**AIRHEAD**

**Airhead Wide Body Combo Skis**

**AIRHEAD**

- You will love the stability and support of these 65.5" long wide-body skis.
- The extra wide tip displaces more water for easy start-ups and provides superior stability on top of the water.
- The hourglass shape provides quick low effort turning initiation even at slower boat speeds.
- More advanced skiers will enjoy the wide tips for jumping wakes.
- Fiberglass reinforced fins for precise tracking.
- Dual density slide-type adjustable bindings fit sizes 5 to 12.

**2335058** (AHP-12SP) **\$69.99** ZO-9664000

**Airhead Double Action Pump**

**AIRHEAD**

- Perfect for topping off towables.
- This double action pump inflates and deflates towables, kayaks, boats, airbeds and other inflatables.
- It delivers a continuous stream of air on both the up and down strokes.
- Simply turn the release valve counter-clockwise and you're pumping air only on the down-stroke.
- This is a great option when your inflatable is almost full and there's back pressure.
- Four universal valve fittings are included to fit Boston valves and stem valves.
- The accordion-style hose stretches to 5 ft. long and interlocks to the pump, so that it doesn't fall off while you're pumping.
- Volume is 2 liters/stroke.
- Very effective for topping off large towables in the boat, since peak pressure is an impressive 14 psi.

**MAP PRICE**

Order No. Mfg. No. / Description List Price  
**5960119** (AHP-1) **\$24.99** ZO-9181000

**Airhead Air Daddy**

**AIRHEAD**

- Fit all valves found on inflatables.
- Creates a high pressure stream of air.
- Needle valve and high pressure tip stow securely in the handle.
- Allows filling inflatables with an air compressor.

**Airhead Boston Valve**

**AIRHEAD**

- This pack of Boston Valves included two valves that will fit all Airhead Boston Valve Equipped Inflatables.
- The square bases are much easier to turn than round bases, especially with wet hands.
- Bright red coloring makes these valves easy to find.

**MAP PRICE**

5960087	(AHBV-2)	\$7.99	ZO-9940000

**Airhead Multi-Valve**

**AIRHEAD**

- Airhead Multi-Valve consists of 2 Boston Valves that will fit all Airhead Boston Valve equipped inflatables.
- The Boston Valves have a square base, which is much easier to turn than a round base, especially with wet hands.
- Use the Shrader valve to inflate your inflatables at a gas station or with an air compressor.
- Alternatively, screw off the Shrader valve and inflate the Boston valve with an Airhead air pump.
- All components are bright red and green, so they're easy to find.

**Airhead Orb**

**AIRHEAD**

- Keeps your tube tow rope out of the water and the wake so the tube responds instantly to the boat's change of direction, as it's meant to do.
- ORB is an absolute necessity to effectively tow tubes from a boat with a low tow point on the transom.
- It enhances safety and extends the tube's life because it virtually eliminates all slack in the line.
- A 60 foot, 4,100 lb. tensile strength rope is included.
- Durable 30 gauge PVC construction (no nylon cover).

**Airhead Tube Keeper™**

**AIRHEAD**

- It saves essential passenger space and prevents serious injuries by securing towables to your boat's stern.
- Simply attach the straps around the tube's handles.
- Then attach with either the giant 3-1/4" suction cups or loop the stretch cords around a cleat or rail.
- The 2" wide adjustable straps are easy to tighten for a secure hold.

**Lillipad Diving Board**

**Lillipad**

- The worlds only diving board specifically designed for mounting on a boat.
- Can be installed on nearly any boat 18 feet in length or larger with a solid, flat surface for installation.
- LilliPad Diving Boards are NOT a plank.
- Designed for use by children and adults up to a maximum weight of 250 pounds.
- Designed with heavy wall aluminum extrusions, stainless steel hardware and urethane spring components, corrosion and component failure is absolutely minimal.
- LilliPad Diving Boards offer traction materials and an adjustable stabilizer rail for safe jumping as well as a quick release pin to lower the diving board while it is not in use.
- Designed with a quick release pin which allows the board to drop down along the side of the boat while not in use. You can easily stow your Lillipad Diving Board by simply unscrewing the three eye bolts that secure it to the boat. The apparatus then separates into two sections (Ladder & Base/Board) which can easily be stowed.
- Surface mount.

**New Life Jacket Labels and Icons - What do they mean?**

If you haven't already seen them, soon you will notice certain life jackets have a new style of label on the inside. Eventually, all new life jackets which are Coast Guard approved and available for purchase in the United States will have these new labels.

In general, the intent of the new labels is to help users select and care for the appropriate life jacket for the activity in which they are participating. The labels have fewer words more easily understood icons.

**Understanding the New Label and Icons:**

**Performance, Buoyancy and Turning Information** – The first thing you'll notice is a bold-faced number. It could be 50, 70, 100, 150, or 275. This is a measurement of gravitational force, which in the case of a life jacket is essentially buoyancy. Simply put, the higher the number, the greater the flotation. Level 70 Label Decoding - The bold 70 means it's a Level 70 life jacket which provides performance similar to the Type III life jackets previously available. Also, on a Level 70 life jacket label, you'll see a dock and an extended hand with some slightly wavy lines indicating fairly calm water. This means this life jacket is suitable for near shore use in relatively protected water where rescue is likely to be near at hand. You'll note that the higher the number on these icons, the farther away the dock and background is, and the bigger the waves are in the icon. The curved arrow indicates the turning ability of the life jacket. The next thing you'll notice are warnings and exclusions.

## Kwik T-BAG™ T-Top and Bimini Top Storage Packs
