Bienvenidos a Repuestos El Navegante.

Aquí podrás encontrar mas de **35.000** productos de diferentes fabricantes, con una gran variedad de accesorios y componentes para tu embarcación, contamos con mas de 20 años de experiencia en el sector náutico, no dudes en contactarnos para aclarar cualquier duda que tengas, prestamos asesoría técnica lo que es un valor agregado, y te dará tranquilidad a la hora de tomar una decisión de compra.

Nota Importante:

Debido a las restricciones causadas por el Covid 19, y otros problemas a nivel Mundial muchas empresas se vieron afectadas debido a la falta de materia prima, por este motivo tanto los precios como las fechas de entrega sufrieron cambios en gran cantidad de productos, comuníquese con nosotros a través del correo: repuestoselnavegante@gmail.com y solicite su presupuesto sin compromiso, también puede comunicarse vía Telegram o WhatsApp escaneando los códigos QR.

Los productos aquí publicados se encuentran en varias partes del mundo, pero la mayoría se encuentran en Estados Unidos y Europa, por lo que estos precios no incluyen gastos de envío.

También puede consultar en nuestra pagina www.repuestoselnavegante.com nuestros términos y condiciones antes de efectuar la compra, ahí podrá ver también nuestra política de devoluciones.

Los productos pueden ser entregados en un currier de su confianza.

En nuestra pagina podrá encontrar mas de **3.500** productos para entrega inmediata.

Nos especializamos en repuestos Volvo Penta, Cummings, Yanmar, Caterpillar, Mercruiser.

Ofrecemos repuestos para Generadores Onan, Kohler, Westerbeke, Fisher Panda y Northern Lights.

Wire & Cable

We offer a complete line of marine wire and cable products. All wire and cable is RoHS compliant and built to meet SAE, UL, and/or CSA specifications. All wire is made in the USA

105° C Tinned Wire

UL-Listed, tinned wire is ideal for use in the highly corrosive environment of marine applications. Special electro-tinned, copper strands also increase protection against corrosion for recreational vehicles, automotive, trucks, and trailers. Tinned copper stranding is extremely flexible for easy routing through marine applications and easier to solder than bare copper. Flame retardant, PVC insulation is highly resistant to water, oil, grease, gasoline and other damaging solvents. High voltage tolerance of up to 600 volts adds versatility to its use in multiple marine and other sustainable applications.

- Voltage: Rated at 600 volts.
- Temperature: Rated at 105° C (221° F) dry and 75° C (167° F) wet.
- Specifications: Meets DOT and Coast Guard specs for electrical systems.

80° C Bonded Parallel Wire

Multiple primary wire parallel bonded with color-coding for identification purposes. Especially ideal for use in RVs, marine, and utility trailer applications. Built to stay together under the toughest operating conditions yet easy to separate at the end of a run for final terminal connection. All-copper stranded core is highly conductive maximizing current transfer while remaining flexible for easy installation.

- Voltage: Rated at 600 volts or less.
- Temperature: Rated at -30° C (-22° F) to 80° C (176° F).
- Specifications: SAE J1128.

105° C Tinned Single-Conductor UL Listed 1426 Wire

105° C Tinned Single-Conductor UL Listed 1426 Cable

105° C Tinned Multi-Conductor UL Listed 1426 Cable

105° C Tinned Bonded Parallel Wire

80° C Bonded Parallel Wire

Wiring Color Code - Direct Current Systems - Under 50 Volts

Color	Item	Use
Dark Green	Bonding System	Bonding Wires (if insulated)
Black	Ground	Return Wires (if insulated)
Red	Main Power Feeds	Positive Mains, Particularly Unfused
Yellow with a Red Stripe	Starting Circuit	Starting Switch to Solenoid
Yellow	Generator or Alternator Field	Generator to Alternator Field to Regulate Field Terminal
Dark Gray	Bilge Blowers	Fuse or Switch to Bilge Blowers
	Navigation Lights	Fuse or Switch to Lights
	Tachometer	Tachometer to Gauge
Brown	Generator Armature	Generator Armature to Regulator
	Alternator Charge Light	Generator Terminal/Alternator Auxiliary Terminal to Light to Regulator
	Pumps	Fuse or Switch to Pumps
Orange	Accessory Feed	Ammeter to Alternator or Generator Output & Accessory Fuses or Generator Switches Distribution Panel to Accessory Switch
Purple	Ignition	Ignition Switch to Coil and Electrical Instruments
	Instrument Feed	
Dark Blue	Oil Pressure	Oil Pressure Sender to Gauge
Tan	Water Temperature	Water Temperature Sender to Gauge
Pink	Fuel Gauge	Fuel Gauge Sender to Gauge

Marpac Primary Marine Wire - Single Conductor

- Electro-tinned, copper strands increase corrosion protection.
- Rating 221° F (105° C) dry and 167° F (75° C) wet.
- Flame retardant PVC insulation.
- Rated 600 volts.
- RoHS compliant.
- Meets USCG, DOT, ABYC, NMMA and UL 1426 Specifications.

Marpac Bonded Parallel Plastic Primary Wire - 2-Conductor

- Electro-tinned, copper strands increase corrosion protection.
- Rating -22° F (-30° C) to 176° F (80° C).
- Rated 60 volts.
- RoHS compliant. Meet SAE J1128 specifications.

Order No.	Description	Length	List Price
7-4369	10 Gauge Red/Black	100'	\$166.29

Marpac Bonded Parallel Wire

2-Conductor - Red/Black

3-Conductor - Brown/Yellow/Green

4-Conductor - White/Brown/Yellow/Green

- All copper strand core.
- Heavy duty PVC jacket with color-coded conductors.
- Rating 176° F (80° C), nominal cold temperature rating of -22° F (-30° C).
- Rated 60 volts or less.
- RoHS compliant.
- Conductors meet SAE J1128 specifications.

Marpac Starter Cable

- Electro-tinned, copper strands increase corrosion protection.
- Rating 221° F (105° C) dry and 167° F (75° C) wet.
- Flame retardant PVC insulation.
- Rated 600 volts.
- RoHS compliant.
- Meets USCG, DOT, ABYC, NMMA and UL 1426 Specifications.

East Penn Manufacturing Starter Cable

Stranded Annealed Bunched Copper Core

Color-coded PVC Insulation

- Full-gauge copper conductor wire ideal for connecting a battery to switch, starter and ground.
- Tough, high temperature resistant PVC insulation is durable enough to handle heavy duty automotive demands.
- Copper stranding is highly conductive maximizing current transfer while remaining flexible for easy installation.
- Voltage: Rated at 60 volts or less.
- Temperature: Rated -50° C (-58° F) to 105° C (221° F).

SPECIAL HANDLING MAY APPLY

Extra Heavy Duty Tin-Plated Copper Lugs

- Thicker walls for greater strength and conductivity.
- Used for severe-duty applications.
- Gauge stamped on lug for easy identification.
- Lugs can be crimped or soldered and are stackable.
- Sold each.

Marpac Tinned Copper Battery Cable

- Pre-assembled battery cable.
- Made of 100% copper conductor for maximum current flow.
- Full gauge stranded copper core is flexible for easy installation and allows maximum current for quick starting.
- Copper core extends to the end of the plated lug to give a one piece solid connection.
- Recommended for engine to ground connections.
- Fits up to 3/8" stud.
- Wire meets SAE standards.

Ancor Heat Shrink Step-Down Multi-Wire Connectors

- These butt connectors can be used as a step-down from one gauge size to another or as a multi-wire connector for one gauge size wire.
- Offer a sealed alternative for products such as a quick-tap or 3-way connector in areas where corrosion is a concern.
- Flared barrel with uniform copper wall ensures an easy and proper mechanical crimp.
- Colored stripes on the barrel indicate which crimp die to use, regardless of application.

MPI Products Series 123 Split Conduit Tubing

- Corrugated, slit polyethylene provides excellent conduit for multiple wire or cable routing.
- An ideal product for hose abrasion protection.
- Flexible and specially formulated in accordance with UL94 V-2 tests for flammability.
- Meets tough ABYC standards.
- Is formulated for maximum resistance to UV and ozone.
- Temperature range is -40° F to 200° F.

CDI Electronics Dielectric Grease

- Silicone-based grease that's designed to seal out moisture and prevent corrosion on electrical connectors.
- It also disrupts the flow of electrical current, which makes it good for lubricating and sealing the rubber parts of electrical connectors.
- Commonly used for spark plug wires.

Order No. **7000198** Mfg. No. / Description (991-9706) List Price **\$56.39** F0-7493000

CRC Marine Premium Dielectric Grease

- An unique, non-curing compound used for sealing, protecting and electrical insulating. Improves electrical performance by reducing arcing and voltage drop.
- Also ideal for lubricating plastic and rubber.
- Improves electrical performance in adverse weather conditions.
- Patented finger-actuated delivery system for smooth, continuous coverage.

Order No. **290267** Mfg. No. / Description (06113) 3.3 oz. List Price **\$15.29** G0-4201000

3M Tartan General Use Vinyl Electrical Tape

- On a 1-1/2" core, this black, 7-mil vinyl tape is a good quality, economical general purpose insulating tape.
- Its elastic backing ensures easy, moisture-tight conformation to irregular surfaces.
- UL Listed and is flame-retardant.

Order No. **512168** Mfg. No. / Description (93604) 3/4" x 60' List Price **\$1.79** F0-5210000

3M Scotch Super 33+ Premium Vinyl Electrical Tape

- A 7-mil thick, all-weather vinyl insulating tape.
- It has excellent resistance to abrasion, moisture, alkalis, acids, corrosion and varying weather conditions.
- The combination of elastic backing and aggressive adhesive provides moisture-tight electrical and mechanical protection with minimum bulk.

Order No. **857435** Mfg. No. / Description (06133) 3/4" x 52' List Price **\$6.19** F0-3340000

3M Highland™ Vinyl Plastic Electrical Tape

- A flame retardant, conformable, general purpose, 7-mil thick vinyl insulation tape.
- Moisture proof, abrasion resistant.

Order No. **857423** Mfg. No. / Description (16720) 3/4" x 66' List Price **\$3.89** F0-2720000

3M Scotch Vinyl Color Coding Electrical Tape 35

- 3/4" x 66'
- A 7-mil thick polyvinyl chloride (PVC) color-coding tape.
- Outstanding electrical and mechanical properties make this tape excellent for use in phase identification, color coding of motor leads and piping systems.
- Abrasion and weather resistant.
- Flame-retardant; resists UV rays, abrasion, moisture, alkalies, solvents, many acids.
- UL Listed and CSA Certified.

