Wire & Cable

We offer a complete line of marine wire and cable products. All wire and cable is RoHS compliant and built to meet SAE, UL, and/or CSA specifications. All wire is made in the USA

105° C Tinned Wire

UL-Listed, tinned wire is ideal for use in the highly corrosive environment of marine applications. Special electro-finned, copper strands also increase protection against corrosion for recreational vehicles, automotive, trucks, and trailers. Tinned copper stranding is extremely flexible for easy routing through marine applications and easier to solder than bare copper. Flame retardant, PVC insulation is highly resistant to water, oil, grease, gasoline and other damaging solvents. High voltage tolerance of up to 600 volts adds versatility to its use in multiple marine and other sustainable applications.

- Voltage: Rated at 600 volts.
- Temperature: Rated at 105° C (221° F) dry and 75° C (167° F) wet.
- Specifications: Meets DOT and Coast Guard specs for electrical systems.

80° C Bonded Parallel Wire

Multiple primary wire parallel bonded with color-coding for identification purposes. Especially ideal for use in RVs, marine, and utility trailer applications. Built to stay together under the toughest operating conditions yet easy to separate at the end of a run for final terminal connection. All-copper stranded core is highly conductive maximizing current transfer while remaining flexible for easy installation.

- Voltage: Rated at 600 volts or less.
- Temperature: Rated at -30° C (-22° F) to 80° C (176° F).
- Specifications: SAE J1128.

105° C Tinned Single-Conductor UL Listed 1426 Wire

105° C Tinned Single-Conductor UL Listed 1426 Cable

105° C Tinned Multi-Conductor UL Listed 1426 Cable

105° C Tinned Bonded Parallel Wire

80° C Bonded Parallel Wire

Wiring Color Code - Direct Current Systems - Under 50 Volts

Color	Item	Use
Dark Green	Bonding System	Bonding Wires (if insulated)
Black	Ground	Return Wires (if insulated)
Red	Main Power Feeds	Positive Mains, Particularly Unfused
Yellow with a Red Stripe	Starting Circuit	Starting Switch to Solenoid
Yellow	Generator or Alternator Field	Generator to Alternator Field to Regulate Field Terminal
	Bilge Blowers	Fuse or Switch to Bilge Blowers
Dark Gray	Navigation Lights	Fuse or Switch to Lights
	Tachometer	Tachometer to Gauge
Brown	Generator Armature	Generator Armature to Regulator
	Alternator Charge Light	Generator Terminal/Alternator Auxiliary Terminal to Light to Regulator
	Pumps	Fuse or Switch to Pumps
Orange	Accessory Feed	Ammeter to Alternator or Generator Output & Accessory Fuses or Generator Switches Distribution Panel to Accessory Switch
Purple	Ignition	Ignition Switch to Coil and Electrical Instruments
	Instrument Feed	
Dark Blue	Oil Pressure	Oil Pressure Sender to Gauge
Tan	Water Temperature	Water Temperature Sender to Gauge
Pink	Fuel Gauge	Fuel Gauge Sender to Gauge

Marpac Primary Marine Wire - Single Conductor

- Electro-finned, copper strands increase corrosion protection.
- Rated 600 volts. Rating 221° F (105° C) dry and 167° F (75° C) wet.
- Flame retardant PVC insulation.
- RoHS compliant.
- Meets USCG, DOT, ABYC, NMMA and UL 1426 Specifications.

Ancor Marine Grade® Primary Wire

- Tinned copper.
- Ancor's proprietary premium vinyl insulation stays flexible even in extreme cold (-40° F/-40° C) and resists salt water, battery acid, oil, gasoline and ultra-violet radiation.
- Exclusive insulation is rated at 600 volts, 221° F / 105° C dry and 167° F / 75° C wet, and is resistant to heat and abrasion.
- Exceeds all UL 1426, US Coast Guard Charter boat (CFR Title 46), and ABYC standards.

Ancor Duplex Cable - Flat Cable

- Ancor Duplex cables are made to surpass the highest UL Boat Cable standards.
- Ultra-flexible (Type 3/Class K) stranding resists fatigue due to vibration and flexing.
- Outer jacket is made for easy removal and provides the best abrasion resistance available.
- Inner conductors are correctly color-coded to ABYC standards.

East Penn Manufacturing Starter Cable

- Full-gauge copper conductor wire ideal for connecting a battery to switch, starter and ground.
- Tough, high temperature resistant PVC insulation is durable enough to handle heavy duty automotive demands.
- Copper stranding is highly conductive maximizing current transfer while remaining flexible for easy installation.
- Voltage: Rated at 60 volts or less.
- Temperature: Rated -50° C (-58° F) to 105° C (221° F).

Ancor Tinned Copper Lugs

- Ancor Marine Grade lugs are manufactured from heavy duty annealed tinned copper, providing for maximum current flow.
- 100% tin plated copper resists corrosion from salt and moisture.
- Seamless barrel design allows for maximum strength when crimped.
- Closed end design seals out moisture so cables stay dry and corrosion free.

Marpac Tinned Copper Battery Cable

- Pre-assembled battery cable.
- Made of 100% copper conductor for maximum current flow.
- Copper core extends to the end of the plated lug to give a one piece solid connection.
- Full gauge stranded copper core is flexible for easy installation and allows maximum current for quick starting.
- Wire meets SAE standards.

