling in a copper free formula, suitable for all boats and waters

- Ablative copper free season to season antifouling
- Biolux® Technology and E-conea™ for proven protection
- Fast-drying, low VOC

E-conea™ is a trademark of Johnson & Johnson.

## Ultra with Biolux®

Premium hard antifouling protection for high fouling areas

- Premium hard antifouling for long-lasting protection
- Biolux® Technology to help block slime
- Fast-drying, low VOC

## ACT

Well performing, low-maintenance season to season ablative antifouling

- Season to season antifouling performance
- Eliminates build-up and sanding
- Overcoats existing antifouling

Not for use in California

## Fiberglass Bottomkote® Aqua

Versatility, value and protection in a water-based antifouling

- Multi-Seasonal high performance antifouling performance
- Smooth, colorfast, and durable finish
- Thin film finish delivers minimal paint build-up

Not for use in California

For use on larger vessels (82+ feet) - professionally licensed application only.

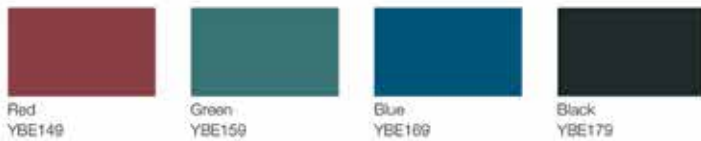

## Aqua-One Performance Ablative

Convenient water-based antifouling for outstanding protection

- Outstanding water-based antifouling
- Easy application and clean-up
- Minimizes sanding requirements

Not for use in California

## Trilux® 33

Bright antifouling for all boats including aluminum

- Available in three bright colors, including white
- Biolux® Technology to help block slime
- Formulated for use on all boat types and substrates including aluminum
- available in aerosol formulation for use on drives and underwater metals

\* available in aerosol

## Fiberglass Bottomkote® NT

Quick to apply, easy to maintain, long-lasting antifouling

- Seasonal performance at a good value
- Dual resin technology minimizes build-up and sanding
- Paint and launch on the same day

## Non-antifouling InterZinc®

Underwater metal protection

- Metallic underwater corrosive protection
- Convenient, easy to use aerosol
- Superior adhesion for underwater metals

## InterProtect® Primers with Micro-Plates®

InterProtect primers with Micro-Plates can be used above and below waterline and on all substrates. Micro-Plate® Technology creates an overlapping barrier to help stop water migration through the coating reducing water migration through the epoxy to the hull surface which could lead to blistering.

### InterProtect® 2000E

- Fast drying, easy application
- Use as part of a no sand system
- The industry standard for more than 20 years

### InterProtect® HS

- High solids two-part epoxy
- High solids for fewer coats to achieve film build
- Protect metals from rust and oxidation
- Reduced solvent emissions

Y2000E

White Y2002E

Gray YPA423KIT

## Interlux® Wood Solutions

### Cetol® Marine

Cetol Marine with Next Wave™ UV-absorbing technology is a durable translucent protective wood finish for use above the waterline on interior and exterior woods. Next Wave technology is a unique UV package of advanced Ultra Violet absorbers that provide greater protection, durability and longevity. Cetol Marine has excellent weathering properties and allows for the natural expansion and contraction of wood which prevents Cetol Marine from cracking. Cetol Marine is also micro-porous, allowing moisture to escape from the wood which will prevent blistering and flaking of the finish. Cetol Marine is an easy to apply, low maintenance alternative to wood oils and other wood treatments.

• **Cetol Marine** produces an attractive dark amber appearance on wood.

• **Cetol Marine Light** produces a lighter amber appearance on wood.

• **Cetol Marine Natural Teak** has a rich golden color on wood.

• **Cetol Marine Gloss** provides a high-gloss, hard-wearing, UV protection and is developed as a topcoat for Cetol Marine, Cetol Marine Light and Cetol Marine Natural Teak.

## Perfection® Plus

A high performance, two-part clear polyurethane, Perfection Plus delivers the ultimate in performance longevity resistance. The chemical cure urethane formulation combines with a best-in-class UV and HALS package to offer outstanding chemical and abrasion resistance and superb gloss and gloss retention that lasts four times longer than conventional one-part varnishes.

## Schooner® Gold

This product offers a higher film build per coat that allows both professional applicator and boat owners to achieve great results faster and in fewer coats. This 'thicker' varnish will require thinning, in most conditions, to achieve optimum flow. Schooner Gold has shown to out-perform other leading brands and will offer superb longevity and durability.

## Schooner® 96

Combines the very best of classic varnish craftsmanship with the newest technology. Schooner Varnish contains ultra-violet filters to screen the sun's damaging rays for remarkable durability, excellent water resistance and silky application. Superior self-leveling property and a bright, clear, high-gloss finish with the traditional golden color.

## Compass® Clear

Compass Clear is a highly durable one-part polyurethane gloss varnish that contains a unique combination of ultra-violet additives, HALS, surface stabilizers and antioxidants to ensure long-term gloss and clarity. Polyurethane resin adds incredible abrasion, chemical and water resistance. Superior leveling properties along with silky application allows you to achieve a professional, long lasting finish. Compass Clear is suitable for all internal and external woods, and can be applied directly to oily timber, such as teak.

## Goldspar® Satin 60

A modified polyurethane, low luster varnish designed for application to interior wood surfaces. It produces a warm, rich satin sheen finish that resists scratches and stains and applies easily enough to yield truly professional results by either brush or spray. Goldspar Satin Varnish 60 is ideal anywhere a low luster finish is desired, such as cabin soles, cabinets, counters and tables.

**INTERLUX ABLATIVE ANTIFOULING PAINTS**

**Interlux Micron® 66® Antifouling Paint with Biolux SPC**

- Micron 66 combines Biolux Technology for increased antifouling performance with a true Self Polishing Copolymer that gradually polishes over time, even while stationary, to a smooth finish.
- This ensures maximum continuous protection over a long product life, helping to minimize drag and fuel consumption.
- **Suitable water types:** Sea water and brackish water.
- **Thinner:** Special Thinner 216 or Brush-Ease 433.

**Interlux Pacifica® Plus Antifouling Paint with Biolux**

- Pacifica Plus is a copper free ablative antifouling with dual antifouling properties: Econeal for the control of barnacles and shell fouling, and Biolux Slime Blocking Technology.
- It is a fast-drying, low VOC, high solid ablative antifouling which minimizes paint build-up. Suitable for all boats including sail, power and ideal for aluminum pontoon boats.
- **Suitable water types:** Sea water, fresh water and brackish water.
- **Thinner:** Special Thinner 216.