Order No. **857447** Mfg. No. / Description (10810) Red List Price **\$7.29** F0-0150000
 Order No. **857450** Mfg. No. / Description (10828) White List Price **\$7.09** F0-6940000

Star Brite Liquid Electrical Tape

- Forms a protective, waterproof, UV resistant, dielectric coating.
- Prevents corrosion on wires and terminals.
- Patented, UL tested, fast drying formula.
- Cap has convenient brush applicator

Order No. **628202** Mfg. No. / Description (084104B) Black 4 fl. oz. List Price **\$10.39** G0-6960000

Sperry Digital Multimeter

- Compact, lightweight design.
- Impact resistant housing with protective rubber over-mold.
- 7 Function, 19 Range.
- Auto ranging capabilities that allow the meter to automatically determine the resolution based on the application.
- AC 500V/DC 600V capable with temperature measurement functionality.
- Measures resistance, diode test, continuity (audible), temperature (probe type) and battery testing.
- Operates from (2) AAA batteries.

Order No.	Mfg. No. / Description	List Price	
378683	(DM6250)	\$45.39	F0-7713000

Marpac Heavy Duty Battery Clips

- Spring loaded copper plated 3" battery clips. Color coded coated handles.
- Fits up to 6 gauge wire.
- Sold per pair.

Order No.	Description	List Price	
7-51011	20 amp	\$5.59	G0-5730000

300549	(M-121-BP)	\$12.89

Sierra 2-Wire Flat Connector

- Constructed of rugged plastic with molded-in terminals for durability.
- These polarized connector sets plug together only one way to prevent cross connections.
- Length 12", 16 GA, 2 Plugs.
- Ready Wired #E301120.

Order No.	Mfg. No. / Description	List Price
815500	(WH10300)	\$7.69

Marpac Deluxe Accessory Plug

- Made from corrosion resistant marine grade materials.
- With moisture resistant sealing ring.
- 12 volt.
- Sold 2 per display pack.

Order No.	Description	List Price
7-0862	Deluxe Accessory Plug	\$8.19

Marpac Deluxe Power Socket

- Moisture resistant marine grade materials.
- Not for use with cigarette lighters.
- Mounts in a 1-1/8" hole from the front using the plate or from the rear using the locking ring.
- Includes: Mounting screws, electrical connectors and a boot for the wires.
- 12 volt.

Order No.	Description	List Price
7-0863	Deluxe Power Socket	\$8.19

Marinco SeaLink® Deluxe 12 volt Receptacle and Plug

- Corrosion resistant marine grade construction.
- Exclusive SeaLink locking system.
- The SeaLink 12 volt receptacle features:
 - Watertight sealing plastic cap.
 - Easy to install with supplied mounting plate for front panel installation or locking ring for rear access installation.
 - Compatible with standard 12 volt plugs.
- The SeaLink 12 volt plug features:
 - LED power indicator light.
 - Moisture proof sealing ring.
 - Internal strain relief and cord seal.
 - Interchangeable 10A fuse.
 - Compatible with standard 12 volt receptacles.

Order No.	Mfg. No. / Description	List Price
217946	(12VPK) SeaLink Deluxe Receptacle and Plug	\$21.99

Newmar Power Supplies - Heavy Duty Series

- Designed for powering 12 and 24 volt communication/navigation equipment aboard commercial vessels where reliability is the primary consideration.
- Excellent regulation and ripple spec.
- Polyurethane conformal coated PC board and corrosion resistant heavy duty aluminum case with integral shock mounts assures survival in hostile environments.
- Heat generated by semi-conductors is extracted and dissipated by large heat sink fins that maximize air contact for cool operation and long life of components.
- Input range: 105 - 125/210 - 250 VAC.

Newmar Stabilizing Converters

- Feed sensitive electronics with proper voltage regardless of battery condition.
- These stabilizing converters provide continuous, precisely regulated output over the entire range of a battery's usable voltage.
- This prevents subjecting loads to fluctuating input voltage which can cause shutdown, diminish performance and possibly damage sensitive circuitry.
- Application Benefits Include:
 - Operate electronics at optimal input voltage, even from nearly drained batteries
 - Boost voltage to compensate for voltage drops in long wire runs from batteries
 - Eliminate voltage drops during momentary high current drain from batteries, as during engine start
 - Eliminate voltage fluctuation from charge sources
 - Eliminate voltage overshoot due to sudden removal of high current load

Marpac Power Inverter

- Converts 12 volt DC to 110 volt AC for power when needed.
- Charge most USB compatible devices.
- Plugs into cigarette lighter.
- Fits in most cup holders.
- Great for charging mobile phones, laptops, MP3 players.
- Automatic shut off if voltage drops below 10V or exceeds 15V DC.
- CE and E-Certified.

Order No.	Description	List Price	
7-1279	Power Inverter	\$29.49	G0-6791000

SPECIAL HANDLING MAY APPLY

Marpac PD (Power Delivery) USB Type-C Charger

- Type A port - 5V 2.4A compatible with most smartphones in market.
- Type C port - PD 45W compatible with latest PD devices in market.
- Fast charges your iPhone / Android phones from 0% to 50% within 30 minutes.
- Also charges ultrabooks, MacBooks and MacBook Air (after 2018) in 20V mode.

Order No.	Description	List Price
7-0823	Dual Port USB Charger	\$31.95 G0-1412000

Marpac Dual Port USB Charger

- Corrosion resistant.
- Weatherproof cover.
- Charge two items at the same time.
- Compatible with iPad, iPhone and Android devices.
- Rated at 4.8 amps.
- 12 volt input.

Order No.	Description	List Price
7-0821	Dual Port USB Charger	\$19.09 G0-9721000

Marpac Switch Mount USB Charger Socket

- Dual port USB charger.
- Compatible with iPad, iPhone and Android devices.
- LED power indicator.
- Short circuit/overheat protected.
- Unique water-proof cap splash resistant to IP66 standards (when sealed).
- Enhanced uni-body water resistant design.
- 1.45" x 0.83" cut-out replaces contura style switches in existing panels.
- Easy to install, just snaps in.

Blue Sea Dual USB 4.8A Charger - Socket Mount

- Intelligent device recognition allows rapid charging of phones, tablets, or other mobile devices.
- Charges at the speed required by specific devices.
- Internal filtering for reduced electronic interference.
- Over temperature protection.
- Protective dust cap keeps debris and moisture out.
- Conformal coated circuit board for the harsh marine environment.
- Mounts in a common 1-1/8" hole.
- 12/24V input.

Order No.	Mfg. No. / Description	List Price
379000	(1045-BSS)	\$49.79 F0-5843000

Blue Sea Dual USB 2.1A Charger - White

- Charge two mobile devices on the go.
- Made with corrosion resistant materials which ensure a solid contact and low voltage drop.
- Compatible with most mobile devices including Apple products.
- Protective dust cap with tether keeps dust and spray from shortening the life of the charger.
- Conformal coated circuit board to stand up to the harsh marine environment.
- 2A Supply fuse is not included.
- Easy to install in existing 12V DC socket hole providing convenient access for charging mobile devices.
- Fits in same mounting hole as a traditional 12 volt outlet.
- Cut out dimensions: 1-1/8".
- 12/24V input.

379314	(1016200-BSS)	\$28.79 F0-5102000

Davis SoliCharger-SP™ Solar Phone Charger with Speakers

- Solar charger, high output speakers, tough Cordua carrying case.
- Recharge your cell phone or portable device on the go.
- 3 watt stereo speakers.
- Output rate is 300-500 mA, and you can use your phone or device while it is charging.
- The LED charge indicator tells you how much charge is available.
- You can recharge the SoliCharger-SP's 2000 mAh internal battery using the sun or by plugging into your PC or any type of USB port.
- Includes adapters for 32 pin Apple, USB, USB Mini, USB Micro and USB Female (for iPhone 5 and beyond).

Blue Sea WeatherDeck™ Waterproof Switch Panels

379612

379617

- Waterproof and rated IP67 (for temporary immersion in water) and use materials that won't deteriorate in the harsh sun, salt, and water.
- Panels can be mounted in four different orientations.
- Panel front rated IP67 when properly mounted with watertight mounting gasket.
- Integrated switch guards reduce the risk of accidental switching.
- UV stabilized weather-resistant faceplate snaps on and off providing access to components and concealing mounting screws.
- Panel cumulative rating: 45 amp.
- Gray.
- 12 volt.

- Panel made from corrosion proof ABS plastic with reinforced corners.
- Splash resistant to IP66 standards.
- Watertight design includes toggle switch boots and panel mounting gasket.
- Includes inline, spray-proof ATP/ATC fuse holders.
- Dual port USB charger rated at 4.8 amps and is compatible with iPad, iPhone and Android devices.
- Illuminated toggle switches glow when activated.
- Replaceable on-off toggle switches rated at 16 amps.
- Includes 28 pieces assorted label stickers.
- Panel dimensions: 4-7/32" x 3-3/4".
- Panel cutout: 3-7/16" x 3-1/16".

Order No.	Description	List Price	
7-1240	5 Switches	\$51.59	G0-7543000

Marpac Switch Panel with Toggle Boot Seals

- Corrosion proof black bakelite panel.
- Chrome plated toggle switches with boots and screw cap fuse holders.
- Corrosion resistant tinned wires.
- Rated: 15 amps at 12V DC.
- Includes #6 fasteners and easy to read (8) labels.
- Dimensions: 4-1/2" W x 6-1/4" H.

Order No.	Description	List Price	
7-0517	6 Gang with Toggle Boot Seals	\$37.39	G0-5052000
7-0534	Spare Toggle Switch	\$3.39	G0-7220000
7-0519	Spare Toggle Boot Seal	\$2.79	G0-7810000

Marinco - BEP Products Waterproof Series Sprayproof Switch Panels

- Compact panel size.
- Sprayproof inline fuse holders with fuses included.
- Waterproof power receptacles (16A) in five and three way models.
- Waterproof to IP56.
- Switches rated at 20A DC.
- Dimensions: 3.75" H x 4.25" W x 2.9" H.
- Panel supplied with label LBL-WP.

Marpac Lighted Panel Label Kit

- Replacement labels for Marpac backlight panels **7-1245, 7-1246, 7-1247, 7-1250, 7-1251** and **7-1252**.
- Labels can be used for horizontal or vertical applications.
- 30 waterproof stickers.

Order No.	Description	List Price
7-1258	Label Kit	\$4.19 GO-1820000

Marpac Switch Panel Label Kit

- Fits all Marpac switch panels.
- Includes: Accessory, Aerator, Anchor Light, Bait Pump, Baitwell, Bilge Pump, Bilge Pump Aft, Bilge Pump Fwd, Cabin Lights, Deck Lights, Fish Finder, Flood Lights, GPS, Nav Lights, Running Lights, Spreader Lights, VHF, Wash Down, Water Pressure, Wipers.

Newmar AC or DC Accessory Panels

699750

699782

- Ideal for smaller vessels with only a limited number of electrical circuits, or for larger systems where their modular design makes for an easy and attractive expansion of existing system capacity.
- LS-I Label Set included.