Ancor Tinned Copper Battery Cables

- Tinned copper.
- Ultra-flexible (Type 3) stranding resists fatigue due to vibration and flexing.
- Premium vinyl insulation that resists salt water, battery acid, oil, gasoline, and ultra-violet radiation, is rated at 600 volts and 105° C.
- Heavy duty insulation, resistant to heat and abrasion.
- Exceeds all UL 1426, US Coast Guard Charter boat (CFR Title 46), and ABYC standards.

Ancor Heat Shrink Butt Connectors

- Heat activated adhesive built into the sleeve of the heat shrink tubing.
- Shrinks to form a water tight seal and ultimate vibration and strain relief.
- Tinned for corrosion resistance.
- Pure copper for maximum current flow.
- Brazed seam for maximum strength.
- UL listed and CSA recognized.
- Shrinks at 275° F / 135° C.

Ancor Heat Shrink Step-Down Multi-Wire Connectors

- These butt connectors can be used as a step-down from one gauge size to another or as a multi-wire connector for one gauge size wire.
- Offer a sealed alternative for products such as a quick-tap or 3-way connector in areas where corrosion is a concern.
- Flared barrel with uniform copper wall ensures an easy and proper mechanical crimp.
- Colored stripes on the barrel indicate which crimp die to use, regardless of application.

T-H Marine Zippered Rigging Sleeve

- Protects your cables and hoses with this easy to remove rigging sleeve.
- Made of rugged Sunbrella fabric, this sleeve will withstand the elements and resist fading.
- Easily zips on and off to access cables or hoses when needed.
- Ends are secured by cable ties sewn into pockets.

Order No.	Mfg. No. / Description	List Price
640950	(ZRS-1DP) Black Length 48"	\$70.09 E0-7525000

T-H Marine Flex™ Expandable Braided Sleeving

- Lightweight, braided jacketing for bundling and protecting wires, cables and hoses.
- Braided from high temperature yarns.
- Chemical resistant.
- The sleeving cuts easily and cleanly with a hot knife.

CDI Electronics Dielectric Grease

- Silicone-based grease that's designed to seal out moisture and prevent corrosion on electrical connectors.
- It also disrupts the flow of electrical current, which makes it good for lubricating and sealing the rubber parts of electrical connectors.
- Commonly used for spark plug wires.
- Works with most major engine brands.

Order No.	Mfg. No. / Description	List Price	
7000198	(991-9706)	\$67.69	F0-8374000

3M Scotch Super 33+ Premium Vinyl Electrical Tape

- A 7-mil thick, all-weather vinyl insulating tape.
- It has excellent resistance to abrasion, moisture, alkalis, acids, corrosion and varying weather conditions.
- The combination of elastic backing and aggressive adhesive provides moisture-tight electrical and mechanical protection with minimum bulk.
- Black.

Order No.	Mfg. No. / Description	List Price	
2606130	(6130) 3/4" x 20'	\$50.59	F0-1453000

Perko Fig. 1190 Watertight Deck Connection

- Chrome plated zinc alloy.
- Polarized double contact connector.
- Includes flange gasket with integral waterproof cap for base when plug is removed.
- Rated: 15 amps at 12, 24 and 32 volts.
- Accepts up to #14 gauge stranded wire.
- Diameter 1-5/8", height 1-3/16".
- Uses #6 fasteners.

Order No.	Mfg. No. / Description	List Price	
533124	(1190 DPO CHR)	\$41.59	FO-1192000

Marpac Polarized Power Outlet

- Polarized double contact connector.
- Watertight snap-on cover.
- Chrome plated brass base.
- Diameter 1-1/2".
- Uses #8 fasteners.

Order No.	Description	List Price	
7-0448	Polarized Power Outlet	\$7.39	FO-7150000

Sierra 2-Wire Flat Connector

- Constructed of rugged plastic with molded-in terminals for durability.
- These polarized connector sets plug together only one way to prevent cross connections.
- Length 12", 16 GA, 2 Plugs.
- Ready Wired #E301120.

Order No.	Mfg. No. / Description	List Price	
815500	(WH10300)	\$10.20	Z0-4170000

Marpac Deluxe Power Socket

- Moisture resistant marine grade materials.
- Mounts in a 1-1/8" hole from the front using the face plate or from the rear using the locking ring.
- Includes: (2) mounting screws, electrical connectors and a boot for protecting the wires.
- Not for use with cigarette lighters.
- 12 volt.

Order No.	Description	List Price	
7-0863	Deluxe Power Socket	\$9.99	FO-9960000

Marpac Marine Quality Power Socket and Plug

- Universal mate socket and plug.
- Nickel plated phosphor bronze metal parts help reduce corrosion.
- O-ring and molded cap help reduce corrosion.
- Mounts in a 1-1/8" hole from the front using the face plate.
- Includes: (2) mounting stainless steel screws and electrical connectors.
- Not for use with cigarette lighters.
- 12 volt.

Order No.	Description	List Price	
7-0867	Power Socket and Plug	\$8.19	GO-9450000
7-0868	Power Socket Only	\$5.79	GO-8830000

Sea-Dog Polarized Electrical Outlet

- Chrome plated cast brass.
- Designed for use as a 2-conductor deck cable outlet.
- Pins are sized differently, ensuring only one way to connect the plug, avoiding reverse polarity issues.
- Includes a rubber gasket and water resistant cap.
- Installs with (3) #6 RH fasteners.
- Rated: 3-5 amps.
- Maximum 14 gauge wire attaches with brass set screws.
- 12/24 volt.