**INTERLUX SAILBOAT ANTIFOULING PAINTS**

**Interlux VC® 17m Extra Antifouling Paint with Biolux**

- VC 17m Extra is a high-performance, friction-reducing antifouling that combines traditional antifouling protection with Biolux Slime Blocking Technology for complete protection in fresh water or low-fouling salt water, against zebra mussels and other fouling organisms.
- VC 17m Extra is formulated to be up to eight times thinner than traditional paint and with a fluoro-micro-additive that produces a smooth, low-drag surface, making it great for racing and cruising boats.
- **Suitable water types:** Sea water, fresh water and brackish water.
- **Thinner:** Special Thinner 216.

411328	(YMA100/QT)	Gray	Quart	\$26.79	E0-9002000

- Bilgekote is a fast drying, durable coating formulated for application to bilge areas.
- Bilgekote helps prevent absorption of oil, gasoline or sludge into wood and fiberglass.
- **Suitable for above the waterline:** Bilge/lockers.
- **Thinner:** Brush - Brushing Thinner 333; Spray - Special Thinner 216.

## INTERLUX UNDERCOATS (ABOVE THE WATERLINE)

## Interlux Epoxy Primekote™ Multi-Purpose Primer

- Suitable for use under all Interlux topside finishes, Epoxy Primekote is a multi-purpose two-part epoxy primer.
- It can be used to resurface cracked and crazed gelcoat, and over clear epoxies to eliminate the effects of amine blush.

Order No.	Mfg. No.	Size	List Price	
409108	(Y404KIT/01)	Gallon Kit	\$116.19	E0-4178000
409118	(Y404KIT/QT)	Quart Kit	\$39.99	E0-9992000

## Interlux Pre-Kote® Primer

- VOC compliant, Pre-Kote is an excellent undercoat for use with Brightside polyurethane, yacht enamels or any one-part topside finish.
- Formulated with Microspheres, it gives superior build and hide, whilst also improving flow and sandability.

Order No.	Mfg. No.	Color	Size	List Price

## INTERLUX FILLERS AND EPOXY (ABOVE THE WATERLINE)

## Interlux Seam Compound White

- A durable, tight sealing compound perfect for filling hull seams of wooden boats above the waterline.
- Once applied, it remains pliable to allow for expansions and contractions of planks.
- It's also highly adhesive when applied over surfaces that have been primed properly.

Order No.	Mfg. No.	Color	Size	List Price	
410579	(Y31/QT)	White	Quart	\$39.99	E0-9992000

## INTERLUX FILLERS AND EPOXY (BELOW THE WATERLINE)

## Interlux Seam Compound Brown

- Easily applied by putty knife, Seam Compound Brown has been specifically designed for filling seams of wood boat bottoms and keel joints that flex.
- It remains durable and flexible even after it's been immersed to absorb expansion and contraction of planks.

Order No.	Mfg. No.	Color	Size	List Price	
410542	(Y30/QT)	Brown	Quart	\$37.89	E0-2482000

## INTERLUX FILLERS AND EPOXY (ABOVE AND BELOW THE WATERLINE)

## Interlux Watertite Epoxy Filler

- Watertite is a quick drying epoxy filler suitable for use on GRP, Metals and rigid Wood constructions.
- The formulation does not shrink and is extremely water resistant, making it suitable for osmosis damage repairs.
- Fills up to 3/4" without sagging.
- High-strength and adhesion properties, very fast drying and super smooth.
- Simple 1:1 mixing ratio for easy measurement of components.

Order No.	Mfg. No.	Size	List Price

INTERLUX PRIMERS

Interlux InterProtect® 2000E with Micro-Plates®

- This remarkable two-part epoxy coating protects fiberglass hulls from water absorption.
- It's formulated with Microplates that creates an overlapping water barrier.
- It's also great for repairing gelcoat that has been damaged by osmotic blistering.
- Excellent adhesion to fiberglass, composite, metal and wood.
- Suitable for use above and below the waterline as a universal primer for all surfaces.
- Long overcoating times add versatility and flexibility.

Interlux Primocon® Aerosol

- A non-bleeding, anti-corrosive primer, Primocon Aerosol provides an excellent barrier for underwater metal surfaces, reducing galvanic corrosion.
- You can use before applying Trilux 33 Aerosol or Trilux 33.

Order No.	Mfg. No.	Size	List Price	
409225	(YPA985n/16)	12 oz.	\$22.09	EO-7561000

Interlux InterProtect® HS with Micro-Plates®

- A versatile, high solids epoxy, InterProtect HS can be used above and below the waterline as a primer for all substrates.
- It's formulated with Microplates to create an overlapping water barrier and prevent blistering.
- It can also provide metal corrosion protection.
- It meets the most restrictive VOC regulations.

Order No.	Mfg. No.	Color	Size	List Price	
409190	(YPA423KIT/01)	Gray	Gallon Kit	\$125.49	EO-2149000

Interlux Primocon® Underwater Primer

- Suitable for all underwater metal surfaces, Primocon is a superb anti-corrosive primer that creates a barrier to reduce pitting.
- It's an excellent primer for antifouling paint over sanded fiberglass, and won't affect the color of antifouling paint itself.

Order No.	Mfg. No.	Color	Size	List Price	
409208	(YPA984/01)	Gray	Gallon	\$91.59	EO-9686000
409210	(YPA984/QT)	Gray	Quart	\$28.79	EO-9512000

Interlux Interprime™ Wood Sealer

- Inter-Prime Wood Sealer Clear is specially formulated to seal the grain and stop varnish from soaking into the wood.
- This allows future coats of varnish or paint to dry without high and low spots.
- It's particularly good for sealing plywood to resist cracking and checking.
- It's suitable for either interior or exterior use.

Order No.	Mfg. No.	Color	Size	List Price	
408852	(Y1026/QT)	Clear	Quart	\$23.49	EO-2671000

Interlux Fiberglass Surface Prep

- It's extremely important to remove contaminants from fiberglass for full adhesion of primers and/or antifouling paints.
- With its special low VOC formula, Fiberglass Surface Prep does this extremely effectively.
- It can also be used to remove amine blush from clear epoxy.
- And it can be used to prepare inflatable boats for antifouling

## INTERLUX VARNISHES

## Interlux Perfection® Plus Varnish

- Perfection Plus really is the ultimate clear wood varnish.
- It offers outstanding chemical and abrasion resistance, UV protection and a superb gloss finish with great retention that lasts four times longer than normal one-part varnishes.
- Can be used in combination with Perfection Finish as a glaze coat to increase flow, levelling and durability.
- Suitable for oily woods like teak after adequate degreasing and substrate preparation.