ACCY-IX - AC OR DC ACCESSORY PANEL

- 8 breaker capacity, 5 installed standard; (2) 5 amp, (1) 10 amp, (1) 15 amp, (1) 20 amp or specify. 8 DC circuit "ON" indicator lights installed standard. AC lights optional. Dimensions: 5-1/4" W x 7-1/2" H.

Order No.	Mfg. No. / Description	List Price
699782	(ACCY-IX)	\$298.69

ACCY-IBX - AC OR DC ACCESSORY PANEL

- Blank version of 699782 (ACCY-IX). No breakers provided. Label set, light and breaker mounting hardware provided.

Order No.	Mfg. No. / Description	List Price
699747	(ACCY-IBX)	\$130.89

ACCY-IIX - AC OR DC ACCESSORY PANEL

- 3 breaker capacity, 3 installed standard; 3 DC "ON" indicator lights installed standard. AC optional. (1) 5 amp, (1) 10 amp, (1) 15 amp or specify. Dimensions: 5-1/4" W x 3-3/4" H.

Order No.	Mfg. No. / Description	List Price
699750	(ACCY-IIX)	\$165.09

ACCY-IIBX - AC OR DC ACCESSORY PANEL

- Blank version of 699750 (ACCY-IIX). No breakers or lights provided. Label set, light and breaker mounting hardware provided.

Order No.	Mfg. No. / Description	List Price
699753	(ACCY-IIBX)	\$77.39

Newmar AC or DC Accessory Panels - Elite Series

- AC (120/240V) or DC (12/24V) master breaker (double pole AC 50 amp* standard, 30 amp optional or DC 100 single pole amp standard; 50 or 75 amp optional).
 - LS-III label set included.
 - Dimensions: 5-1/4" W x 15" H x 4" D.
 - Weight: 7 lbs.
- * Note: 50 amp master OK for use on 230 VAC line-to-line systems. For 230 VAC line-to-neutral systems 30 amp is maximum master breaker value.

ES-7A - AC OR DC ACCESSORY PANEL

- 16 branch circuit capacity, 12 installed standard: (2) 10 amp, (5) 15 amp and (5) 20 amp.

Order No.	Mfg. No. / Description	List Price
699878	(ES-7A)	\$834.59

ES-7D - AC OR DC ACCESSORY PANEL

- 16 branch circuit capacity, 12 installed standard: (2) 5 amp, (3) 10 amp, (5) 15 amp and (2) 20 amp.

Order No.	Mfg. No. / Description	List Price
699893	(ES-7D)	\$796.69

Newmar AC Master Panels

699756

699770

- Essential control/protection whenever AC from shorepower or generators is on board.
- A double pole master breaker with power on indicator light protects both hot and neutral legs of the AC circuit.
- A reverse polarity light provides clear warning when wiring is reversed and poses a shock hazard.

AC-II - AC MASTER PANEL

- 30 amp master breaker.

Order No.	Mfg. No. / Description	List Price
699756	(AC-II) Dimensions: 5-1/4" W x 3-3/4" H	\$197.49

AC-IX - AC MASTER PANEL

- 30 amp master breaker, 5 branch circuit capacity 4 installed standard (1) 10 amp, (2) 15 amp, (1) 20 amp or specify. LS-I Label Set included.

Order No.	Mfg. No. / Description	List Price
699770	(AC-IX) Dimensions: 5-1/4" W x 7-1/2" H	\$375.09

Newmar DC Master Panel - Elite Series

- Analog DC volt and ammeter, back illuminated with dimmer.
- 4 battery bank test switch.
- DC master breaker.
- 22 branch circuit capacity, 20 installed standard: (3) 5 amp, (5) 10 amp, (6) 15 amp and (6) 20 amp.
- Red circuit ON indicator lights.
- LS-III Label Set included.
- Dimensions: 10" W x 15" H x 4" D.
- Weight: 8 lbs.

Order No.	Mfg. No. / Description	List Price
699790	(ES-1)	\$1,505.99

Newmar DC Load Center - Elite Series

- Accommodates one analog meter. DC 0-50A ammeter standard or 12 or 24 volts.
- Master breaker, single pole, 75 amp standard; 50 or 100 amp optional, single pole.
- 10 branch circuit capacity, 8 installed standard: (1) 5 amp, (2) 10 amp, (4) 15 amp and (1) 20 amp.
- LS-III Label Set included.
- Dimensions: 5-1/4" W x 15" H x 4" D.

Order No.	Mfg. No. / Description	List Price
699890	(ES-6D)	\$804.29

Newmar AC-DC Master Combined Control Panel - Elite Series

- Locating all AC and DC functions on one panel provides a vessel with a central load distribution and monitoring center.
- Complete metering of voltage and current on AC and DC systems.
- Back-lit analog meters.
- AC master breaker(s) with reverse polarity warning light.
- Power "on" indicator lights on all circuits.
- Four battery bank voltage test switch.
- Deluxe label set (LS-III) included, 206 functions.
- 115 VAC standard/230 VAC optional, 12 VDC standard/24 VDC optional.

Newmar Compact AC-DC Load Center

NEWMAR

- DC circuits: 16 breaker capacity; 12 installed standard: (2) 5 amp, (3) 10 amp, (4) 15 amp and (3) 20 amp.
- AC circuits: Master (D.P.) 30 amp standard plus 6 S.P. branch capacity, 5 installed standard: (1) 10 amp, (2) 15 amp and (2) 20 amp.
- Dimensions: 13.7" W x 10" H x 4" D.
- Weight: 10 lbs.

Order No. Mfg. No. / Description List Price
699794 (ES-3) **\$1,624.99** E0-4781210

Newmar Lamp Dimmer System

NEWMAR

699953

699866

- Adjust DC lights to ease eye strain and enhance night vision.
- Light intensity is easily regulated by remote panel.

LD - DIMMER UNIT

- Rugged anodized aluminum heat sink case.
- 100 watt capacity, for 12, 24 and 32 VDC systems.
- Dimensions: 9" x 4.5" x 2.75"

Order No. Mfg. No. / Description List Price
699953 (LD) **\$259.19** D0-5370200

LDP - CONTROL PANEL

- Black anodized aluminum panel.
- 5,000 Ohm dimmer control panel adjusts brightness between off and 85% of full voltage.
- Dimensions: 3" x 3"

Order No. Mfg. No. / Description List Price
699866 (LDP) **\$73.99** E0-9455000

Newmar AC-DC Master Control - Elite Series

NEWMAR

- Large 3-1/2" scale meters and an ample circuit breaker capacity makes this the panel of choice for boats in the 35' - 45' range.
- DC Circuits: 20 breaker capacity, 16 installed standard; (2) 5 amp, (3) 10 amp, (4) 15 amp, (3) 20 amp or specify.
- AC Circuits: Master (D.P.) 50 amp standard plus 8 S.P. branch capacity, 6 installed standard; (1) 10 amp, (3) 15 amp, (2) 20 amp or specify.
- Dimensions: 17" W x 12" H x 4" D.
- Weight: 12 lbs.

Order No. Mfg. No. / Description List Price
699881 (ES-4) **\$1,576.29** E0-2228110

INCLUDES AC SOURCE SELECTOR SWITCH

- For vessels with an onboard generator, the panel may be fitted with a 7.5 or 15 kW shipshore AC source selector switch.

Order No. Mfg. No. / Description List Price
699884 (ES-4-SS) **\$1,735.59** E0-9610310

Newmar AC-DC Master Control - Elite Series

NEWMAR

- Has large DC circuit capacity and AC section including two load groups and a source selector switch for two shore power lines and a 15 kW generator.
- Pre-heat and start-stop controls are standard.
- DC circuits: Master plus 24 breaker capacity, 20 installed standard; (3) 5 amp, (4) 10 amp, (7) 15 amp, (6) 20 amp or specify.
- AC circuits: Two load groups each consisting of: Master breaker (D.P.) 50 amp standard plus 10 S.P. branch capacity, 8 installed standard; (2) 10 amp, (3) 15 amp, (3) 20 amp or specify.
- Dimensions: 20" W x 15" H x 6" D.
- Weight: 20 lbs.

Order No. Mfg. No. / Description List Price
699887 (ES-5) **\$3,767.09** E0-2352820

Newmar Panel Meters - Analog

- For replacement or addition to existing panel systems.
- Easy to read graphics with unit divisions give precise readouts at a glance.
- Stud mount with push-on terminals.
- Designed for easy front panel mounting.
- DC ammeters require external shunts which are provided.

Order No.	Mfg. No. / Description	List Price
700016	(023-9161-0) 8-16 DC Voltmeter Panel Size: 2-1/2"	\$83.79 E0-4826000

Newmar Digital Instruments for AC/DC Systems

- Provide comprehensive monitoring of onboard AC & DC electrical systems.
- They give quick and accurate information on all important aspects of electrical system status - voltage, current, power consumed, power available and AC frequency accuracy is +/- 1%.
- Programmable visual and audio alarms alert of abnormal system conditions: Low/high voltage and low/high frequency.

- All read-out modes and alarm programming of multiple functions are easily controlled via touch-pads on the instrument face.
- LCD displays are easily read in bright sunlight and feature five level adjustable back-lighting for conservation of night vision.
- All models are designed for through-bulkhead mounting.

Newmar ACE: AC Energy Monitor

- For 115/230 volt systems reads: 90-300 VAC, 0-150 amps, frequency from 40-70 Hz and power from 0-150 kW.
- Features alarm circuits for high/low voltage and high/low frequency.
- Current and voltage transformers are included.
- 12 or 24 volt source required to power meter.

Order No.	Mfg. No. / Description	List Price
699851	(023-4349-0) 2-1/2" Face	\$610.79 E0-9085400

Newmar DCE: DC Energy Monitor

- Displays volts, amps, energy used and remaining for 12 or 24 volt systems up to 500 amps and up to 3,000 amp-hour capacity.
- Monitor voltage on up to three separate banks.
- 500 amp shunt included.

Order No.	Mfg. No. / Description	List Price
699854	(023-4346-0) 2-1/2" Face	\$591.29 D0-3037400

Newmar DCV: DC Voltmeter

- Monitors three battery banks, 12 and/or 24 volt systems.
- Reads to the nearest 1/10 volt.
- Features a programmable high/low voltage alarm circuit for each bank.

Order No.	Mfg. No. / Description	List Price
700681	(DCV) 2-1/2" Face	\$351.39 E0-4536200

Newmar Remote Alarm Relay for DCE and ACE Energy Monitors

- All instruments shown have programmable alarms.
- A relay is available that activates remote indicators from the instrument alarm signal output terminal allowing remote activation and/or connection to the vessel's 12 or 24 volt alarm panel.
- Input signal: 5 VDC.
- Relay rating: 12/24 VDC, 10 amps.
- Dimensions: 2.4" x 1.4" x 1.5".