Order No.	Mfg. No. / Description	List Price	
214940	(426262-1)	\$22.19	GO-7841000

Cole Hersee Polarized Electrical Connector

- Polarized connector pair meant for marine applications.
- Black thermoplastic housing.
- Circuitry: 2.
- Brass input terminals.
- Completed assembly with male and female connectors, this ships without leads and requires wire insertion and termination before installation.

Order No.	Mfg. No. / Description	List Price	
300549	(M-121-BP)	\$25.29	GO-4961000

Marpac Deluxe Accessory Plug

- Made from corrosion resistant marine grade materials.
- With moisture resistant sealing ring.
- 12 volt.
- Sold each.

Order No.	Description	List Price	
7-0862	Deluxe Accessory Plug	\$7.09	FO-6940000

LIMITED QUANTITIES

Marinco SeaLink® Deluxe 12 volt Receptacle & Plug

- The SeaLink 12 volt family of products are manufactured from corrosion resistant marine grade materials.
- Exclusive to SeaLink products is an unique interconnecting system that securely locks the plug into the receptacle resulting in a positive and moisture-proof connection.
- The plug and receptacle feature optimized metal connection points for maximum conductivity.

Marpac Stainless Steel Chart Light and Combo Cigarette Lighter

- Stainless steel mounting plate.
- Easily switch between chart light and cigarette lighter with the flick of a switch.
- Uses #8 fasteners.
- 12 volt.

Order No.	Description	List Price	
7-0112	Chart Light and Combo Cigarette Lighter	\$17.49	F0-4221000

Blue Sea 12 volt Dash Socket - White

- Features watertight cap, easy installation and twist locks securely with plug.
- Designed to withstand the rigors of wet environments and constant vibration.
- Internal strain relief and cord seal.
- Twist lock system - plug locks securely into socket.
- Nickel plated copper alloy used for all current carrying components.
- Front panel, rear panel or surface mount.

Order No.	Mfg. No. / Description	List Price	
379310	(1011200-BSS)	\$12.79	F0-5980000

Marpac Dual USB Charger Socket

- Corrosion resistant with weatherproof cover.
- Charge two devices at the same time.
- For charging of phones, tablets and other mobile devices.
- Input: 12/24 volt, output: 5 volt/3 amp total.
- Hardware included.

Order No.	Description	List Price	
7-0821	Dual USB Charger Socket	\$25.09	G0-1861000

Blue Sea Dual USB Chargers - Socket Mount

- Intelligent device recognition maximizes charge rate for phones, tablets, or other mobile devices.
- Charges at the speed required by specific devices.
- Internal filtering for reduced electronic interference.
- Over temperature protection.
- Mounts in a common 1-1/8" hole.

MAXIMUM OUTPUT CURRENT: 4.8A DC. INPUT VOLTAGE: 9-32V DC

- Protective dust cap keeps debris and moisture out.

Order No.	Mfg. No. / Description	List Price	
379000	(1045-BSS)	\$56.39	F0-7493000

MAXIMUM OUTPUT CURRENT: 4A DC. INPUT VOLTAGE: 32-64V DC

1301046	(1046-BSS)	\$66.29	F0-0464000

Marpac Stainless Steel Power Socket

- Ideal for additional power outlets.
- Corrosion-free molded cap.
- Mounts in a 1-1/8" hole from the front using the stainless steel face plate.
- Includes: (2) mounting stainless steel screws and electrical wiring.
- Not for use with cigarette lighters.
- 12 volt.

Order No.	Description	List Price	
7-0866	Stainless Steel Power Socket	\$13.89	G0-1390000

Marpac PD (Power Delivery) 45W USB 1A + 1C Charger

- PD 45W USB 1A + 1C Charger.
- Type A port - 5V 2.4A compatible with most smartphones in market.
- Type C port - PD 45W compatible with latest PD devices in market.
- Fast charges your iPhone/Android phones from 0% to 50% within 30 minutes.
- Also charges ultrabooks, MacBooks and MacBook Air (after 2018) in 20V mode.
- Blue color: Standby/charging at 5V.
- Amber color: Charging at 9V or higher (PD Mode).

Order No.	Description	List Price	
7-0823	PD (Power Delivery)	\$26.89	F0-2881000

Marpac Switch Mount USB Charger Socket

- Dual port USB charger.
- Compatible with iPad, iPhone and Android devices.
- Blue LED power indicator.
- Short circuit/overheat protected.
- Enhanced uni-body water resistant design.
- Unique water-proof cap splash resistant to IP66 standards (when sealed).
- 1.45" x 0.83" cut-out replaces contura style switches in existing panels.
- Easy to install, just snaps in.

Order No.	Description	List Price	
7-0822	Switch Mount USB Charger Socket	\$19.49	G0-6031000

Blue Sea Dual USB 2.1A Chargers

- Charge two mobile devices on the go.
- Made with corrosion resistant materials which ensure a solid contact and low voltage drop.
- Compatible with most mobile devices including Apple products.
- Protective dust cap with tether keeps dust and spray from shortening the life of the charger.
- 2A Supply fuse is not included.
- Fits in same mounting hole as a traditional 12 volt outlet.
- Cut out dimensions: 1-1/8".
- 12/24V input.