Order No.	Mfg. No.	Color	Size	List Price
408408	(YVA950KIT/QT)	Clear	Quart	\$79.89 E0-2995000

## Interlux Goldspar® Satin Varnish

- Goldspar Satin produces a warm, rich satin sheen finish that's scratch and stain resistant.
- You can use it on all interior surfaces from cabin soles to cabinets - and as it's so simple to apply, you'll easily be able to create professional finish by brush or spray.

Order No.	Mfg. No.	Size	List Price
408547	(Y60/QT)	Quart	\$28.09 E0-7012000

## Interlux Schooner® Varnish

- Schooner Varnish creates a bright, clear, pristine high gloss finish with a traditional golden color.
- Added to this it offers remarkable durability, water resistance, UV protection and a nice silky application.
- Superior self-leveling properties makes it easy to get a professional finish.

Order No.	Mfg. No.	Size	List Price
408603	(Y96/QT)	Quart	\$32.09 E0-7042000

## Interlux Original® Varnish

- With good gloss and durability, Original is a traditional spar varnish that creates a stunning golden color.
- As it's so simple to apply you can create a professional with ease on interior and exterior woodwork such as cabin trim, handrails and coamings.

Order No.	Mfg. No.	Size	List Price
408561	(Y90/QT)	Quart	\$20.59 E0-4451000

## Interlux Schooner® Gold Varnish

- Schooner Gold is a premium varnish that has a higher film build per coat, so you can work faster and use fewer coats.
- It's our longest lasting one-part varnish and will require thinning in most conditions to achieve optimum flow.
- Plus, it contains advanced UV protection.
- Offers excellent self-leveling, superb longevity and durability.
- Suitable for all internal and external woods, including oily timbers such as teak.

Order No.	Mfg. No.	Size	List Price
408612	(YVA500/QT)	Quart	\$40.39 E0-9203000

INTERLUX THINNERS

Interlux Fiberglass Solvent Wash

- An amazing at removing mold release agents, wax, oil and grease from hulls of bare fiberglass boats.
- It also removes wax and silicone contamination from painted hull surfaces that are being prepared for repainting.

Order No.	Mfg. No.	Size	List Price
409309	(Y202/O1)	Gallon	\$50.19 E0-4673000
409311	(Y202/QT)	Quart	\$17.49 E0-2131000

Interlux Brushing Liquid

- A slow drying solvent, Brushing Liquid 333 eases brushing and helps with the flow of specified paint coatings.
- It's also recommended for use in various topside systems to remove sanding residue from fiberglass and wood surfaces.

Order No.	Mfg. No.	Size	List Price
409462	(Y333/QT)	Quart	\$17.49 E0-2131000
409474	(Y333/PT)	Pint	\$12.29 E0-2290000

Interlux Special Thinner

- A fast evaporating solvent, Special Thinner 216 improves paint drying in cold climates and makes spray application easier.
- You can also use it to remove sanding residue from hull bottoms, wiping clean bare aluminum and for the general clean-up of paint equipment.

Order No.	Mfg. No.	Size	List Price
409373	(Y216/O1)	Gallon	\$35.29 E0-7462000

**International Paint Intergard 822**

- A two pack epoxy filler.
- Zero VOC.
- For use as a filler for pitted steel prior to maintenance coating.
- Also, approved for use on anode shields.
- For use at Newbuilding, Maintenance and Repair or On Board Maintenance.
- Color: EAA200-Red.
- Part B (Curing Agent): EAA 201.
- Method of Application: Knife, trowel.

Order No.	Mfg. No. / Description	Size	List Price	
410819	(EAA201/94/A) Part B	Quart	\$44.89	E0-7633000
410833	(EAA200/94/A) Part A	Quart	\$44.89	E0-7633000

**International Paint Intergard 264**

- A two pack, self priming, surface tolerant epoxy with low semi-gloss finish.
- Exhibits excellent chemical and abrasion resistance.
- Low VOC.
- A universal anticorrosive for use on underwater hulls, above water and internal areas of marine vessels, barges and offshore structures.
- For use at Newbuilding, Maintenance and Repair or On Board Maintenance.
- Method of Application: Airless spray, roller, brush, conventional spray.
- For cleaning, use thinner 412065 (GTA220).

Order No.	Mfg. No.	Color	Size	List Price

**SPECIAL HANDLING MAY APPLY**

**AVAILABLE IN SELECTED WAREHOUSES**

**Epifanes Clear Varnish**

- This traditional marine varnish is based on tung oil, phenolic-modified alkyd resins and maximum U.V. absorbers.
- It has outstanding protection for all marine and household woods and can be applied to Interior and exterior woods above the waterline.
- It offers superior flow and durability.
- It has excellent flexibility and water resistance in all climate conditions.

Order No.	Mfg. No.	Size	List Price
023008	(CV.1000)	1,000 ML	\$54.59 G0-8563000
023010	(CV.500)	500 ML	\$29.49 G0-6791000

**Epifanes Wood Finish Gloss**

- It's based on phenolic-modified resins and tung oil with microscopic porosity properties.
- Specifically formulated for oily woods like teak and iroko, Wood Finish Gloss has an ultra high gloss finish.
- Its color is clear amber.
- Excellent flow, gloss and durability and offers great flexibility and water resistance in all weather conditions.

Order No.	Mfg. No.	Size	List Price
023040	(WFG.500)	500 ML	\$33.69 G0-7522000
023046	(WFG.1000)	1,000 ML	\$58.89 G0-6493000

**Epifanes Rapidcoat**

- Offers quick and easy wood protection without the hassle of sanding between coats.
- It's a one-component wood finish based on modified alkyd/urethane resin.
- Epifanes Rapidcoat can be used for renewing weathered areas prior to applying a varnish system or as a full system for those requiring a quick and easy semi-gloss finish with maximum durability, U.V. protection and longevity.
- Rapidcoat provides an enhancing coat that bonds extremely well to teak and other oily woods, preventing discoloration and emphasizing the natural grain of the wood.
- It has great water resistance and flexibility.