Order No.	Mfg. No. / Description	List Price
699863	(DIR)	\$88.39 D0-1707000

Newmar Generator Power Monitor

- This versatile and compact (4" x 4") color LED display instrument provides simultaneous read out of generator and shore power data: AC Voltage, Frequency, Amperage of two 120V legs of 240V circuit.
- Programmable alarm settings on each function produces 85 db audio alert as well as visual red blinking display.
- Large 1/2" high LED digits in high visibility green.
- 4 functions, all display simultaneously on one screen: Volts, Amps, Frequency.
- Hour meter displays when generator is off.
- Easy function and alarm programming via 4 button key pad, with on screen menu settings.
- 4 level adjustable LCD brightness settings.
- Programmable alarms: HIGH/LOW for volts and frequency and HIGH alarm for amps (2 lines). Alarm modes: Red warning color visual indication, plus built in 85 db audible, with output signal for external alarm relay.
- User programmable service hour interval settings and notification (password protected).
- 150 amp current transformers (2 X) provided.
- Low power consumption sleep mode (<20 ma) to conserve batteries.
- Operating volts: 9-33V DC. Sense voltage: 120/240V AC.
- Maximum power: 36 kW.
- Panel mount: 2-1/8" hole.
- Waterproof instrument face

Order No.	Mfg. No. / Description	List Price
699908	(VAHF)	\$1,249.99 E0-9473900

Newmar DC Energy Monitor

- Large LCD read-out design.
- Digits are easy-to-read 1-1/4" tall, allowing monitoring from a distance.
- Large button keypads make programming and function selection a breeze.
- All instrument ratings and functions are identical to the DCE.

Marpac Circuit Breakers with Switch Function - Bussmann 187 Series

- Type III manual reset circuit breaker with On/Off switch capability.
- Switch is capable of 3,000 On/Off cycles @ 48V DC.
- Easily mounted to any flat surface.
- External ignition protected to ABYC E-11 standards.
- 5/16-18 threaded copper studs are plated for corrosion resistance.

Order No.	Description	List Price
7-1741	30 Amp Surface Mount	\$61.19 G0-0014000
7-1742	40 Amp Surface Mount	\$55.59 G0-5273000
7-1743	50 Amp Surface Mount	\$55.59 G0-5273000
7-1744	70 Amp Surface Mount	\$61.19 G0-0014000
7-1745	100 Amp Surface Mount	\$55.59 G0-5273000

Blue Sea Thermal Circuit Breaker - Surface Mount

- Drop in replacement for 185-Series Circuit Breakers.
- Visible reset lever shows open condition.
- Ignition protected - Safe for installation aboard gasoline powered boats.
- Meets SAE J1171 external ignition protection requirements.
- Weather resistant.
- Combines switching and circuit breaker function into one unit.
- "Trip Free" - cannot be held closed after trip.
- Maximum voltage: 48V DC.

Order No.	Mfg. No. / Description	List Price
379539	(7184-BSS) 60 Amp	\$53.29 F0-0373000

Blue Sea Thermal Circuit Breaker - Surface Mount

- Combines switching and circuit protection into a single device.
- Clear, single lever operation.
- Ignition protected - Safe for installation aboard gasoline powered boats.
- Meets SAE J1171 external ignition protection requirements.
- Waterproof.
- Maximum voltage: 48V DC.
- "Trip Free" - cannot be held "ON" during fault current condition.
- Large clearance around terminal studs accept heavy gauge wire lugs.
- Robust 5/16 M8 terminals provide high torque connections.

Order No.	Mfg. No. / Description	List Price
379533	(7135-BSS) 25 Amp	\$84.09 F0-6885000
379534	(7136-BSS) 30 Amp	\$84.09 F0-6885000

7-3003	Glass Fuse Display	\$477.89 HO-3768200

Blue Sea Battery Terminal Mount Fuse Block Kit

- Easy to install (4) ATO/ATC fused circuits to the terminal of a battery.
- Mounts on the battery terminal stud.
- Screw terminals for securing wires.
- Accepts small format circuit labels.
- Insulating cover meets ABYC/USCG insulation requirements.
- Includes: A 4-circuit negative busbar, write on labels and (4) 16-14 AWG & (4) 12-10 AWG nylon insulated ring terminals.

Order No.	Mfg. No. / Description	List Price
379368	(5024-BSS)	\$35.89 FO-2152000

Newmar Battery Integrators

- Enables charging of two separate banks without voltage drop, yet maintains 100% isolation at all other times. For systems of three banks or more, an additional unit must be installed for each additional bank.
- Heavy duty silver-plated contactor, continuous duty rated to 100 amps or 200 amps depending on model.
- Voltage sense circuit, epoxy encapsulated and heavy duty continuous rated solenoid are all designed for use in marine environments.
- Easy three-wire hook up for two bank systems.
- 12 volt, 100 amp model has ignition protection rating.

Order No.	Mfg. No. / Description	List Price
700164	(BI-100) 12 volt 100 Amp Continuous	\$212.49 EO-7395100
700170	(BI-200) 12 volt 200 Amp Continuous	\$379.39 EO-4548200
700167	(BI-24100) 24 volt 100 Amp Continuous	\$233.39 EO-4057100

Newmar DC UPS: StartGuard

- The abrupt DC system voltage drop that accompanies engine starting can cause communication and navigation electronics to dump programmed memory.
- StartGuard solves this problem by providing supplemental voltage to sensitive electronics while the engine is cranked.
- It contains a sealed rechargeable battery which is switched on-line to electronics when the starter switch or solenoid is engaged.
- Input voltage: 13.8 - 14.8 VDC nominal, 15.5 VDC max. Output: 20 amps max.

Order No.	Mfg. No. / Description	List Price
700203	(NS-12-20) Dimensions: 8.25" x 4.9" x 3.5"	\$273.19 EO-9840200

Newmar Battery Isolators

- Allow charging multiple batteries automatically from one or two alternators and prevent discharge or dumping of one battery into another.
- Each battery is charged according to its need without overcharging.
- Rated for up to 48 volts DC, negative ground.
- Conservatively rated diodes and a rustproof anodized aluminum heat sink case.
- Heavy duty construction.
- Stainless steel mounting hardware provided.
- Protective covers provided for terminals.

MAXIMUM AMPERAGE INPUT CAPACITY: 70 AMPS

Marinco - BEP Products Battery Distribution Cluster

- This system ensures you will always have a fully charged reserve battery.
- When the switch is in position one, battery one becomes the sensing battery for the VSR.
- Battery two, which is in isolation, will be charged via the VSR when the engine is running ensuring it is always fully charged.
- When the switch is in position two, battery two becomes the sensing battery and battery one is charged via the VSR.

Marinco - BEP Products Battery Distribution Cluster

- For twin outboard engine with three battery banks.
- Designed for twin engine installations.
- It allows the port engine to charge both the port start battery and the house battery when the port VSR is engaged.
- It also allows the starboard engine to charge both the starboard start battery and the house battery when the starboard VSR is engaged.
- This gives you a combined charge from two engines into the house battery until the voltage regulators on both engines control the charge.
- It also allows you to charge the house battery if steaming on one engine.

Marpac Battery Switch

- Select from battery bank 1, battery bank 2 or both for charging or emergency starting.
- Can be mounted on or behind a panel.
- Rated at 300 amps.
- Copper studs for maximum conductivity.
- Nickel plated studs for maximum corrosion resistance.
- Longer studs for attaching more cable terminals.
- Uses up to 4/0 AWG battery cables.

Order No.	Description	List Price
7-0380	Battery Selector Switch	\$35.29

Marpac Battery Selector Switch

- Allows separate and combined battery selection.
- Use as an emergency main disconnect switch in the event of an electrical problem.
- Make before break design.
- Ignition protected.
- Manufactured by PERKO, Inc.
- 250 amps continuous, 360 amps intermittent.
- For use with 6, 12, 24 or 32 volt alternator/generator systems.

Order No.	Description	List Price
7-0378	Battery Selector Switch	\$49.59

Blue Sea m-Series Mini On/Off Battery Switch with Key

- Ignition protected.
- Single circuit - ON-OFF.
- Case design allows surface, front panel or rear panel mounting.
- Isolating cover with snap-on sections protects rear contacts.
- 300 amps continuous rating for outboards and small gasoline or diesel engines.
- Voltage maximum operating: 48V DC.

Order No.	Mfg. No. / Description	List Price
379758	(6005-BSS)	\$32.29

Blue Sea m-Series Mini On/Off Battery Switch with Knob

- Ignition protected.
- Single circuit - ON-OFF.
- Case design allows surface, front panel or rear panel mounting.
- Isolating cover with snap-on sections protects rear contacts.
- 300 amps continuous rating for outboards and small gasoline or diesel engines.
- Voltage maximum operating: 48V DC.

Order No.	Mfg. No. / Description	List Price
379759	(6006-BSS)	\$32.29

Blue Sea m-Series Mini Selector Battery Switch

- Ignition protected.
- Selector 4 position.
- Battery combine: Yes.
- Switches isolated battery banks to all loads or combines battery banks to all loads.
- Case design allows surface, front panel or rear panel mounting.
- Isolating cover with snap-on sections protects rear contacts.
- 300 amps continuous rating for outboards and small gasoline or diesel engines.
- Voltage maximum operating: 32V DC.

Order No.	Mfg. No. / Description	List Price
379696	(6007-BSS)	\$43.09

Blue Sea m-Series Mini Dual Circuit Plus™ Battery Switch

- Ignition protected.
- Dual circuit plus.
- Battery combine: Yes.
- Simultaneously switches two isolated battery banks or combines battery banks to all loads.
- Case design allows surface, front panel or rear panel mounting.
- Isolating cover with snap-on sections protects rear contacts.
- 300 amps continuous rating for outboards and small gasoline or diesel engines.
- Voltage maximum operating: 32V DC.

Order No.	Mfg. No. / Description	List Price
379698	(6011-BSS)	\$53.69

Blue Sea e-Series Battery Switches

- 350 amps continuous rating for inboard gasoline or diesel engines.
- Ignition protected.
- Tin-plated copper studs for maximum conductivity and corrosion resistance.
- Accepts up to 4/0 AWG battery cables.
- Studs accept 3/8" ring terminals.
- 7/8" stud length accepts multiple cable terminals.
- One-piece stainless flange nuts ensure safe and secure connections.
- Tactile indicator conveys knob position by feel.
- Case design allows surface, front panel or rear panel mounting.
- Dimensions: 3.85" x 3.85".

Blue Sea e-Series Dual Circuit Plus™ Battery Switch

- Simultaneously switches two isolated battery banks or combines battery banks to all loads.
- Can not be used to switch positive and negative conductors because of the combine features.
- Battery combine: Yes.
- Continuous rating 350 amps (per circuit).
- Voltage maximum operating: 32V DC.

Order No.	Mfg. No. / Description	List Price
379761	(5511E-BSS)	\$65.99 F0-9164000

Blue Sea e-Series Selector 4 Position

- Switches isolated battery banks to all loads or combines battery banks to all loads.
- Battery combine: Yes.
- Continuous rating 350 amps.
- Voltage maximum operating: 32V DC.