Order No.	Mfg. No. / Description	List Price	
379314	(1016200-BSS) White	\$29.89	F0-2902000

Newmar Elite Series Electrical Panels

Newmar DC Master Panel

- Analog DC volt and ammeter, back illuminated with dimmer.
- 4 battery bank test switch.
- DC master breaker: 100 amp.
- 22 branch circuit capacity, 20 installed standard: (3) 5 amp, (5) 10 amp, (6) 15 amp and (6) 20 amp.
- Red circuit ON indicator lights.
- LS-III Label Set included.
- Dimensions: 10" W x 15" H x 4" D.
- 12 volt.

Order No. **699790** Mfg. No. / Description (ES-1) List Price **\$1,986.19** E0-4698410

Newmar Compact AC-DC Load Center Panel

- DC circuits: 16 breaker capacity; 12 installed standard: (2) 5 amp, (3) 10 amp, (4) 15 amp and (3) 20 amp.
- AC circuits: Master (D.P.) 30 amp standard plus 6 S.P. branch capacity, 5 installed standard: (1) 10 amp, (2) 15 amp and (2) 20 amp.
- Dimensions: 13.7" W x 10" H x 4" D.

Order No. **699794** Mfg. No. / Description (ES-3) List Price **\$2,126.69** E0-2059510

Newmar Elite Series Electrical Panels

Newmar AC-DC Master Control Panel

- Large 3-1/2" scale meters and an ample circuit breaker capacity makes this the panel of choice for boats in the 35' - 45' range.
- DC Circuits: 20 breaker capacity, 16 installed standard; (2) 5 amp, (3) 10 amp, (4) 15 amp, (3) 20 amp or specify.
- AC Circuits: Master (D.P.) 50 amp standard plus 8 S.P. branch capacity, 6 installed standard; (1) 10 amp, (3) 15 amp, (2) 20 amp or specify.
- Dimensions: 17" W x 12" H x 4" D.

Order No. Mfg. No. / Description List Price
699881 (ES-4) **\$1,502.79** E0-9072110

Newmar Electrical Panels - AC Master

699756

699770

- Essential control/protection whenever AC from shorepower or generators is on board.
- A double pole master breaker with power on indicator light protects both hot and neutral legs of the AC circuit.
- A reverse polarity light provides clear warning when wiring is reversed and poses a shock hazard.
- LS-I Label Set included.

AC-II - AC MASTER PANEL - DIMENSIONS: 5-1/4" W x 3-3/4" H

- 30 amp master breaker.

Order No. Mfg. No. / Description List Price
699756 (AC-II) **\$247.09** H0-5284100

AC-IX - AC MASTER PANEL - DIMENSIONS: 5-1/4" W x 7-1/2" H

- 30 amp master breaker, 5 branch circuit capacity 4 installed standard (1) 10 amp, (2) 15 amp, (1) 20 amp or specify.

Order No. Mfg. No. / Description List Price
699770 (AC-IX) **\$512.39** F0-7685300

Newmar Panel Meters - Analog

- Assemble an electrical monitoring system using these analog, panel mount meters.
- Easy to read graphics with unit divisions give precise readouts at a glance.
- Stud mount with push-on terminals.
- Designed for easy front panel mounting.
- DC ammeters require external shunts which are provided.

Order No.	Mfg. No. / Description	Size	List Price

Newmar Electrical Panel - Accessory AC/DC

- Ideal when only a limited number of electrical circuits are needed or for larger systems where their modular design makes for an easy and attractive expansion of existing system capacity.
- 8 breaker capacity, 5 installed standard; (2) 5 amp, (1) 10 amp, (1) 15 amp, (1) 20 amp or specify.
- 8 DC circuit "ON" indicator lights installed, AC indicator lights installed on special order basis.
- Dimensions: 5-1/4" W x 7-1/2" H.
- LS-I Label Set included.

Order No. Mfg. No. / Description List Price
699782 (ACCY-IX) **\$409.89** F0-2968200

Newmar Deluxe Label Set (182 Labels)

- Ideal for custom labeling of switch or circuit breaker positions on any Newmar or similarly constructed electrical panel.
- White lettering on black peel-and-stick mylar.
- Label size: 1-3/4" W x 1/2" H.

Order No. Mfg. No. / Description List Price
699744 (LS-III) **\$251.69** H0-1015100

Newmar DCV: DC Voltmeter

- Monitors three battery banks, 12 and/or 24 volt systems.
- Reads to the nearest 1/10 volt.
- Features a programmable high/low voltage alarm circuit for each bank.
- 2-1/2" face.

Marpac High Amp Circuit Breakers

- Type III switchable with yellow manual reset lever.
- Waterproof.
- Stainless steel M6 threaded stud terminal, nuts and washers.
- Meets the stringent requirements for the SAE J1117 standard for ignition protection.
- Maximum voltage 48V DC.

PANEL MOUNT

Marpac Circuit Breakers with Switch Function

- Type III manual reset circuit breaker with On/Off switch capability.
- Weatherproof.
- Switch is capable of 3,000 On/Off cycles @ 48V DC.
- Easily mounted to any flat surface.
- External ignition protected to ABYC E-11 standards.
- 5/16-18 threaded copper studs are plated for corrosion resistance.