Order No.	Mfg. No.	Size	List Price
023072	(RC.750)	750 ML	\$50.39 G0-6733000

**Epifanes Easy-Flow**

- A multi-purpose additive or stand alone coating based on a selection of natural oils.
- Suitable for use in one-component conventional and half-synthetic varnishes, paints and primers to optimize impregnation/saturation and preservation of the surface.
- Flow enhancer under cold or hot working conditions.
- Stand alone product to prevent rust on steel (penetrates existing thin layers of rust through to the steel) and as impregnating oil on wood.

Order No.	Mfg. No.	Size	List Price
023015	(EF.500)	500 ML	\$27.99 G0-5781000

**Epifanes Rubbed Effect Varnish**

- A one-component interior varnish based on urethane alkyd resins, gives a rich clear amber satin finish.
- Can be applied directly to bare wood, any interior softwood or hardwood and is highly recommended for cabin sole, doors and trim.
- It's hard satin finish has good scratch and scuff resistance and is impervious to most onboard chemicals.

Order No.	Mfg. No.	Size	List Price
023018	(RE.1000)	1,000 ML	\$64.29 G0-7034000

**Epifanes Wood Finish Matte**

- It's a one-component varnish alternative based on urethane alkyd resins and tung oil and contains U.V. absorbers.
- Specifically formulated for oily woods like teak and iroko.
- It's finish is a rich matte with a clear amber color and has the appearance of being hand-rubbed.
- It offers superior flow and durability and excellent scratch resistance and exterior weather resistance.

Order No.	Mfg. No.	Size	List Price
023058	(WFM.500)	1,000 ML	\$39.49 G0-6462000

**Epifanes Rapidclear**

- Offers quick and easy wood protection without the hassle of sanding between coats.
- It's a one-component clear wood finish based on modified alkyd/urethane resin.
- Epifanes Rapidclear can be used for renewing weathered areas prior to applying a varnish system for those requiring a quick and easy semi-gloss finish with maximum durability, U.V. protection and longevity.
- Rapidclear provides an enhancing coat that bonds extremely well to teak and other oily woods, preventing discoloration and emphasizing the natural grain of the wood.
- It has great water resistance and flexibility.

Mascoat Sound Control - dB (Sound Damping Coating)

- Reduction of structure-borne noise and vibrations.
- Saves installation time compared to sound damping tiles.
- Reduce overall construction time-frame.
- Excellent vapor barrier.
- Keeps substrates viewable at all times.
- Protect personnel.
- Increase interior comfort.
- No risk of water entrapment.
- Lightweight compared to damping tiles.
- Meets IMO/SOLAS guidelines.
- Easily repairable if needed.

Order No.	Mfg. No.	Color	Size	List Price
496522	(2101FGDBWHT)	White	5 Gallon	\$477.99 B0-9103400

Mascoat Marine - DTM (Thermal Insulating Coating)

- Mascoat Marine-DTM insulating coating is a water-based, one-part coating comprised of air filled ceramic and silica beads held in suspension by an acrylic binder.
- It applies like paint and is maintenance-free, providing thermal insulating and anti-condensation capabilities for shipboard construction.
- Currently, Mascoat Marine-DTM insulating coating is in use on over 2000 marine vessels from Alaska to Antarctica.
- This coating can replaced most blanket and foam insulation products, resulting in substantial reduction of weight and keeping the vessel within the new stringent marine codes and classifications.
- The coating employs the best water-based coating technology and contains no harmful elements.
- Unlike other insulation methods, Mascoat Marine-DTM bonds directly to the substrate or primer, leaving no room for corrosion to take hold.
- Direct bonding gives the coating the ability to insulate your vessel without degradation of the substrate for many years to come.
- By using Mascoat Marine-DTM coating system, you can rest assured that your vessel is protected and that the interior accommodations will be comfortable.
- Users of Mascoat Marine-DTM insulation coating have found that the coating replaces most conventional insulation methods.
- While yielding the same insulation capabilities, installing costing drastically less.
- Many vessel owners have saved up to 50% on total installed costs over conventional insulation.
- Best of all, the coating is extremely lightweight.
- This allows easy application around difficult areas such as stiffeners and other tight areas without adding excess weight.

Order No.	Mfg. No.	Color	Size	List Price

Tuff-Coat Marine Non-Skid Coating

- Ideal for commercial and recreational vessels or docks/ramps.
- Superior durability and flexibility.
- Non-abrasive, recycled rubber aggregate for traction and comfort in any weather.
- Comes in 1 gallon cans or 5 gallon pails.
- Made in the USA.

KEY FEATURES

- Water-based/no smell/water clean up.
- Rubber Aggregate/non-abrasive.
- Roll or Spray on application.
- 21 Standard Colors.
- Single Component/No Mixing.
- Chemical & UV Resistant.
- Flexible.
- Non-Flammable.
- No shipping restrictions.
- Extremely Durable.
- User Friendly.

ADHERES TO:

- Wood.
- Steel.
- Aluminum.
- Fiberglass.
- Gel Coat.
- Concrete.
- Painted Surfaces.

**AWLGRIP® Awlmix® Color Matching System**

- Awlcraft 2000 topcoat colors, including special requests for custom colors.
- We request any new formulation from Awlgrip on your behalf and we are able to mix and match most existing formulations.
- By using the Awlmix software provided by Awlgrip, you can be assured we will always have the most current formulations with an extensive choice of colors created by world-wide demand from builders and boat owners.
- The number of formulations in this database grows every month and the input from Awlgrip color chemists is crucial, as each formulation entered is thoroughly reviewed and quality controlled to provide the formulation with the greatest consistency for our day to day operation.
- We can access this information 24/7, all in order to speed up delivery to you.

What will Awlmix do for you?

- Improved service through an added choice of color selection.
- Greater ability to meet increasing customer demand of custom made colors, especially for the OEM or multi-production market.
- Capability to match 48 colors on the Awlcraft 2000 metallic color card.
- Opportunity to provide the color that your customer needs.
- Awlgrip continues to be the premium choice of topsides finishes world-wide.
- Using the Awlmix system to blend Awlgrip and Awlcraft 2000 topcoat colors on site shortens the lead time. Color access is now far beyond the traditional yacht and aerospace paint supplier.
- All colors will be shipped from our Clearwater, Ft. Lauderdale or Norwich facilities with the corresponding shipping times and fees.
- Please supply color code from chart when ordering.

