Bienvenidos a Repuestos El Navegante.

Aquí podrás encontrar mas de **35.000** productos de diferentes fabricantes, con una gran variedad de accesorios y componentes para tu embarcación, contamos con mas de 20 años de experiencia en el sector náutico, no dudes en contactarnos para aclarar cualquier duda que tengas, prestamos asesoría técnica lo que es un valor agregado, y te dará tranquilidad a la hora de tomar una decisión de compra.

Nota Importante:

Debido a las restricciones causadas por el Covid 19, y otros problemas a nivel Mundial muchas empresas se vieron afectadas debido a la falta de materia prima, por este motivo tanto los precios como las fechas de entrega sufrieron cambios en gran cantidad de productos, comuníquese con nosotros a través del correo: repuestoselnavegante@gmail.com y solicite su presupuesto sin compromiso, también puede comunicarse vía Telegram o WhatsApp escaneando los códigos QR.

Los productos aquí publicados se encuentran en varias partes del mundo, pero la mayoría se encuentran en Estados Unidos y Europa, por lo que estos precios no incluyen gastos de envío.

También puede consultar en nuestra pagina www.repuestoselnavegante.com nuestros términos y condiciones antes de efectuar la compra, ahí podrá ver también nuestra política de devoluciones.

Los productos pueden ser entregados en un currier de su confianza.

En nuestra pagina podrá encontrar mas de **3.500** productos para entrega inmediata.

Nos especializamos en repuestos Volvo Penta, Cummings, Yanmar, Caterpillar, Mercruiser.

Ofrecemos repuestos para Generadores Onan, Kohler, Westerbeke, Fisher Panda y Northern Lights.

Lewmar Pro-Series 700/1000 Horizontal Windlasses

- 100% 316 stainless steel housing.
- For boats up to 38 ft.
- Maximum line speed/min.: 105 ft.
- Fast line speed.
- Worm motor gearbox for reliability.
- Dual direction solenoid inside unit.
- Rope-chain gypsy.
- Manual recovery option. 5 year warranty.
- Dynamic DIY install kit includes: Windlass, base gasket seal, fast mounting studs, installation wrench, circuit breaker, dual-direction solenoid and rocker switch.

PRO-SERIES 700 HORIZONTAL WINDLASS

- Motor power: 500W.
- Typical working load: 175 lbs. Maximum pulling power: 700 lbs.
- Use with 1/4" G4 or BBB, 7mm DIN 766 chain, 1/2" (12mm) 3-strand and 8-plait rope.

Order No. Mfg. No. / Description List Price
554988 (6656011967-) **\$934.69** C0-9449700

PRO-SERIES 1000 HORIZONTAL WINDLASS

- Motor power: 700W.
- Typical working load: 250 lbs. Maximum pulling power: 1,000 lbs.
- Use with 5/16" G4 chain, 9/16" - 5/8" 3-strand and 8-plait rope.

Lewmar Deck Foot Switch

LEWMAR

- Suitable for DC electric windlasses running on 12 or 24 volt.
- Ready to install.
- Single direction switch.
- Hinged cover to prevent accidental operation.
- Normally open contact, 5A (12 and 24 volt).
- Must be used with a contactor or control box.
- Blank - white.

Order No.	Mfg. No. / Description	List Price
555168	(68000930)	\$38.69 E0-2092000

Lewmar Guarded Rocker Switch

LEWMAR

- Controls the up and down function of all our anchor windlass models.
- The switch can be mounted at the helm as the main switch for operation or mounted at a second station as a secondary switch.
- It features a raised plastic guard surrounding the rocker switch which helps prevent accidental activation of the windlass, enabling safer operation.

Order No.	Mfg. No. / Description	List Price
555175	(68000593)	\$68.19 E0-4115000

Lewmar Sealed Contactor

LEWMAR

- Manual override.
- Motor thermal cut-out.
- One speed electric/two speed manual.
- For use with ProSport, Pro-Series 700/1000 and V700 Windlasses.
- Compact dual 12 volt.

Raptor keeps working to hold you more reliably than any other anchor, especially in rough conditions. It knows where you're anchoring, what's happening to your boat, and what to do next. It reads the bottom, senses the anchoring force and reacts automatically to keep you locked down until the moment you're ready to change spots.