Blue Sea 285 Series Circuit Breakers

- Drop in replacement for 185-Series Circuit Breakers.
- Visible yellow reset lever shows open condition.
- Trip-free design cannot be held closed after trip.
- Type III - switchable/manual reset - trip free.
- Ignition protected.
- IP67 - protected against immersion up to 1 meter for 30 minutes.
- Maximum voltage: 48V DC.
- Meets SAE J1171 external ignition protection requirements.

Perko Fig. 8603 Heavy Duty Battery Selector Switch with AFD

- Ignition protected.
- Alternator Field Disconnect Model.
- Diameter 5-1/4", depth 3-3/8".
- For use with 6, 12, 24 and 32 volt marine electrical systems.
- 380 amps continuous, 850 amps intermittent.
- When used with Non-Unitized Alternators, these models will interrupt the field current (reducing the possibility of damage) if turned "OFF" with the engine running.

542538	(8603 DP)	\$256.59	F0-1697100

Perko Fig. 9703 Heavy Duty Battery Disconnect Switch with AFD

- Ignition protected.
- Alternator Field Disconnect Model.
- Diameter 5-1/4", depth 3-3/8".
- For use with 6, 12, 24 and 32 volt marine electrical systems.
- 450 amps continuous, 1,200 amps intermittent.
- When used with Non-Unitized Alternators, these models will interrupt the field current (reducing the possibility of damage) if turned "OFF" with the engine running.

Order No.	Mfg. No. / Description	List Price	
543990	(9703 DP)	\$244.29	F0-0017100

Perko Fig. 8511 Compact Battery Selector Switch

- Ignition protected.
- Requires 1/3rd less space to mount.
- Same bolt patterns as Popular 8500 Series.
- Popular 90° easy to identify position rotation.
- Diameter 4-3/4", depth 1-7/8".
- For use with 12, 24 and 32 volt marine electrical systems.
- Higher capacity - 315 amps continuous, 450 amps intermittent.
- Four removable skirt panels for easy cable access and mounting.

Order No.	Mfg. No. / Description	List Price	
542530	(8511 DP)	\$80.59	F0-1465000
542531	(8511DPOUSA) USA Design - Limited Design	\$38.79	F0-5172000

Perko Fig. 9611 Compact Main Battery Disconnect Switch

- Ignition protected.
- Requires 1/3rd less space to mount.
- Same bolt patterns as Popular 8500 Series.
- Popular 90° easy to identify position rotation.
- Diameter 4-3/4", depth 1-7/8".
- For use with 12, 24 and 32 volt marine electrical systems.
- Higher capacity - 315 amps continuous, 450 amps intermittent.
- Four removable skirt panels for easy cable access and mounting.

Marpac Battery Main Switch - On/Off

- Unique ergonomic and aesthetic knob design.
- Knobs removable for isolation/safety.
- Robust glass fiber reinforced nylon enclosure.
- Removable windows for unobstructed wiring.
- Terminal studs: M10 (3/8").
- Diameter 2-3/4".
- Cranking rating (30 seconds): 900 amps, continuous rating: 300 amp, intermittent rating (5 minutes): 500 amp.
- 3 mounting options: Surface mount, front panel mount and rear panel mount.
- Voltage rating: 48V DC.

Order No.	Description	List Price	
7-0381	Sold Each	\$33.59	FO-1532000
7-0381B	Sold Pack of 10	\$32.59	FO-1822000

Marpac Battery Selector Switch - 1-2-Both-Off

- Unique ergonomic and aesthetic knob design.
- Knobs removable for isolation/safety.
- Robust glass fiber reinforced nylon enclosure.
- Removable windows for unobstructed wiring.
- Terminal studs: M10 (3/8").
- Diameter 2-3/4".
- Cranking rating (30 seconds): 900 amps, continuous rating: 300 amp, intermittent rating (5 minutes): 500 amp.
- 3 mounting options: Surface mount, front panel mount and rear panel mount.
- Voltage rating: 32V DC.

Order No.	Description	List Price	
7-0382	Sold Each	\$40.69	FO-8482000
7-0382B	Sold Pack of 10	\$39.69	FO-8772000

Marpac Battery Selector Switch

- Select from battery bank 1, battery bank 2 or both for charging or emergency starting.
- Can be mounted on or behind a panel.
- Nickel plated studs for maximum corrosion resistance.
- Uses up to 4/0 AWG battery cables.
- Copper studs for maximum conductivity. Longer studs for attaching more cable terminals.
- Continuous rating: 300 amps, intermittent rating (5 seconds): 1,000 amps.
- Diameter 2-3/4".
- Voltage rating: 48V DC.

Order No.	Description	List Price	
7-0380	Battery Selector Switch	\$34.29	FO-0042000

Marpac Battery Selector Switch

- Allows separate and combined battery selection.
- Use as an emergency main disconnect switch in the event of an electrical problem.
- Make before break design.
- Ignition protected.
- Manufactured by PERKO, Inc.
- 250 amps continuous, 360 amps intermittent.
- Diameter 5-1/4", depth 2-5/8".
- For use with 6, 12, 24 or 32 volt alternator/generator systems.