- Designed for exterior application above the waterline, Awlwood Primer is part of a high-performing Primer & Clear Finish system that adheres directly to wood.
- As natural color fades, this primer helps to establish a permanent rich base color.
- Deeply permeates the grain of the wood, giving long-lasting color stability.
- Improves system flexibility, adhesion and durability.
- Can be applied in a wide range of temperatures and humidities.

**AWLGRIP® Quick Build Surfacer**

- A high performance yacht priming system, formulated to provide a quick and convenient application.
- Using just six colored primers, Quick Build can closely match any finish, reducing the number of stages required to produce outstanding results.
- Can be applied directly to certain substrates with no other primers required.
- Easy application system for preparation and application in a single day.
- Vibrant colors in just minutes, closely matching finish colors for quicker hide.

**AWLGRIP® 545 Epoxy Primer**

- A multi-use, corrosion-resistant epoxy primer used to seal undercoats and surfacing primers before applying finishes.
- Can be applied both above and below the waterline on a wide range of substrates, via spray or brush and roller.
- Dual purpose; seals both undercoats and surfacing primers in a single product.
- Outstanding corrosion protection, increasing the longevity of your system.
- Excellent adhesion to all substrates.

**AWLGRIP® Cold Cure Accelerator**

- Cold Cure is an accelerator used with 545 Epoxy Primer, reducing cure and recoat times by up to 50%.
- Can be added up to 12.5% of catalyzed volume to 545, replacing the standard reducer.
- Ideal for speeding up cure rate in cooler temperatures.
- Tailored for use between 10° C/50° F and 24° C/75° F.
- Suitable for use with brush and roller or spray application.

**AWLGRIP® Max Cor CF High Solids Primer**

- Max Cor CF is a two-component high solid epoxy primer, tailored to provide aluminum and steel with excellent chemical and solvent resistance.
- A chromate-free product with innovative Controlled Fusion (CF) technology for extended re-coat times, improved substrate adhesion and reduced sanding.
- Contains anti-corrosive pigments to extend system longevity.
- Great adhesion to aluminum and steel.
- Can be directly overcoated with Hullgard Extra.

**AWLGRIP® Awlquik Epoxy Primer**

- A two-component quick-drying epoxy primer/surfacer, for application above the waterline by brush and roller or spray.
- Provides a medium build and is easily sanded.
- Easy to apply by brush and roller or spray.
- Quick-drying for a faster application process.
- Easy to sand, allowing the next layer to be applied sooner.

**AWLGRIP® Awlprep**

- A fast-evaporating, wipe down solvent used to remove oils, light grease and other surface contaminants from finish primers and finish.
- Use before and after the sanding of primers, fillers and finishes.
- Removes latent moisture from the coating's surface.
- Helps in achieving a flawless high gloss finish.
- Non-photochemically reactive.

Order No.	Mfg. No. / Description	List Price
<b>510950</b>	(T0008/1GLUS) Gallon	<b>\$48.49</b> E0-7363000

**AWLGRIP® Awlprep 400**

- A general-purpose wipe down solvent used to remove hand oils, grease and other light surface contaminants from finished surfaces before and after sanding.
- Recommended for use in warm weather.
- Evaporates 5 times slower than T0008.
- Ideal for removing tape residue.
- Non-photochemically reactive.

Order No.	Mfg. No. / Description	List Price
<b>511077</b>	(T0170/1GLUS) Gallon	<b>\$43.19</b> E0-9323000

3M Marine Disposable Protective Coverall Safety Work Wear

- Protective coverall helps protect against certain light liquid splashes and hazardous dusts.
- Lightweight, breathable material helps keep workers cool and comfortable.
- Extra room in arms and legs allow for free movement on the job.
- Seamless shoulders and sleeve tops help provide increased comfort and fewer potential entry points for contaminants.
- Meets government standards for Type 6 Splashes, Type 5 Dust, Anti-Static and Nuclear protection.
- Three panel hood design helps provide a more comfortable fit and a sleek, low-profile style.
- Does not contain components made from natural rubber latex to help prevent reactions from users with latex sensitivities or restrictions.

Science.  
Applied to Life.™

3M is  
Contin

Red

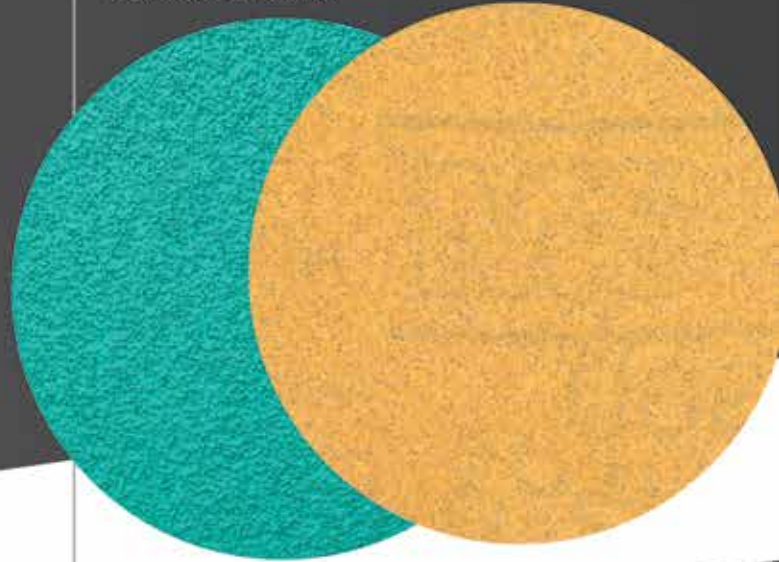

AO

Comprehensive line of economical abrasives. Best in class performance. Made with Aluminum Oxide.

3M™ Green Corps™, Gold AO+ CC

Full line of standard and coarse grade abrasives that mix quality minerals and precision coating to deliver quality performance and improved life. Made with Premium Aluminum Oxide and Crushed Ceramic. 3M first used ceramic grains in 1988 for automotive abrasives.