- **Active Anchoring:** This revolutionary anchoring technology continuously monitors anchoring force and adjusts to keep you pinned to the bottom.
- **Auto Bottom Mode:** On Active Anchoring enabled models, this anchoring mode automatically senses bottom composition and hardness to deliver the right amount of anchoring force every time.
- **Durable Design:** A wider profile, heavy duty reinforced pivot points and extruded aluminum design will keep Raptor on the water in the harshest conditions.
- **Retraction Force:** We designed Raptor with increased retraction force to ensure spike removal in all bottom types.
- **Multiple Control Options:** Control Raptor from anywhere on the boat using your choice of options: Wireless Remote, Foot Switch, i-Pilot or i-Pilot Link Remote, Mobile App or right from the Humminbird fish finder.
- **User-Selectable Anchoring Modes:** Separate anchoring modes for Rough Water (heavy wind and chop), Soft Bottom (muddy or silted bottom), standard (normal anchoring), and Auto-Bottom Mode on Active Anchoring equipped models which automatically delivers the ideal anchoring force by sensing bottom hardness.
- **Indestructible Anchoring Spike:** Strong and flexible composite anchor spike backed with a lifetime guarantee.
- **Auto Up/Down:** Automatically deploy or retract your Raptor with the push of a button; no need to hold the button down.
- **Saltwater-Tough Engineering:** Keeps Raptor safe from the corrosive effects of saltwater.

Danforth® Standard® Anchors

- Has the traditional holding power which has always been associated with Danforth Standard Anchors.
- The shank is made of high strength steel.
- The steel flukes are strong and wide.
- Each anchor has a hot dipped galvanized coating for long lasting protection.
- Note: Holding power data is based on bottoms of medium consistency.

Order No.	Mfg. No. / Description	Holding Power	List Price	Part No.

Guardian Marine Anchors

- Precision-machined from an aluminum alloy that is as strong as steel, but only half the weight.
- Less machining steps than Fortress with 32° angle only and non-anodized finish.
- Easy to manage weight.
- Rustproof.
- An affordable alternative to heavy steel anchors.
- Features Mud Palms designed to help the anchor set faster in any type of sea bottom. Mud Palms create a "life" to the crown of the anchor, causing the flukes to point more directly to the seabed.
- Disassembles for easy storage.

Fortress Marine Anchors

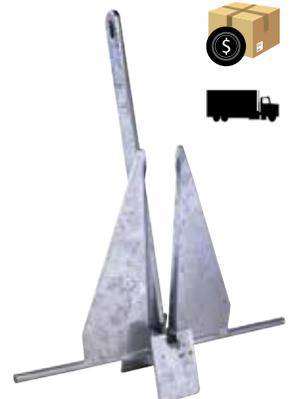

- Tough anodized finish.
- Corrosion resistant.
- Precision-machined from an aluminum alloy that is as strong as steel, but only half the weight.
- Rustproof.
- Will set faster and penetrate deeper into common sea bottoms for incredible holding power.
- Adjustable 32° to 45° fluke angle.
- Exclusive and patented feature which dramatically increases holding power in problem soft mud bottoms.
- Disassembles for easy storage.

Poseidon Claw Anchor

- For use in a variety of bottoms: Grass, mud, rocks or sand.
- Classic style doesn't require use of chain, the wind sets the anchor.
- Galvanized steel shank and stock.
- Galvanized gray iron head.
- Height 18", width 14".

Order No.	Description	List Price
7-2355	Size #12	\$70.79

Lewmar Delta® Anchors

- Manufactured from high-grade manganese steel.
- Self-launching.
- Easy retrieval in case of snags.
- Lloyd's Register Type Approval.
- Maintains precise geometry at high loads.
- Absolute stability and high holding power.
- High stability ballasting for correct seabed orientation and optimum penetration.
- Accommodates all universal chain and rope-end fittings.

Order No.	Mfg. No. / Description	List Price
554899	(0057406) 14# For 1/4" or 6 - 7 mm Chain	\$169.09
554902	(0057410) 22# For 5/16" or 8 mm Chain	\$238.89

Poseidon Grabber™ Anchors

- Similar in design to the anchors used by oil rigs in the North Sea.
- Very effective under a wide variety of sea bed, tide and wind combinations.
- Works well with most bow rollers for easy storage.
- Sets and re-sets fast and easily.

Order No.	Description	List Price

Taylor Made "How to Size the Mooring Chain"

Taylor Made PRODUCTS.

- Taylor Made suggests the chain used will work best if it is 1/2" smaller in width than the tube ID. The customer will have to determine the weight of the chain in relation to the buoyancy and water depth to properly determine what they will need. This will obviously affect the buoy diameter and thus tube size they decide to go with. The chain weight should not surpass greater than half of the buoyancy rating of the buoy. The length of the chain can be calculated by multiplying the depth of the water by 1.5.

- Maximum Mooring Chain size per Taylor Mooring Ball tube ID:
 2" Tube = 1/2" Maximum Chain Size.
 2-1/2" Tube = 5/8" Maximum Chain Size.
 3" Tube = 3/4" Maximum Chain Size.