Order No.	Description	List Price	
7-0378	Battery Selector Switch	\$61.09	FO-6724000

Marpac Keyed Battery Cutoff Switch

- Don't drain the battery, cut it off completely!
- Removable key acts as theft deterrent.
- Weather resistant rubber cap.
- Diameter 2-1/4", depth 2-1/2" (1-1/4" depth behind panel).
- Requires (2) 1/4" diameter bolt mounting holes and a 7/8" mounting switch hole.
- 100 amps continuous @ 12V DC.

Order No.	Description	List Price	
7-51030	Battery Cutoff Switch with Key	\$28.79	GO-9291000

Newmar AC Source Switches

- An AC source selector switch is an essential item for any vessel with an on-board AC generator and/or inverter.
- These switches are fitted with a compact escutcheon plate with engraved switch position nomenclature.
- The switches carry cUL approval, are CE marked, and feature heavy duty contacts and a positive step cam mechanism for low resistance contact closure.
- May be rear mounted in panel with thickness up to 1/4".

Order No.	Mfg. No. / Description	List Price	
699984	(SS SWITCH7.5) 63 Amp (7.5 kw) 2 Poles	\$329.29	FO-0503200
699998	(SS SWITCH15) 125 AMP (15.5 kw) 2/4 Poles	\$531.79	EO-4889300

Cole Hersee Master Disconnect Switch

- Marine grade, brass case with chrome lever.
- 175A, 36V single-pole, single throw (SPST) and can be used to disconnect the battery from the vehicle electrical system.
- 800A intermittent current rating for 15 sec ON, 5 min OFF.
- Sealed options between shaft and insulator.
- Silver plated contact options for high conductivity and low contact resistance.
- Two silver laminated brass studs (3/8-24).
- Voltage: 6-36V DC.

Order No.	Mfg. No. / Description	List Price	
300551	(M-284-01-BP)	\$90.09	GO-6306000

Cole Hersee Battery Selector/Master Disconnect Switch

- Ideal for boats that use one battery for starting the engine and another battery to power auxiliary loads.
- Single-pole, triple-throw (SP3T) circuitry, which gives you four options: batteries OFF, battery 1 ON, battery 2 ON, or both batteries ON simultaneously.
- The battery cutoff position ensures reliable battery disconnection.
- 500A intermittent current at 12V DC for up to 5 minutes and 310A maximum continuous current.
- Terminal size: 3/8".
- Voltage: 6-36V DC.

Blue Sea m-Series Battery Switches

- 300 amps continuous rating for outboards and small gasoline or diesel engines.
- Tin-plated copper studs for maximum conductivity and corrosion resistance.
- Studs accept 3/8" (M10) ring terminals.
- 7/8" stud length accepts multiple cable terminals.
- One-piece terminal stud design never loosens over time.
- One-piece stainless flange nuts ensure safe and secure connections.
- Isolating cover protects rear contacts.
- Breakout tabs allow wire access in any direction.
- Case design allows surface, front panel or rear panel mounting.
- Ignition protected.
- Dimensions: 2.175" x 2.175".

Blue Sea m-Series Single Circuit ON-OFF with Key

- Switches a single battery to a single load group.
- Cranking rating (30 sec.): 900A.
- Intermittent rating (5 min.): 500A.
- Continuous rating: 300A.
- Voltage maximum operating: 48V DC.

Order No. **379758** Mfg. No. / Description (6005) List Price **\$36.09** F0-6252000

Blue Sea m-Series Single Circuit ON-OFF

- Switches a single battery to a single load group.
- Cranking rating (30 sec.): 900A.
- Intermittent rating (5 min.): 500A.
- Continuous rating: 300A.
- Voltage maximum operating: 48V DC.

Order No. **379759** Mfg. No. / Description (6006) List Price **\$36.09** F0-6252000

Blue Sea m-Series Selector 4 Position

- Switches isolated battery banks to all loads or combines battery banks to all loads.
- Cranking rating (30 sec.): 900A.
- Intermittent rating (5 min.): 500A.
- Continuous rating: 300A.
- Voltage maximum operating: 32V DC.

Order No. **379696** Mfg. No. / Description (6007) List Price **\$47.99** F0-9533000

Blue Sea m-Series Dual Circuit Plus™

- Simultaneously switches two isolated battery banks or combines battery banks to all loads.
- CAN NOT be used to switch positive and negative conductors because of the combine feature.
- Cranking rating (30 sec.): 675A per circuit.
- Intermittent rating (5 min.): 450A per circuit.
- Continuous rating: 300A per circuit.
- Voltage maximum operating: 32V DC.

Order No. **379698** Mfg. No. / Description (6011) List Price **\$59.89** F0-2914000

Blue Sea e-Series Battery Switches

- 350 amps continuous rating for inboard gasoline or diesel engines.
- Tin-plated copper studs for maximum conductivity and corrosion resistance.
- Accepts up to 4/0 AWG (120 mm²) battery cables.
- Studs accept 3/8" (M10) ring terminals.
- 7/8" stud length accepts multiple cable terminals.
- One-piece terminal stud design never loosens over time.
- One-piece stainless flange nuts ensure safe and secure connections.
- Tactile indicator conveys knob position by feel.
- Ignition protected.
- Case design allows surface, front panel or rear panel mounting.
- Dimensions: 3.85" x 3.85".

Blue Sea e-Series Single Circuit ON-OFF

- Switches a single battery to a single load group.
- Cranking rating (30 sec.): 1,200A.
- Intermittent rating (5 min.): 600A.
- Continuous rating: 350A.
- Voltage maximum operating: 48V DC.