Faster Cut. Better

Aluminum Oxide AO

General purpose grain. Hardness and toughness properties align with paint stripping and finishing grades. Will not

Premium Aluminum Oxide AO+

Filtered for more uniform shape and better toughness. Leads to faster mass removal and longer life than standard

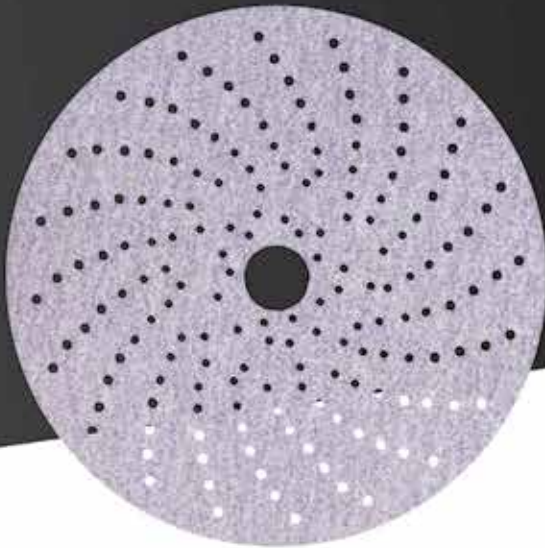

# Leading Advancement in Marine Abrasives.

Continuous abrasive grain innovation to meet every customer need.

## Purple Clean Sand

CC AO+

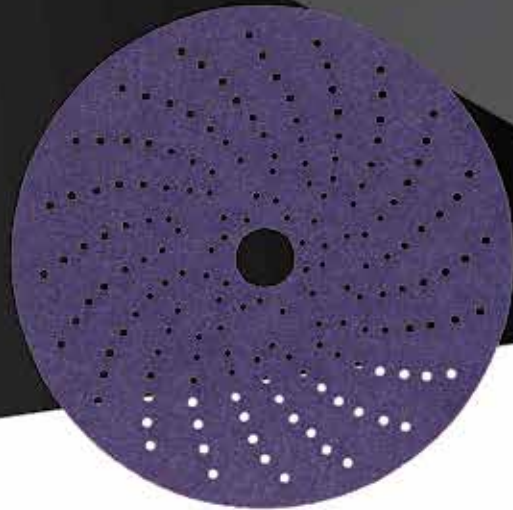

3M's full purple line uses ceramic grains for next level performance. Sand faster and deliver a more consistent finish.

## CUBITRON II

PSG

Revolutionary 3M™ Precision Shaped Grain fractures evenly to continually slice through material, wear evenly, and provide extra-long life and superior consistency.

# Finish. Longer Life.

3M has been using ceramics in automotive abrasives for over 25 years.

## Crushed Ceramic

CC

Synthetic material is tougher than Aluminum Oxide. Ceramic grains remove material faster and more uniformly than naturally c

3M is the only one offering abrasives with patented 3M™ Precision Shaped Grain.

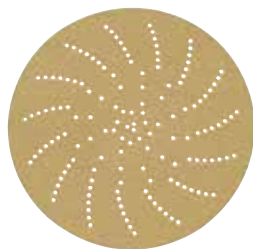

## 3M™ Precision Shaped Grain

PSG

Shaped ceramics match the toughness of synthetic products and add superior triangular shape. Triangular peaks slice through material and assist removal and longest life.

**3M Hookit™ Clean Sanding Discs (236U) - 5" Diameter**

- Precise multi-hole pattern means excellent dust extraction and eliminates the need to align holes.
- Open coat and load-resistant coating prevents clogging to optimize cut and product life.
- Easy to change and reuse, maximizing utility for the life of the disc.
- Aluminum oxide grains cut faster and last longer than traditional garnet.
- Strong, C-weight paper backing supports aggressive sanding.

Order No.	Mfg. No. / Description	List Price
<b>887031</b>	(55598) P80 Grade 50 Discs Per Roll	<b>\$46.19</b> FO-3323000
<b>887036</b>	(55501) P220 Grade 50 Discs Per Roll	<b>\$49.49</b> FO-4643000

<b>887039</b>	(55504) P400 Grade 50 Discs Per Roll	<b>\$46.19</b> FO-3323000

**3M Cubitron™ II Hookit™ Clean Sanding Discs - 6" Diameter**

- Features 3M Precision-Shaped Grain, triangular-shaped grains that cut 30% faster than other premium abrasives.
- Grains expose fresh abrasive as they wear for 2x longer abrasive life vs. traditional abrasives.
- Sharper cutting surface means less pressure is required for reduced friction and wear.
- Clean Sanding multi-hole pattern delivers excellent dust extraction.
- 3M Hookit hook-and-loop attachment makes for fast disc change-outs.
- Long lasting, fast-cutting abrasive disc is ideal for a range of jobs including paint removal and feather-edging.

Order No.	Mfg. No. / Description	List Price
<b>886052</b>	(31370) 40+ Grade 25 Discs Per Box	<b>\$78.49</b> FO-4945000

**3M Hookit™ Flexible Abrasive Discs - 6" Diameter**

- Offers high flexibility and conformability.
- Premium quality delivers uniform, consistent finishes every time.
- Reduced burn through when sanding thin coated surfaces.
- Wide range of grades for precision-perfect results.
- 3M Hookit attachment system provides easy reuse, optimizing disc life.
- Long-lasting abrasives reduce material consumption.

**3M Stikit™ Paper Disc Rolls (236U) - 5" Diameter**

- Adhesive backing allows for quick application and easy removal.
- Convenient disc rolls eliminate the need to remove disc liners from individual discs.
- Strong, C-weight paper backing provides extra durability when compared to lighter weight paper backings.
- Aluminum oxide mineral is durable, cuts fast, and performs well on many surfaces.
- Load-resistant coating helps prevent premature loading of the disc surface to maximize cut and extend the life of the abrasive grains.

3M Stikit™ Paper Disc Rolls (236U) - 6" Diameter

- Adhesive backing allows for quick application and easy removal.
- Convenient disc rolls eliminate the need to remove disc liners from individual discs.
- Aluminum oxide mineral is durable, cuts fast and performs well on many surfaces.
- Strong, C Weight paper backing provides extra durability when compared to lighter weight paper backings.
- Load-resistant coating helps prevent premature loading of the disc surface to maximize cut and extend the life of the abrasive grains.
- 100 Discs Per Roll.

3M 8247, R95 Particulate Respirator

- Disposable.
- This respirator helps provide comfortable protection against certain oil and non-oil based particles – including those with nuisance levels of organic vapors, such as solvents, degreasers and resins.
- Collapse resistant shell.
- Carbon filter provides relief against nuisance levels of organic vapors.
- Compatible with a variety of protective eyewear and hearing protection.
- Adjustable noseclip reduces potential for eyewear fogging and helps ensure a better seal and fit.
- Two-strap design with dual point attachment helps provide a secure fit.
- NIOSH Approved R95.