Poseidon Pyramid Style Mooring Anchors

- Rapid set design for permanent use in fresh or saltwater.
- Extra thick short shaft and eye for maximum durability.
- Short shaft allows usage in shallow water and reduces chain wrap.
- Primer coated heavy cast iron.
- Uses include mooring boats, anchoring docks or marker buoys and more.

Airhead Anchor Bungee

- Enables you to tether your boat offshore, away from a beach or rocky shoreline without having to swim or use a dinghy.
- Connect an anchor to your boat with the high tensile strength Anchor Bungee and set the anchor offshore.
- A heavy duty zinc plated shackle and snap hook are provided for attaching the Anchor Bungee to your anchor and boat.
- Tie a line to the stern to pull the boat into the shore to unload your group.
- Simply secure the end of the rope to a stake onshore and release the rope; Anchor Bungee will pull the boat away from shore into safe waters.
- Anchor Bungee flexes to relieve stress on the anchor, increasing its holding power.
- The bright red and yellow 16 strand 2,500 lb. tensile strength rope is easy to spot and is constructed of polypropylene so it floats.

Taylor Made Big B™ Inflatable Vinyl Fenders

White Black Blue Navy

- Incorporates a center rope tube that allows end-to-end line passage.
- It can be hung vertically or horizontally with a single line.
- Horizontal hanging is useful protection against pilings, awkward docking situations and tidal change areas.
- Features seamless construction, with molded ribs to minimize roll.
- Made from the highest quality marine grade vinyl with a high gloss finish.

Hull Hugr Contour Fenders

- Traditional round fenders tend to roll up, leaving your boat unprotected. They're also bulky to stow.
- Boats with step-down gunwales are especially vulnerable to damage from docks.
- These fenders stay put and stow conveniently under boat seats.
- They hinge to wrap around the gunwale and hull, following the contours of the boat.
- Constructed of a durable marine grade tri-laminate cover, with closed cell foam inside.
- There's a tough polycarbonate grommet at each end for hanging from cleats.

Airhead Bungee Docklines

- Absorb shock to boats, cleats, docks, pylons and other hardware.
- The bungee cord is hidden inside the rope and acts as a built-in snubber.
- Two foam floats protect boat from chafing.
- There's a sliding adjustment at both ends for quick docking.
- Recommended for docking boats and PVC's up to 3,500 pounds.
- Tensile strength is 2,150 pounds.

Order No.	Mfg. No. / Description	List Price

Twisted Nylon Rope

- Excellent for anchor lines, mooring and dock lines because this fiber absorbs sudden shock loads that could snap ropes made of other fibers or cause damage to boat fittings.
- 4-stage nylon has excellent resistance to abrasion.
- Can be stowed wet.
- Rot resistant and not damaged by oil, grease, gasoline, mildew, marine growth or most chemicals.
- 3-strand twisted nylon is spliceable.

Taylor Made Sur-Moor™ T3C™ Mooring Buoys

- Sur-Moor hard skin mooring buoys have a seamless and tough, one-piece polyethylene shell.
- Hard skin shells feature ultraviolet light absorbers for long-term life under the sun and have a sandblasted finish which allows the buoy to be easily painted for identifying.
- Filled with closed cell foam to positively displace water.
- Tube-through-the-center design allows the anchor chain to pass directly through the buoy, allowing you to attach your boat to the top of the buoy.
- Hardware not included.
- Flanged collar made from rigid PVC tubing.
- Blue stripe is reflective for nighttime visibility.

Order No.	Mfg. No.	Tube ID	Buoy Dia.	Circum.	Buoyancy	List Price

Taylor Made Sully Stick™ Winter Stick

- A long tapered buoy used in place of a standard round mooring buoy during the winter months.
- The Sully Stick has a molded in eyelet at the top for easy retrieval.
- The base eyelet is reinforced with a galvanized metal bushing to attach a rope and connect to the anchor chain.
- The shape of the Sully stick helps it escape ice entrapment better than a round buoy and can extend the useful life of a mooring buoy by protecting it from the damaging effects of freezing temperatures.
- Diameter 6" (widest point).
- Length 31".
- Anchoring eye: 1.5" molded hole.
- Internal ballast: None, requires 6.5 lbs. chain wt. to stand vertical.
- Visibility above waterline: 18".
- Approximately buoyancy: 15 lbs.

Order No.	Mfg. No. / Description	List Price	
723620	(22120)	\$73.39	H0-3872000

Attwood Neat Cleat

- Each stanchion is a 7/8" rod of solid enhanced #316 stainless steel alloy.
- The friction springs holds the cleat up at any position and make sure it stays up when pulled up.
- Has a neat, continuous contour to prevent snags and stubbed toes.
- The receptacle outlet is sized for standard 1/4" pilot tubing (not included) so you can use parts from existing inventory.

Order No.	Mfg. No. / Description	List Price	Part No.