Blue Sea HD-Series Heavy Duty Battery Switch - Single Circuit ON-OFF

- Up to 600 Amps continuous rating for large diesel engines.
- Tin-plated copper studs for maximum conductivity and corrosion resistance.
- Accepts up to 4/0 (120 mm²) AWG battery cables.
- Studs accept 1/2" (M12) ring terminals.
- 7/8" stud length accepts multiple cable terminals.
- One-piece terminal stud design never loosens over time.
- One-piece stainless flange nuts ensure safe and secure connections.
- Case design allows surface or rear mounting options.
- Tactile indicator conveys knob position by feel.
- Ignition protected.
- Switches a single battery to a single load group.
- Cranking rating (30 sec.): 1,750A.
- Intermittent rating (1 min.): 1,325A. Intermittent rating (5 min.): 900A.
- Continuous rating: 600A.
- Voltage maximum operating: 32V DC.

Guest Heavy Duty Diesel Power Battery Switches

378667

378655

378643

- For 6V, 12V, 24V or 36V systems.
- Built with heavy duty copper sweep contacts to ensure positive circuit control.
- Rugged internal components are protected by a tough, impact resistant polycarbonate housing that is impervious to the elements.
- All feature Alternator Field Disconnect (AFD) allowing selection of any position, including "off", without damage to alternator or electrical system.
- Cable lug size: 1/2".

HEAVY DUTY ON/OFF SWITCH

- 450A Continuous/800A Momentary.

Marinco - BEP Products Pro Installer Battery Selector Switches

- Power requirements on boats have increased and these Selector switches offer high power capacity (400 amps continuous), the ability to easily fit doubled cables, and conform to the industry standard mounting footprint (Guest, Perko, Blue Sea Systems).
- Ignition protected.
- Removable side plates.
- Ergonomic removable switch knob.
- Operation: 1-2-Both-Off.
- 400A Continuous/600A Intermittent/1,500A Cranking.
- (3) Tinned copper 3/8" (10mm) studs.
- Dimensions: 3.85" x 3.85" x 3.62".
- 48 volts DC maximum.

Marinco - BEP Products Battery Distribution Clusters

With the successful release of the BEP battery distribution system, BEP saw the need for ready assembled clusters for different applications to make the installation within the battery area even easier. Following is the range as outlined in each diagram, which are overviews only.

All clusters are completely bused and pre-wired internally for easy installation. These include all connecting points clearly marked with ABC labels as shown in all illustrations.

Marinco - BEP Products Single Engine, Two Battery Banks

MARINCO
BEP PRODUCTS

- An ideal replacement for a Battery Selector Switch. Just remove selector switch and connect existing wires to a 716 cluster, no extra wires are required for a fully automatic battery management system.
- No more flat start batteries.
- The 716 cluster is for use on charging systems up to 150A.
- To be used in the following systems: Single outboard dual battery bank and Single alternator inboard engine dual battery bank.
- Replaces battery isolator systems.
- Square base.
- Dimensions: 5.4" x 5.4".

Order No.	Mfg. No. / Description	List Price	
702085	(716-SQ-140A-DVSR)	\$280.09	FO-6069100

Marinco - BEP Products Twin Engine, Three Battery Banks

MARINCO
BEP PRODUCTS

- This system is designed for twin engine installations.
- It will allow the port engine to charge the port start battery and the house battery when the DVSR is engaged.
- It will also allow the starboard engine to charge the starboard start battery and the house battery when the starboard DVSR is engaged, giving a combined charge from two engines into the house battery until the voltage regulators on both engines control the charge.
- It will also allow the house battery to be charged if steaming on one engine.
- Horizontal base.
- Dimensions: 5.4" x 8.1".

Order No.	Mfg. No. / Description	List Price	
702090	(717-140A-DVSR)	\$484.69	FO-8293300

Cole Hersee Continuous-Duty SPST Series - Solenoid Relay

CH Cole Hersee

- Plated steel housing.
- Continuous rating: 65 amp.
- Intermittent rating: 750A make, 100A break at 10 second on, 30 minute off.
- Insulated coil design electrically isolates the studs from the housing.
- SPST circuitry and normally open contacts.
- Two large 5/16"-24 copper power studs and two small #10-32 steel coil studs (control circuit) are heavy and durable.
- Flat bracket.
- Included hex nuts and lock washers are assembled.
- UL & CE approved.
- 12 volt.

Cole Hersee Continuous-Duty SPST Series - Solenoid Relay

CH Cole Hersee

- Plated steel housing with a black PVC coating is sealed to an IP66 rating.
- Continuous rating: 65 amp.
- Intermittent rating: 120A make, 65A break at 10 second on, 30 minute off.
- Insulated coil design electrically isolates the studs from the housing.
- SPST circuitry and normally open contacts.
- Two large 5/16"-24 copper power studs and two small #10-32 steel coil studs (control circuit) are heavy and durable.
- Flat bracket.
- Included hex nuts and lock washers are assembled.
- UL & CE approved.
- 24 volt.