Order No.	Mfg. No. / Description	List Price

3M 8212, N95 Particulate Welding Respirator with Foam Face Seal

- Disposable.
- Designed to help provide respiratory protection for applications such as welding or soldering where metal fumes may be present.
- Cake resistant filter media.
- Flame resistant per ASTM D2859.
- Comfortable foam face seal.
- Fully adjustable headstraps help provide a secure fit.
- 3M Cool Flow Exhalation Valve.
- Adjustable noseclip reduces potential for eyewear fogging and helps ensure a better seal and fit.
- NIOSH Approved.

# Helping You Wear It Right

## Wearing your 3M Half Facepiece Reusable Respirator

1

Place the respirator over your nose and mouth with bottom straps unfastened.

2

Pull the top strap over your head, placing the head cradle on the crown of your head.

3

Hook the bottom straps together behind your neck.

4

Adjust strap tension to achieve a secure fit.

Dr. Shrink Measuring Film Width and Determining Support Posts Needed for Structure

RECREATION BOAT - FRONT

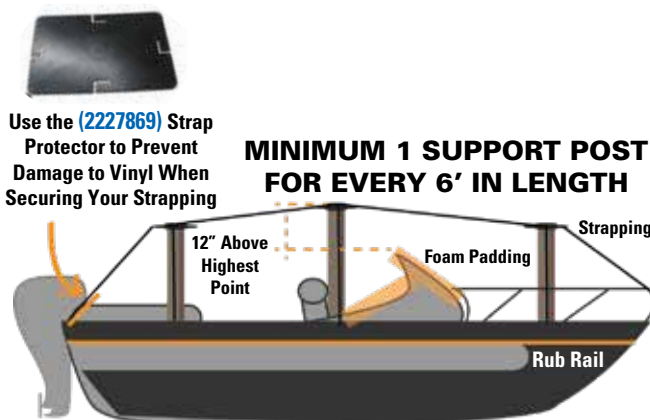

Add (227795) Foam Padding at Corners to Prevent Tears in Your Wrap

Measure at Center/Top of Cap Down Over the Widest Point of the Boat to the Rub Rail

$((X+8'') \times 2) + 2' = \text{ROLL WIDTH}$

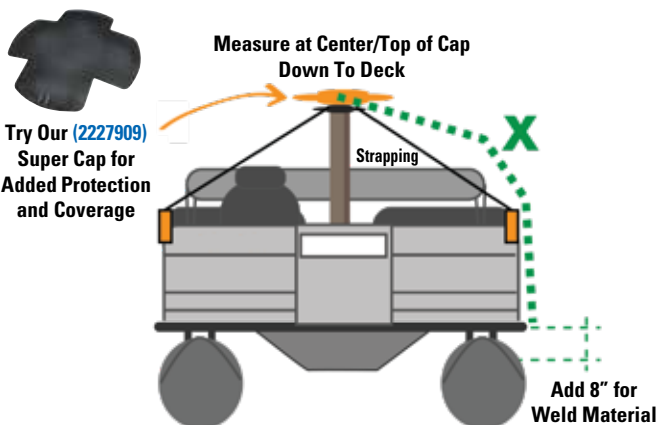

RECREATION BOAT - SIDE

Use the (2227869) Strap Protector to Prevent Damage to Vinyl When Securing Your Strapping

MINIMUM 1 SUPPORT POST FOR EVERY 6' IN LENGTH

PONTOON - FRONT

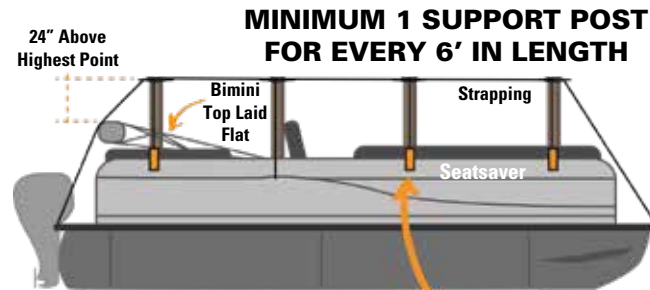

Try Our (2227909) Super Cap for Added Protection and Coverage

Measure at Center/Top of Cap Down To Deck

$((X+8'') \times 2) + 2' = \text{ROLL WIDTH}$

PONTOON - SIDE

Use the Seatsaver Where Your Seats Come in Contact with the Side Rails. Provides Necessary Lift-Off to Prevent Damage to Your Seats While Also Providing an Ideal Anchor Location for Strapping.

MINIMUM 1 SUPPORT POST FOR EVERY 6' IN LENGTH

RECREATION BOAT VENTING CHART

Length	Beam	Film Size	# of Vents
0' - 16'	7'	12' x 149' (1,788 s.f.)	4
14' - 19'	8'	14' x 128' (1,792 s.f.)	4
17' - 24'	8.5'	17' x 110' (1,870 s.f.)	6
25' - 29'	8.5'	TWO IDEAL SIZES	
	9'	20' x 89' (1,780 s.f.) 24' x 120' (2,880 s.f.)	6
28' - 31'	10'	26' x 100' (2,600 s.f.)	8

PONTOON BOAT VENTING CHART

Length	Beam	Film Size	# of Vents
0' - 16'	8'	17' x 110'	4
16' - 22'	8' - 9'	18' x 200'	6
23' - 28'	8' - 11'	20' x 89'	8

**Dr. Shrink Anti-Chafe Tape - 3 Mil**

- A high performance polyethylene film that provides a tough, puncture resistant material to prevent abrasion.
- This tape is designed as a low-tack film that will provide protection for your boat or other object.
- Use only between shrink wrap and the object.
- Simply apply it directly to the object where the shrink wrap touches.
- The tape acts as a barrier between the object and shrink wrap, thus preventing any scratching or chafing.
- The black underside of the tape contains UV inhibitors to prevent the sun from drying out the adhesive.

**Dr. Shrink Strapping Protector**

- Designed for two different applications:
  - 1) A method of keeping strapping from forming dents in vinyl upholstery on boats.
  - 2) Used as corner guards to keep shrink wrap and strapping from being cut on sharp edges.
- Notched on all four sides for easy attachment to strapping.