Order No.	Mfg. No. / Description	List Price
379771	(9001E-BSS)	\$51.79 F0-5263000

Blue Sea e-Series Selector 4 Position with AFD

- Switches isolated battery banks to all loads or combines battery banks to all loads.
- Includes AFD (Alternator Field Disconnect).
- Battery combine: Yes.
- Continuous rating 350 amps.
- Voltage maximum operating: 32V DC.

Order No.	Mfg. No. / Description	List Price
379686	(9002E-BSS)	\$57.19 F0-3004000

Blue Sea e-Series Single Circuit ON-OFF

- Switches a single battery to a single load group.
- Continuous rating 350 amps.
- Voltage maximum operating: 48V DC.

Order No.	Mfg. No. / Description	List Price
379775	(9003E-BSS)	\$48.39 F0-7833000

Blue Sea HD-Series Heavy Duty On/Off Battery Switch

- Up to 600 amps continuous rating for large diesel engines.
- Ignition protected.
- Tin-plated copper studs for maximum conductivity and corrosion resistance.
- Accepts up to 4/0 AWG battery cables.
- Studs accept 1/2" ring terminals.
- 7/8" stud length accepts multiple cable terminals.
- Case design allows surface or rear mounting options.
- One-piece stainless flange nuts ensure safe and secure connections.
- Dimensions: 3.85" x 3.85".
- Tactile indicator conveys knob position by feel.
- Switches a single battery to a single load group.
- Continuous rating 600 amps.
- Voltage maximum operating: 32V DC.

Newmar AC Selector Switches

- The switch eliminates the safety hazard and/or damage that can occur if two AC sources are applied to the same circuit simultaneously.
- Fitted with a compact escutcheon plate with engraved switch position nomenclature.
- 115/230 VAC.
- The switches carry UL and CSA approval, are CE marked, and feature heavy duty contacts and a positive step cam mechanism for precise contact closure.
- May be installed in panel with thickness up to 1/4".

Perko Fig. 8511 Compact Battery Selector Switch

542531

542530

- Ignition protected.
- Requires 1/3rd less space to mount.
- Same bolt patterns as Popular 8500 Series.
- Popular 90° easy to identify position rotation.
- Diameter 4-3/4", depth 1-7/8".
- For use with 12, 24 and 32 volt marine electrical systems.
- Higher capacity - 315 amps continuous, 450 amps intermittent.
- Four removable skirt panels for easy cable access and mounting.

Order No.	Mfg. No. / Description	List Price
542530	(8511 DP)	\$53.09

Blue Sea ST-Glass Fuse Block with Negative Bus and Cover

- Can be used for 24-hour circuits.
- Screw terminals for securing wires.
- Clear insulating cover satisfies ABYC/USCG insulation requirements, accepts Large Format Labels and provides stores for spare fuses.
- Tin-plated phosphor bronze fuse clips are encapsulated and cannot be sprung.
- Amperage maximum operating: 100A per block, 30A per circuit.
- Fuse type: AGC or MDL Fuses.
- Dimensions: 3-1/2" x 5" x 1-1/4".
- Voltage maximum operating: 32V DC.
- Fuses sold separately.

Marpac ATO/ATC Fuse Blocks with Ground Bus Bar

7-0520

7-0521

- Flame resistant reinforced polyester base.
- For ATC/ATC fuses.
- Interlocking modules snap together.
- 1/4" tin plated copper tab terminals.
- Rated 30 amps per circuit.
- With ground bus bar.

Order No.	Description	List Price	
7-0520	6 Gang	\$16.79	G0-5211000
7-0521	10 Gang	\$19.79	G0-6231000

Marpac ATP/ATO/ATC Fuse Blocks

- Accepts automotive blade fuses (ATP/ATO/ATC).
- Includes blown fuse indication LEDs.
- Clear cover with recessed areas for label stickers.
- 60 pieces assorted label stickers set included.
- Maximum amperage: 100A per block, 30A per circuit.
- Maximum voltage: 32V DC.

Order No.	Description	List Price	
7-1268	6 Gang Storage for 2 Spare Fuses	\$26.49	G0-5771000
7-1269	12 Gang Storage for 4 Spare Fuses	\$44.39	G0-4792000

Blue Sea ST-Blade Common Source Fuse Blocks

- Common source fuse block.
- Tin-plated copper buses and fuse clips.
- Clear insulating cover with label recesses and storage for two fuses, satisfies ABYC/USCG insulation requirements.
- Includes: 20 write-on circuit labels.
- Screw terminals for securing wires accept ring terminals.
- Screw terminal: #8-32 screws with captive star lock washer.
- Fuse type: ATO or ATC Fuses.
- Amperage maximum operating: 100A per block, 30A per circuit.
- Voltage maximum operating: 32V DC.
- Fuses sold separately.

379372	(5032-BSS) 12 Circuits	\$74.59	F0-1225000

Marinco - BEP Products ATC Fuse Holder

- Allows for multiple fuse holders and bus bars to be joined together, increasing the number of circuits protected. Fuse holder inputs can be linked together to form a single continuous fuse holder.
- Includes patented Contour Lock system, see-thru clip-on cover & label set.
- Positions for spare fuses.
- Max. current/circuit: 30A; Max. current/block: 100A; Max. voltage: 32V DC; Base and cover material: Polycarbonate.
- 6 Way fuse holder and screw terminals with cover and link.

Order No.	Mfg. No. / Description	List Price	
702145	(ATC-6W)	\$39.09	F0-6372000

Marinco - BEP Products ATC Six Way Bus Bar with 5mm Input Stud

- The expandable ATC negative Bus uses the Contour Lock system to allow it to be joined to the ATC fuse holder.
- This keeps wiring tidy and conveniently located.
- Current rating: 100A.
- 6 Way bus bar with 5mm input stud, cover and joiners.

Order No.	Mfg. No. / Description	List Price	
702100	(80-712003900)	\$22.59	F0-1851000

Blue Sea Class-T Fuse Block with Insulating Cover

- Four stud design provides ample access around connecting stud to install large cable lugs without obstruction from the fuse.
- Insulating cover satisfies ABYC/USCG insulation requirements.
- Terminal stud size: 3/8"-16 (M10).
- Amperage maximum operating: 320A.
- Voltage maximum operating: 160V DC.
- Fuse sold separately.

Order No.	Mfg. No. / Description	List Price	
379403	(5502)	\$54.69	F0-8283000

Blue Sea ANL® Fuse Block with Insulating Cover

- Swing out design allows replacement of the fuse without removing fasteners.
- Insulating cover satisfies ABYC/USCG insulation requirements.
- Terminal stud size: 5/16"-18 (M8).
- Cable size: Up to 2/0 AWG.
- Amperage maximum operating: 300A.
- Voltage maximum operating: 32V DC.
- Fuse sold separately.

Order No.	Mfg. No. / Description	List Price	
379455	(5005-BSS)	\$27.69	F0-8391000

Blue Sea ANL® Fuses

- Silver-plated connector blades for corrosion resistance.
- Visible indication of blown condition.
- Ignition protected.
- Interrupting capacity: 6,000A @ 32V DC.
- Voltage maximum operating: 32V DC.

Marpac Terminal Blocks

- Heavy duty black molded base.
- Combines negative and positive buses in one block.
- Brass terminal bar.
- 8-32 screw terminals.

Order No.	Description	List Price	
7-1101	4 Gang	\$7.29	G0-8840000
7-1102	6 Gang	\$10.89	G0-0370000
7-1103	8 Gang	\$13.59	G0-1190000

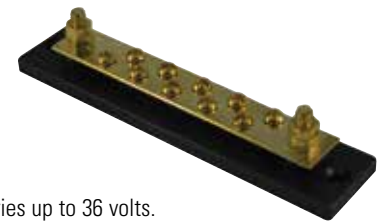

Blue Sea PowerBar - 600A Common BusBar

- High amperage BusBar with 3/8" terminal studs.
- Continuous rating: 545A AC / 600A DC.
- Voltage maximum operating: 300V AC / 48V DC.

Order No.	Mfg. No.	Terminal Screws	Terminal Studs	List Price	
379862	(2104-BSS)	(4) #8-32	(4) 3/8"-16	\$110.09	F0-6077000

Marpac Terminal Junction Block with Solid Brass Bus Bar

- Common hot feed connection.
- Moisture resistant molded plastic insulator base.
- Solid brass bus bar safely carries up to 36 volts.
- 8-32 round head screws for circuit connectors.
- Two brass 1/4" stud power terminals with hex nuts included.
- Two mounting holes for #10 countersink flat head screws.

Order No.	Description	List Price	
7-0168	10 Gang	\$13.99	G0-7390000

Newmar Terminal Strips

- Use as a common negative/neutral bus for AC or DC systems.
- #8 screw terminals is rated for 100 amps.
- Dual terminal strips in 4 or 8 screw positions on 3/4" centers are secured to a high density insulated base.
- Interlocking bases allow use of multiple terminal strips and bus bars to produce secure and neat wiring assemblies.

Order No.	Mfg. No.	Total # of Base Terminals	Size	List Price	
700215	(TS-2X)	8	3-1/16" x 1-1/2"	\$36.09	E0-7072000

Blue Sea PowerBar 1000

379318

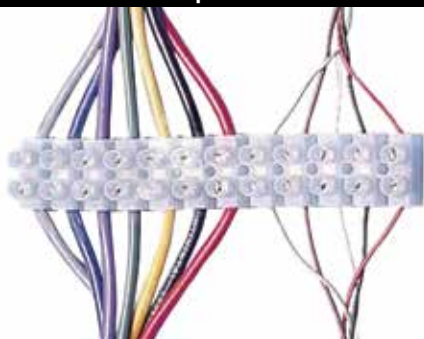

379322

- Complex wiring systems require a single point to consolidate large and small conductors.
- Offers a 1,000 Amp busbar with various size studs and screws to connect conductors and fuse blocks.
- Tin plated pure electrical copper for maximum conductivity.
- Stepped bus design offers two elevations for conductors which doubles the density of the wire loom compared to traditional bus bars.
- Busbar and fuse block elevations match common fuse blocks allowing for multiple fuse block attachment, eliminating the need for connecting cables.
- One-piece serrated flange nuts ensure correct and secure connections.
- Stainless steel 8-32 screws with captive lock washers for securing smaller gauge wires.
- Busbar may be cut to a shorter length to accommodate constricted spaces.
- Bi-directional busbar end caps allow the ganging of additional busbars.
- Snap on insulating cover meets ABYC and USCG requirements and includes label recess.

Order No.	Mfg. No. / Description	List Price	
379318	(1990-BSS) (8) 3/8" Terminal Studs	\$174.29	F0-0022100
379322	(1992-BSS) (8) 5/16" Terminal Studs	\$174.29	F0-0022100

Newmar Connector Strips

- Molded nylon encases 6 or 12 pairs of connectors that use screw compression to secure wires without use of lugs - ideal for electronic installations.
- Brass barrels capture wires and are held in place with a stainless steel "finger" compressed by a screw.
- The screw does not make contact with the wires, protecting the copper strands from cuts and breakage.
- Terminal pairs: 12.