Order No.	Mfg. No. / Description	List Price	
2227869	(DS-PROTECTOR)	<b>\$2.09</b>	F0-6410000

**Dr. Shrink Super Cap**

- Designed to transfer the weight of snow, ice and rain from the top of 2 x 4 support poles used under shrink wrap storage covers.
- Dome shaped and 20" in diameter, the Super Cap rests on the woven cord strapping running both lengthwise and crosswise, thus minimizing support poles from poking through shrink wrap covers.
- Super Caps can be easily attached to wooden uprights with either a nail or staples.

Order No.	Mfg. No. / Description	List Price	
2227909	(DS-SUPERCAP)	<b>\$4.29</b>	F0-0030000

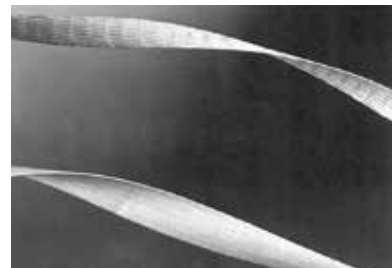

**Dr. Shrink End Caps and Bottom Caps**

- Designed to fit on the top and bottom of 2 x 4 boards commonly used as a support poles under shrink wrap covers.
- The caps have slits every 90° for the woven cord strapping to slide into and when the cover is shrunk, the sections flex downward forming a protective pad on the top to eliminate pole poke-through. Bottom caps have non-skid disks attached for added stability.

Order No.	Mfg. No. / Description	List Price	
2227757	(DS-CAP) End Caps	<b>\$1.49</b>	F0-4010000
2227767	(DS-BCAP) Bottom Caps	<b>\$2.89</b>	F0-2020000

**Regular Woven Cord Strapping**

- Can be hand tied or secured and fastened with buckles.

Order No.	Mfg. No.	Size	Tensile	List Price	
427700	(P40RW15)	1/2" x 1,500'	650 lb.	<b>\$66.49</b>	L0-5233000

**Dr. Shrink Tensioning Tool**

- Used when creating the perimeter band.
- If the perimeter band is left only hand tightened, the cover will sit loosely over the object and can rub and chafe the object.
- A band properly tightened with the Tensioning Tool will create a powerful perimeter band that will hug the cover securely against the protected object, preventing movement and eliminating chafing.

Order No.	Mfg. No. / Description	List Price	
227858	(DS-15)	<b>\$70.89</b>	F0-2694000

**Dr. Shrink Metal Buckles**

- Used with the strapping and tensioning tool when creating a tight-fitting perimeter band.
- When creating the support structure, the buckles allow the installer to sufficiently hand tighten the strapping and produce a sturdy, sloping frame for the shrink wrap cover.
- 3/4" Heavy duty.
- Sold 100 per bag.

Order No.	Mfg. No. / Description	List Price	
227846	(DS-075)	<b>\$17.89</b>	F0-2521000

**Dr. Shrink Liffoff Assembly**

- The Liffoff is perfect for wrapped objects that need additional ventilation as well as surface protection (such as painted boat hulls or delicate machinery) during the wrapping process.

<b>2227845</b>	(DS-FBLOCK)	<b>\$2.99</b> F0-9020000

**Dr. Shrink Easy Klips®**

- Can reduce labor time by holding shrink wrap securely in place.
- Makes the shrink wrap process easier.
- Easy on/easy off application and fastens in seconds.
- Will not detach until you want it to.
- Instead of pulling off when the load gets heavy, the EasyKlip will actually clamp down harder and fastens without tearing the plastic.

Order No.	Mfg. No. / Description	List Price

MarineMart Motor Boat Stands

- The strongest, longest lasting boat stand.
- Hot dipped galvanized base resists rust for a long, long time. Much longer than a painted stand.
- Hot dipped galvanized top, no bare steel that rusts in days.
- Solid Acme threaded rod - not hollow, for a higher load capacity.
- 316 stainless steel hardware, through-bolted to plywood. No screws that strip.
- Brownell pattern match, nearly identical part number, mix and match ours and theirs for a seamless transition.
- Certified third party load tested, ScaffoldMart has been in load-bearing steel for years.

MarineMart Boat Stand Tops

- We hot dip galvanize our top in three individual pieces, for maximum coverage and protection against corrosion.
- Our marine-grade plywood is through bolted to it's galvanized backings plate, not screwed.
- Our tops are fastened with 316L stainless steel bolts and with nylon backing nuts, for strength and longevity.
- Our rod to backing plate connection is slotted, so weight rests on the solid steel rod, not the bolt.
- Our solid-steel rod is precision ACME threaded, providing increased adjustability under load.
- Increased length of wing nut collar, increased contact area provides increased strength.

**Attwood Pontoon Storage Blocks**

- UV-resistant material for long-lasting durability.
- Discover hassle-free storage with our lightweight and extra-strong pontoon blocks.
- Designed with special features for added stability and convenience, each storage block can hold up to 4,000 pounds.
- Drainage channels and holes prevent water from pooling against your pontoon.
- The bottom has a molded-in texture to ensure maximum grip on concrete or ground surfaces, while the pre-drilled holes make fastening or staking easy.
- Dimensions: 13-1/2" x 13-1/2" x 9-1/2".
- Sold as set of four.

**MarineMart Boat Rack Systems**

480970

480975

- Scaffoldmart's boat rack system is designed to secure vessels in the air for maintenance or repair.
- Our boat rack system consists of stern rack and a bow rack.
- The stern of the vessel rests on the stern rack nestled between the two heads, on thick plastic inserts to resist damage, with the keel between them.
- Our bow rack, on which the keel rests, is positioned towards the front of the boat, and is topped with carpet for damage resistance.
- Add additional boat stands when necessary for additional security, especially with larger boats.

Order No.	Mfg. No. / Description	List Price	
480970	(BR16) Bow Rack - 16"	\$265.79	E0-4399100
480975	(SR20) Stern Rack - 20" H x 41" W	\$393.69	E0-7259200

**MarineMart Boat Dolly**

- Our heavy duty Boat Dolly comes with high quality non-marking casters and non-marking rubber heads.
- Most manufacturers cut and weld a v-rib in two or more pieces and splice them together by welding.
- We think that hydraulically forming the v-rib where the bottom and the top are pressed into a shape that has a radius on both sides is just a higher quality way to do this. It's a much higher quality way to manufacture a dolly.
- So we took the time and expense to have the v-ribs hydraulically pressed for strength and rigidity, not welded like most.
- Two adjustment positions for the pad head, this helps you be able to miss a stake.
- Capacity: 6,700 lbs.