Order No.	Mfg. No. / Description	List Price	
700595	(CS-1) Max. Wire Gauge: 16	\$15.19	E0-9311000
700597	(CS-2) Max. Wire Gauge: 14	\$17.09	E0-2821000

Marpac Double Row Terminal Blocks

- Protective insulator barrier strips.
- Rated: 30 amp, 300 volts.
- Moisture resistant molded plastic insulator base.
- Nickel plated brass terminal links and binding screws.
- RoHS Compliant, CE Certified and UL Listed.

Order No.	Desc.	List Price		Order No.	Desc.	List Price

Blue Sea Terminal Blocks

379873

379916

- Closed back design completely insulates power from the mounting surface.
- Each screw pair is one isolated circuit.
- Jumpers allow creation of common circuits.
- Bus material: Nickel-Plated brass.

20 AMPERE TERMINAL BLOCKS

- Base material: Nylon. Voltage rating: 300 volts AC/DC maximum.

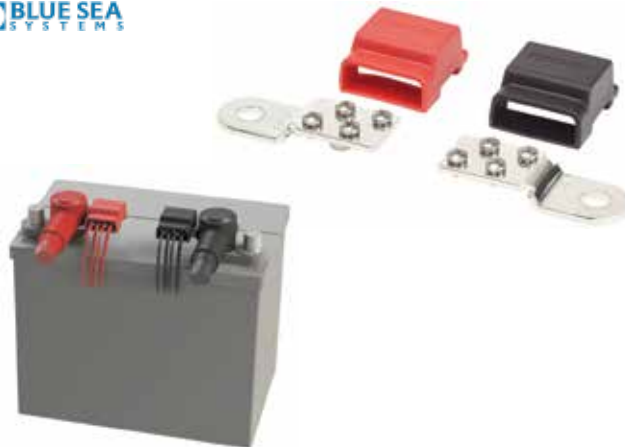

Order No.	Mfg. No. / Description	List Price	
379916	(2404-BSS) 4 Circuit	\$4.39	F0-7030000

379326	(2340-BSS)	\$24.39	F0-7071000

Marpac Ignition Switch - Brass Style

- Brass corrosion resistant construction.
- Brass back up nut.
- Hex chrome face nut.
- 3 positions: Off-Ignition-Start.
- 3 screw terminals.
- Rated: 15 amp at 12V DC.
- Maximum panel thickness: 1-1/8".
- Hole size: 7/8".

Order No.	Description	List Price
7-0482	Ignition Switch	\$33.29

Marpac Ignition Switch - Brass Style

- Brass corrosion resistant construction.
- Brass back up nut.
- Knurled black chrome with rubber cap.
- 4 positions: Accessory-Off-Ignition-Start.
- 4 screw terminals.
- Rated: Ignition - 15 amps at 12V DC.
- Maximum panel thickness: 1".
- Hole size: 7/8".

Order No.	Description	List Price
7-0885	Ignition Switch	\$40.79

Marpac Magneto Ignition Switch - Brass Style

- Brass corrosion resistant construction.
- Brass back up nut.
- Hex chrome face nut.
- 3 positions: Off-Ignition-Start.
- 5 screw terminals.
- Rated: 10 amp at 12V DC.
- Maximum panel thickness: 1-1/8".
- Hole size: 7/8".

Order No.	Description	List Price
7-0480	Ignition Switch	\$34.49

Marpac Ignition Switch - Polyester Style

- Marine grade glass filled polyester housing.
- Brass back up nut.
- Knurled black chrome with rubber cap.
- 3 positions: Off-Ignition-Start.
- 3 screw terminals.
- Rated: 15 amps at 12V DC.
- Maximum panel thickness: 1-1/8".
- Hole size: 7/8".

Order No.	Description	List Price
7-0481	Ignition Switch	\$19.39

Marpac Ignition Switch - Polyester Style

- Marine grade glass filled polyester housing.
- Brass back up nut.
- Hex black plastic face nut.
- 4 positions: Accessory-Off-Ignition-Star
- 4 blade terminals.
- Rated: 15 amps at 12V DC.
- Maximum panel thickness: 1-1/8".
- Hole size: 7/8".

Order No.	Description	List Price
7-0479	Ignition Switch	\$21.79

Marpac Magneto Ignition Switch - Polyester Style

- Marine grade glass filled polyester housing.
- Brass back up nut.
- Hex black plastic face nut.
- 3 positions: Off-Ignition-Start.
- 5 screw terminals.
- Rated: 15 amps at 12V DC.
- Maximum panel thickness: 1-1/8".
- Hole size: 7/8".

Order No.	Description	List Price
7-0391	Ignition Switch	\$20.69

Marpac Magneto Push-To-Choke Ignition Switches

- Delrin body with brass back-up nut and hex black plastic.
- Fits most Mercury Applications.
- 3 positions: Off-Ignition-Start.
- "Push-To-Choke" feature.
- Weatherproof cover included.
- Accommodates 5/8" panel.
- Replaces: Mercury 87-88107 and 87-88107A5.

Order No.	Description	List Price
7-1155	6 Wires Potted Base	\$22.69
7-1150	6 Screw Terminals	\$14.59

Marpac Push-To-Choke Ignition Switch

- Delrin stainless steel ignition starter switch.
- Replaces: Evinrude/Johnson 388173, 390129, 390133 and 393301.
- "Push-To-Choke" feature.
- Special weather-proofing seal and drain hole.
- Eliminates need for separate electric choke switch.
- 5 screw terminals.
- Rated: 20 amps at 12V DC.
- Accommodates 1/4" panel.
- Mounting bushing: 1/2" long, 13/16" diameter.

Order No.	Description	List Price
7-0390	Ignition Switch	\$15.89

Dual Pro RealPRO Series Battery Chargers

- Affordable, reliable and safe battery charging system designed for everyday use.
- Dependable, rugged construction and waterproof.
- Approved for Wet Cell and Absorbed Glass Mat (AGM) batteries.
- Independent outputs and fully automatic.
- Battery maintenance mode.
- DC charge cables: 5'. AC power cord: 3'.
- Approved and meets ISO 8846 Marine standards.
- LED lights indicate "Each Battery's" state of charge.
- Reverse polarity protected and no installation restrictions.
- Ignition protected.

Minn Kota Portable Digital Battery Charger

- Automatic Temperature Compensation - Our on-board chargers sense outside temperature fluctuations and adjust the charge accordingly.
- Automatic multi-stage charging.
- Digital control - Our microprocessor-based design enables our chargers to continually monitor the temperature and state of charge.
- LED display indicates power ON, charging, full charge & check connection.
- Short circuit, reverse polarity, arc and ignition protected.
- FCC Compliant. Designed to UL marine standard 1236.

Order No.	Mfg. No. / Description	Total Output	List Price
476788	(1830110) MK 110PD 1 bank	10 amps	\$84.99 E0-4736000

Minn Kota On-Board Alternator Battery Chargers

- Charge-on-the-fly: After the boat's alternator has fully charged the starting battery, this technology will reroute the alternator power to the trolling motor batteries.
- Battery Protection.
- Waterproof Construction.
- LED Indicator Lights: Inform of charge stage, maintenance mode status, error notifications and full charge.
- Flooded lead acid battery and AGM battery compatible.

Order No.	Mfg. No. / Description	# of Banks	Total Output	List Price
476776	(1821032) MK 20C	2	10 amps	\$149.99 E0-9421100
476780	(1821033) MK 30C	3	30 amps	\$199.99 D0-9995100

Minn Kota Digital On-Board Battery Chargers

- **Digital Control:** Microprocessor-based design delivers a faster, more precise charge every time
- **Automatic Temperature Compensation:** Chargers sense and adjust to ambient temperature fluctuations to ensure a fast, accurate charge.
- **LED Indicator Lights:** Inform of charge stage, maintenance mode status, error notifications and full charge
- **Automatic Multi-Stage Charging:** Controls the voltage and current your battery gets throughout the charging cycle, ensuring a fast, safe & precise charge.
- **Waterproof Construction:** All on-board chargers are built to be waterproof, shock-resistant and vibration-resistant. Saltwater compatible.
- Flooded lead acid battery and AGM battery compatible.

Minn Kota Precision On-Board Chargers

- **Battery Type Selection:** Each charging bank can be selected to your specific battery type (AGM, gel or flooded lead acid) to guarantee a safe, protected charge.
- **Automatic Temperature Compensation:** Precision chargers sense and adjust to ambient temperature fluctuations to ensure a fast, accurate charge.
- **Low-Line Voltage Compensation:** When outlets don't put out the 120 volts they are supposed to, Precision Chargers compensate to deliver a fast, consistent charge no matter what.
- **Battery Equalization:** Cleans and protect your battery (flooded lead acid only) every time you plug in. Also activates a more rigorous, complete cleaning at the push of a button.
- **Digital Control:** Microprocessor-based design delivers a faster, more precise charge every time.
- **LED Indicator Lights:** Inform of charge stage, maintenance mode status, error notifications and full charge.
- **Automatic Multi-Stage Charging:** Controls the voltage and current your battery gets throughout the charging cycle, ensuring a fast, safe and precise charge.
- **Waterproof Construction:** All on-board chargers are built to be waterproof, shock-resistant and vibration-resistant. Saltwater compatible.
- Flooded lead acid battery, AGM battery and Gel battery compatible.

Guest On-Board Battery Chargers

GUEST

379206

379200

379202

- All high frequency, digital charging technology.
- Fully automatic 5-stage performance charging.
- Dedicated battery charging, sensing and control per bank.
- Expanded LED charge status monitor.
- Wiring and battery fault detection.
- Auto-maintain energy saver mode.
- 100% Waterproof (IP67) and shock resistant for all fresh and saltwater applications.
- For all 12 volt flooded and AGM lead acid batteries.
- Built-in safety: reverse polarity, over-current, over-voltage, over-temperature and ignition protection. In-line fuses for maximum DC wire protection.
- 2 year warranty.

Newmar Phase Three Modular Battery Charger

NEWMAR

- ABS Type Approved.
- Powder coated stainless steel case.
- Redundant, independent 22.5 amp charger modules increase reliability - a malfunction of one does not disable the charging system; remaining modules continue to operate.
- Three stage smart charging: Bulk, absorption, float.
- Battery type selector switch; gel-cell, lead-acid, AGM.
- Temperature compensated output option.
- Universal input of 90-264 VAC, 50-60 Hz. Can be used anywhere in the world.
- 24 Volt; 22-67 amps.

Order No.	Mfg. No. / Description	List Price	
700396	(PTMS-24-67)	\$5,559.39	F0-7519830

Newmar ABC Series Battery Charger

NEWMAR

- Products 3 step output (bulk, absorption and float) to 2 isolated battery banks providing fast recovery and ideal cell conditioning which maximizes battery performance and life.
- Rugged heat-sink, powder coat aluminum case.
- Total output ammeter.
- Dual output banks.
- On-off power switch and power "on" indicator light.
- Vibration absorbing mounting grommets.
- 115/230 VAC input selector switch.
- Auto-reset thermal overload protection.
- 2 banks, 12 volt.

Order No.	Mfg. No.	Output	Input VAC (50-60 Hz.)	List Price	
700304	(ABC12-6)	6 amps	90-130 or 180-264	\$481.39	F0-7963300

Newmar Phase Three Series Battery Chargers

NEWMAR

700345

700372

- ABS Type Approved
- Smart circuitry provides three stage charging: Bulk, absorption, float.
- Gel-Cell/Flooded Lead-acid/AGM battery type switch selects optimum charge/float voltages.
- Multiple isolated output banks; ammeter indicates total output current.
- Current limiting-prevents damage from overloading.
- Charger status clearly displayed with L.E.D. and/or audible indicators.
- Use as a power supply; can power loads without a battery in line.
- Built to last rugged stainless steel case with a durable white powder coat finish with an optional drip shield and marinated internal circuitry.
- Numerous Safety and EMC Compliances.
- Two year parts and labor warranty.

SPECIAL HANDLING MAY APPLY

Newmar Phase Three Charger Monitor/Control Unit

- ABS Approved.
- Anodized aluminum case.
- Digital readout of 3 battery bank voltages to 1/10th.
- Adjustable DC high/low voltage alarm.
- Output float voltage adjustment pot; permits fine tuning from -4% to +5%.
- AC power "ON" indicator light.
- 10' wiring harness for easy connection of PT Series Charger.
- Compatible with: PT-14W, PT-25W, PT-40U, PT-80, PT-24-8W, PT-24-13W, PT-24-20U, PT-24-45U, PT-24-95U and PTMS-24-67.
- 120 or 240 VAC AC failure contact.

699977	(TCS-12/24-40) 40' Cable	\$161.29	E0-7902100

Newmar Temperature Compensation Probe

- For use with the following Newmar Phase Three Charger Models: PT-32-30, PT-24-45F, PT-24-95F.
- Provided with 25' of cable, with a sensor at one end and a keyed five-pin plug at the other.

Order No.	Mfg. No. / Description	List Price	
700209	(TP)	\$147.99	E0-9901100

Newmar Remote Monitor Panel

- LED's indicate charger output stage.
- Manual re-initialization of three stage charge cycle.
- An optional remote indicator/activation panel which will allow you to monitor the status of your Phase Three Charger and when necessary, re-initiate the three stage charge regimen.
- It is designed for use with the following models: PT-14, PT-25, PT-40, PT-70A, PT-24-8, PT-24-13, PT-24-20 and PT-24-40.
- Comes prewired with 25' of cable.
- Panel dimensions: 3" H x 4.75" W.

Order No.	Mfg. No. / Description	List Price	
698146	(RP)	\$191.39	E0-4534100

ASEA Dock Boost Transformer

- Provides precision voltage regulation to the vessel, delivering complete protection from the most common shore power problems, including: Brownouts, spikes, sags and low-line or high-line voltage conditions from the dock power pedestal.
- Auto-restart from shore brownout or blackout.
- Auto-restart from overload.
- Fault shield fro bonded, galvanic bridged/isolated ground.
- Serial bus (RS-232) remote diagnostics.
- Remote on/off.
- kWh meter.
- Advanced power monitoring (input/output).
- Input - voltage: 167-270V AC, phase: 1, amps: 50, frequency: 57-63Hz.
- Output - power form: Split Phase 12/240V AC, Rated power: 12kVA.

BATTERY CHARGER

WITH HOT SWAPPABLE MODULES

The **Electros Battery Charger** improves DC system reliability by utilizing multiple independent and isolated charger modules. If a fault occurs in one module, the redundant modules continues to operate, keeping your batteries charged.

SPECIFICATIONS Input: 90-264VAC, 50-60Hz
Output: 12/24VDC, 50-150Amps

FEATURES

- *Hot swappable modules*
- *Redundant backup modules*
- *Modbus serial communications*
- *Onboard monitoring of charger status*
- *Built in alarm contacts*
- *Wide range of amperage*
- *Battery types: 12-cell, Lead Acid, Flooded, Gel, AGM, TPPL*
- *IP54 Protected*

The “smart” controller circuit within each module provides 3 step charging allowing completion of charge cycle even if one module were to fail.

Inverter-Chargers - Torque Series

Go to
Webpage!

New!

High Power DC-AC Inverters with Built-in Battery Chargers.

The **"Torque"** Series (TQ) incorporates all the ruggedness and reliability of the perfect wave series but with upgraded electronics that provide higher peak power, efficiency, protection and a high power density resulting in a reduction in case size. Diagnostic monitor panel with power limit programming is built-in with an optional full function LCD text display.

Six models for use with 12 and 24 volt battery systems provide continuous rated AC power ranging from 1000 to 3600 watts at 115 VAC-60 Hz., and battery charging 60 - 150 amps.

TQ inverter-chargers deliver high surge capability for starting motor loads and pure, sinusoidal AC for flawless operation of all appliances and sensitive electronics. They are ideal for entertainment systems and micro-processor-based equipment such as computers which are intolerant to AC wave distortion.

Whenever shore or generator AC power is available, a built-in automatic transfer which activates the multi-stage battery charger for rapid and safe replenishment of the inverter battery bank.

Protection features include thermally controlled cooling fans, low voltage cutout, thermal and overload protection and ground fault interruption, built in rugged powder coated aluminum case suitable for permanent horizontal or bulkhead mounting. A front panel LED display provides basic diagnostics and voltage data. It can also be removed and installed as a remote. An optional LCD remote indicator and control panel is available for all models.

Features

- Rugged hostile environment-proven circuitry generates AC for powering any appliance, from wattage-hungry refrigeration to highly input-sensitive computers, electronic controllers/processors.
- Built-in high output charger for rapid battery bank replenishment — feature three stage, temperature compensated charger with output programmable for gel-cell, flooded lead-acid or AGM battery type, and amp-hour capacity selector for proper charging in various applications. Will charge batteries that have been discharged to zero volts.
- Programmable AC input power limiting avoids nuisance tripping of shore power breakers when limited power is available
- Internal charger is activated by an automatic transfer relay via remote sensor whenever external AC power is available. Optional Battery Integrator permits charging of multiple banks
- Transfer switch does not require DC voltage to function - can charge totally dead batteries
- Designed for maximum ease of installation and operation - installer and user-friendly. Large DC input terminal blocks and front panel GFCI protected outlet receptacle. AC output from the inverter may also be hard-wired.
- All important aspects of inverter and charger operation clearly displayed with front panel status indicators which can also be mounted as a remote
- Numerous safety and circuit protections: short circuit, overload, over-temperature, ground fault protection, output circuit breakers
- Thermally controlled, low noise cooling fan prolongs life of components
- Automatic low voltage shutdown circuit prevents damage to batteries due to over-discharge when using inverter function.
- Heavy duty powder coated aluminum construction and polyurethane coated internal circuitry—built to last in the harsh marine environment.
- UL listed with two year warranty

Charger Characteristics

Three stage "smart charger"; programmable via selector switch for gel, flooded lead-acid or AGM battery type; Output temperature compensated via a provided battery temp sensor with 20' cable.

Options/Accessories

- Remote LCD monitor and control indicator panel
- Battery Integrator, Models BI-100 and BI-24-100, enables charging of multiple isolated battery banks, see page 39
- AC and DC energy monitors, see pages 58-59
- High current fuse assembly, see page 66
- Circuit Breakers, see page 64

Optional Remote LCD Monitor & Control Indicator Panel

5.75" x 3.75"

NEWMAR

Specifications

Operating Temperature:

-20° C to +65° C (0° F to 149° F)

Inverter Regulation: 120 VAC RMS (110V - 127V)

Transfer Time: ≤20 ms

Protection Features

- Automatic low battery shutdown
- Output circuit breaker
- Auto high temperature shutdown/recovery
- Overload protection

Mechanical Features (all models)

- Thermally controlled cooling fan
- AC hard-wire and dual GFCI protected duplex outlet
- Powder coated aluminum case with mounting flanges
- Polyurethane coated printed circuit boards for corrosion resistance

MODEL
 DBT12

DOCK BOOST TRANSFORMER

SMART ISOLATION BOOSTING TRANSFORMER

The **Dock Boost Transformer (DBT12)** provides precision voltage regulation to the vessel, delivering complete protection from the most common shore power problems, including: *brownouts, spikes, sags, and low-line or high-line voltage conditions from the dock power pedestal.*

FEATURES

- Auto-Restart from shore brownout or blackout
- Auto-Restart from overload
- Fault shield for bonded, galvanic bridged/ isolated ground
- Serial bus (RS-232) remote diagnostics
- Remote on/off
- kWh meter
- Advanced power monitoring (input/output)

SPECIFICATIONS

INPUT

Voltage: 167-270VAC
 Phase: 1 ϕ Amps: 50
 Frequency: 57Hz-63Hz

OUTPUT

Rated Power: 12kVA (50A @240V)
 Power Form: Split Phase 120/240VAC
 Frequency: Freq in = Freq out RMS Efficiency: > 97%

WEIGHTS AND DIMENSIONS

Height: 12.8" (32.5cm) Width: 13.0" (33.0cm)
 Depth: 18.0" (45.7cm) Weight: 127.0lbs (57.6kg)

BENEFITS

COMPACT + LIGHTWEIGHT

The DBT 12 features a compact and lightweight footprint at 1.6 sqft and only 127lbs. By providing an industry recognized mounting pattern, it will fit as the perfect replacement for new construction or retrofit applications.

DURABLE DESIGN

Designed to withstand the most demanding marine environments, the DBT series is constructed with rugged stainless steel/ aluminum housing with conformal coated printed circuit boards.

WIDE VOLTAGE ACCEPTANCE

Accepts any input voltage ranging from 167VAC-270VAC (57-63Hz) and provides a split phase 120/240V output nominal.

MSRP
 \$6,230

TRUE SINE WAVE INVERTER/CHARGERS

FREEDOM SW

- State-of-the-art sine wave series with advanced features
- Ideal upgrade for Magnum, RS, MS, Trace SW and other older make/models
- Built-in hybrid functionality - combines shore and AC generator input to power loads
- Exceptional surge for extended time - will operate motor loads, compressors, hot plates, sump pumps & other heavy loads within its power range
- Meets UL458 with marine supplement, CSA, ABYC and FCC Class B

Model	Part Number	MSRP
FREEDOM SW 2012 INV/CHGR - TRUESINE 2000W, 100A, 120AC/12DC, HARDWIRE	815-2012	\$2,179.00

Newmar Solar Charging Systems

- Industrial grade panel, components and heavy duty vibration mounts designed for emergency vehicle use.
- Numerous size panels match available roof space (1.2 to 7+A); panels can be wired for higher output.
- Voltage controller adapts to properly charging different battery types.
- Kits contain all parts needed for various types of vehicle installations.
- 12 volt.

Newmar Inverter - PS Series

- Pure sine wave 115V output.
- High efficiency - 90%.
- Power saving mode conserves battery when not in use, user adjustable set points.
- AC duplex outlet on front panel.
- Status indicators lights on front panel: Input voltage, Output power level, Power Mode and Fault Status.
- Remote control/display included.
- Protection: Low input voltage, overload, short circuit, over temp.
- Meets UL458.
- Rugged and compact aluminum case, ideal for marine applications.

Order No.	Mfg. No. / Description	List Price	
700397	(12-1000 PS) 12V DC, Continuous: 1,000 Watt	\$1,436.59	H0-5916800

Newmar Automatic Power Selectors (APS)

- The APS enables integration of a redundant power source to critical electronic loads.
- It automatically selects the higher voltage of two independent DC power sources and routes that source to the load.
- Should one source falter or fail, the other will automatically supply the load with no transfer delay, thus operation continues uninterrupted.

Order No.	Mfg. No. / Description	List Price	
700434	(APS-70) Max. Loads: 70 amps	\$180.59	H0-5380100
700450	(APS-160) Max. Load 160 amps	\$509.59	H0-5750300

Newmar Continuous Protection - Nav-Pac®

- Contains an internal battery that supports electronics when primary input power falters or altogether fails.
- Internal 5AH battery.
- Rechargers directly from primary voltage source.
- Filters electronic interference.
- Absorbs line voltage spikes.

Order No.	Mfg. No.	Input	Output	List Price

STANDARD SERIES

- For powering communication/navigation equipment, on negative ground systems.
- Excellent regulation.
- Heat generated by semi-conductors is extracted and dissipated by large heat sink fins that maximize air contact for coolest operation and long life of components.
- Polyurethane conformal coating on PC boards and corrosion resistant anodized aluminum case with heavy duty shock mounts assures survival in hostile environments.
- Numerous converter and load protection circuits: Current limiting, automatic thermal shutdown, short circuit proof, reverse polarity and overvoltage protection.
- Output voltage: 13.6.

ISOLATED SERIES

- Same features as Standard Series, but with the additional capability of permitting connection of negative ground gear to positive or floating ground battery systems, or vice-versa.
- Wide range of input voltage.
- Precise output voltage regulation.
- Reverse polarity.
- Input fuse/output fuse.
- Automatic re-setting thermal shutdown.
- High/low input voltage shutdown.
- Power "On" light.

Newmar High Power DC-AC Inverters with Built-in Battery Charger

700413

- Rugged hostile environment-proven circuitry generates "Perfect Wave" AC for powering any appliance, from wattage-hungry refrigeration to highly input-sensitive computers, electronic controllers/processors.
- Built-in high output charger for rapid battery bank replenishment - all models feature three stage, temperature compensated charger with output programmable for gel-cell, flooded lead-acid or AGM battery type, and amp-hour capacity selector for proper charging in various applications.
- Internal charger is activated by an automatic transfer relay via remote sensor whenever external AC power is available. Optional Battery Integrator permits charging of multiple banks.
- UL listed with full two year warranty.
- Designed for maximum ease of installation and operation - installer and user-friendly. Large DC input terminal blocks and front panel GFCI protected outlet receptacles. AC output from the inverter may also be hard-wired.
- All important aspects of inverter and charger operation clearly displayed with front panel status indicators-optional remote panel available.
- Numerous safety and circuit protections: short circuit, overload, over-temperature, ground fault protection, output circuit breaker.
- Thermally controlled cooling fan prolongs life of components.
- Automatic low voltage shutdown circuit prevents damage to batteries due to over- discharge when using inverter function.
- Heavy duty powder coated aluminum construction and polyurethane coated internal circuitry - built to last in the harsh marine environment.

Newmar Power Supplies - Heavy Duty Series

- Designed for powering 12 and 24 volt communication/navigation equipment aboard commercial vessels where reliability is the primary consideration.
- Excellent regulation and ripple spec.
- Polyurethane conformal coated PC board and corrosion resistant heavy duty aluminum case with integral shock mounts assures survival in hostile environments.
- Heat generated by semi-conductors is extracted and dissipated by large heat sink fins that maximize air contact for cool operation and long life of components.
- Input range: 105 - 125/210 - 250 VAC.

Newmar Stabilizing Converters

- Feed sensitive electronics with proper voltage regardless of battery condition.
- These stabilizing converters provide continuous, precisely regulated output over the entire range of a battery's usable voltage.
- This prevents subjecting loads to fluctuating input voltage which can cause shutdown, diminish performance and possibly damage sensitive circuitry.
- Application Benefits Include:
 - Operate electronics at optimal input voltage, even from nearly drained batteries
 - Boost voltage to compensate for voltage drops in long wire runs from batteries
 - Eliminate voltage drops during momentary high current drain from batteries, as during engine start
 - Eliminate voltage fluctuation from charge sources
 - Eliminate voltage overshoot due to sudden removal of high current load

Marpac Power Inverter

- Converts 12 volt DC to 110 volt AC for power when needed.
- Charge most USB compatible devices.
- Plugs into cigarette lighter.
- Fits in most cup holders.
- Great for charging mobile phones, laptops, MP3 players.
- Automatic shut off if voltage drops below 10V or exceeds 15V DC.
- CE and E-Certified.

Order No.	Description	List Price	
7-1279	Power Inverter	\$29.49	G0-6791000

Marinco ConnectCharger™ Inlet - Universal Mount

MARINCO

- A receptacle designed to accept plug-in Guest ConnectCharge on-board battery chargers.
- This model features universal mounting: Use three screws through the faceplate to mount it from the front or use a threaded locking ring to mount it to the dash from the rear.
- The watertight lid snaps closed to protect the AC plug.

Order No.	Mfg. No. / Description	List Price
217910	(150CCI) Black	\$23.39 F0-7361000

Marinco 3-Wire 70A Charging/Trolling System

MARINCO

- 70A continuous rating.
- Universal design for 2 or 3-wire configuration 12V, 24V, 12/24V, 24/36V, 36V or 48V systems.
- Floating pin design for maximum connectivity and durability.
- Corrosion resistant, plated brass electrical components.
- Receptacle contains watertight sealing cap.
- Plug contains Integrated strain relief and keyed design with thumbprint locator.
- Accepts up to 6 AWG wire.

Order No.	Mfg. No. / Description	List Price
700825	(12VCPS3)	\$58.99 G0-2593000

Marinco On-Board Charger Inlets - Front Mount

MARINCO

- 15 amp, 125 volt straight blade.
- Marinco on-board charger inlets make battery charging through an on-board battery charger safer and more convenient.
- Inlets mount on the boat exterior and are hard-wired directly to the charger.
- To use, just open the flip lid cover and plug an extension cord into the inlet.
- All hatches remain closed and locked throughout the charging cycle for added security.
- Mounts easily to fiberglass and aluminum hulls.
- Perma-Lock terminals and color coded wire entrance holes make wiring a snap.
- UV resistant housing/cap.

Order No.	Mfg. No. / Description	List Price
217908	(150BBI) Black	\$24.39 F0-7071000

Marinco 3-Wire ConnectPro® Charging/Trolling System

Marinco ConnectPro® Receptacle

MARINCO

- Universal design for 2 or 3-wire configuration 12V, 24V, 12/24V, 24/36V or 36V systems.
- Watertight sealing cap.
- Corrosion resistant, plated brass electrical components.
- Drain holes in receptacle keep water away from electrical components.
- Perma-Lock screw terminals will not loosen under extreme hull vibration.
- Standard 1-1/8" diameter mounting hole.
- Easy to install, with supplied mounting plate for front panel installation, or locking ring for rear access installation.
- Accepts 10 and 8 AWG wire.
- Easily replaces other trolling motor plugs and receptacles.
- Max rating is 40 amps.

Order No.	Mfg. No. / Description	List Price
217941	(12VBR)	\$29.39 F0-7502000

Marinco ConnectPro® Plug

MARINCO

- O-ring seal for waterproof connections.
- Weather resistant plug cover.
- Corrosion resistant, plated brass electrical components.
- Accepts 16 to 8 AWG wire.
- Ergonomic contoured grip for easy hook-up and ground blade alignment.
- Max rating is 40 amps.

Marinco 4-Wire 12/24V Locking Charging/Trolling System

The 4-wire trolling/charging system eliminates the need for a charge/run switch. Install the receptacle on the boat, mount the black trolling motor plug on the trolling motor, and the red charger plug on the leads of the battery charger. Simply plug in the black plug to troll, or plug in the red plug to charge.

Marinco Charger Plug (Male)

MARINCO

- Accepts up to 10 AWG wire.
- Red.

Marinco EEL ShorePower-Style Straight Adapters

218744

218752

217655

218748

- Straight Adapters are high quality, one-piece adapters used much like Pigtail Adapters. However, they do not have sealing collars and are not recommended for use in wet locations.
- Use only in an enclosed, dry location, such as powering your boat from a 15 amp power receptacle inside a house.
- LED power indicator.
- Ergonomic design for easier gripping.

Marinco EEL ShorePower Pigtail Adapters

218720

218736

218728

- Pigtail Adapters enable you to connect from one dockside receptacle (or other power source receptacle) to one boatside inlet or equipment of dissimilar power configuration.
- Sealing collar to create a weatherproof seal when joining cables together.
- Heavy duty, super flexible marine grade cable.
- Watertight molded plug and connector ends for safety and durability.
- Corrosion resistant nickel-plated contacts.
- Suitable for use in wet locations.

- Ideal for making wiring connections above or below decks, even in areas subject to occasional spray
- Similar to BX Series junction boxes, but made from rugged, non-corrosive, high impact polypropylene
- Snap-on cover provides watertight seal.
- Multiple position connector strips with "captive" screw compression wire terminals installed - meets ABYC standards
- Multiple knockouts provided for conduit access (in addition to cable entries)
- IEC Waterproof Rating: IP54.

Newmar EX Series Electrical Enclosures

- These enclosures provide functional and professional protective cases for wire connectors, terminal blocks, relays, solenoids, fuses, etc.
- The corrosion-resistant polycarbonate cases are ideal for marine applications, and the deep cavity design leaves room for securing wiring and components and making connections.
- In addition, instruments, switches and panels can be surface mounted to the cover, as there is ample space for rear projection and wiring.
- The enclosures have gasketed covers with captured non-corrosive securing screws.

EX-373 ELECTRICAL ENCLOSURE

- Size: 7.09" L x 3.7" W x 3.19" D. Knock-outs: 14 each PG-16 (Dia: .91").