Blue Sea ST-Glass Fuse Block with Negative Bus and Cover

- Can be used for 24-hour circuits.
- Screw terminals for securing wires.
- Clear insulating cover satisfies ABYC/USCG insulation requirements, accepts Large Format Labels and provides stores for spare fuses.
- Tin-plated phosphor bronze fuse clips are encapsulated and cannot be sprung.
- Amperage maximum operating: 100A per block, 30A per circuit.
- Fuse type: AGC or MDL Fuses.
- Dimensions: 3-1/2" x 5" x 1-1/4".
- Voltage maximum operating: 32V DC.
- 6 circuits.
- Fuses sold separately.

Order No.	Mfg. No. / Description	List Price	Mfg. No. / Description

Blue Sea PowerBar 1000

- Complex wiring systems require a single point to consolidate large and small conductors.
- Offers a 1,000 Amp busbar with various size studs and screws to connect conductors and fuse blocks.
- Tin plated pure electrical copper for maximum conductivity.
- Stepped bus design offers two elevations for conductors which doubles the density of the wire loom compared to traditional bus bars.
- Busbar and fuse block elevations match common fuse blocks allowing for multiple fuse block attachment, eliminating the need for connecting cables.
- One-piece serrated flange nuts ensure correct and secure connections.
- Stainless steel 8-32 screws with captive lock washers for securing smaller gauge wires.
- Busbar may be cut to a shorter length to accommodate constricted spaces.
- Bi-directional busbar end caps allow the ganging of additional busbars.
- Snap on insulating cover meets ABYC and USCG requirements and includes label recess.

379322	(1992-BSS) (8) 5/16" Terminal Studs	\$216.89 F0-2815100

Newmar Terminal Strip

- Use as a common negative/neutral bus for AC or DC systems.
- #8 screw terminals is rated for 100 amps.
- Dual terminal strips in 4 or 8 screw positions on 3/4" centers are secured to a high density insulated base.
- Interlocking bases allow use of multiple terminal strips and bus bars to produce secure and neat wiring assemblies.
- Total # of base terminals: 16.
- Dimensions: 6-1/16" x 1-1/2".

Norsk LiFeP04 Deep Cycle Batteries

- Equipped with Bluetooth and compatible with the Norsk Guardian App for IOS and Android.
- Equipped with Norsk Guardian Advanced Battery Management System (BMS).
- Features M8 terminal posts with included lock nuts for easy rigging.

MAP PRICE
LIMITED QUANTITIES

12.8 VOLT DEEP CYCLE BATTERY

- Designed to be installed in series, providing reliable power for your trolling motors, fishing electronics or golf carts running 12V, 24V or 36V systems.
- Dimensions: 12.9" x 6.7" x 8.4". (Group 27 Size)

Order No.	Mfg. No. / Description	List Price	
2672210	(23-100) 100Ah	\$949.99	Z0-9995700

24 VOLT DEEP CYCLE BATTERY

- The perfect combination of convenience and performance for the boater looking to power a 24 volt trolling motor with a single battery.
- Can be wired in parallel with a second 24V - 50Ah battery to double the capacity and runtime.
- Dimensions: 12" x 6.5" x 8".

Order No.	Mfg. No. / Description	List Price	
2672301	(23-245) 50Ah	\$849.99	Z0-5943600

Norsk LiFeP04 Lithium Deep Cycle Batteries

- Deep Sleep - Disconnect power to your battery's terminals using this feature in the Norsk Guardian app to eliminate fully-discharged batteries caused by phantom draw.
- BCI-Compliant Case - Norsk Lithium Deep Cycle batteries are constructed in BCI-compliant cases, ensuring they fit in the same space as a Group 31 lead-acid or AGM battery.
- One-Touch Power Management - The Power Management button allows the user to quickly check State of Charge, and manage advanced features such as ESR and Deep Sleep™ or reset the BMS.
- IP67 Waterproof.
- Norsk Guardian App Intergration - Seamlessly manage your battery's performance with the Norsk Guardian App. Monitor battery status, control the Deep Sleep mode, and access Emergency Start Reserve [ESR] with ease, all from the convenience of your smartphone.
- Designed to endure over 4,000 charge cycles.

BEP Digital Voltage Sensing Relay (DVSR)

- Safely charge two or more independent battery banks from one charge source (alternator, battery charger).
- Charges engine starting batteries before combining auxiliary bank for charging.
- Protects start batteries from becoming flattened by domestic loads.
- Isolates electronics from harmful electrical surges from starter motors.
- Simple to install 3-wire connection, leaves alternator wiring intact.
- No volt drop vs. diode isolators.
- Ignition protected.
- Surface or panel mountable.
- Rating continuous: 125A, rating intermittent: 140A.
- Cable to meet rating: 8AWG.
- Dimensions: 2-3/4" L x 2-3/4" W x 2" H.
- 12/24V DC.

Pro Charging Systems RealPRO Series Battery Chargers

- Dependable, rugged construction and waterproof.
- Battery maintenance mode.
- DC charge cables: 5'. AC power cord: 3'.
- Approved for Wet Cell, Absorbed Glass Mat (AGM) and most lithium batteries.
- Approved and meets ISO 8846 Marine standards.
- LED lights indicate "Each Battery's" state of charge.
- Reverse polarity protected and no installation restrictions.
- Ignition protected.

Pro Charging Systems B.O.S. Battery Optimization System

- Actively balances batteries to increase run time.
- Works with any battery chemistry.
- Self-powered.
- Available in 6V, 8V and 12V configuration.
- Up to six batteries in series.
- Battery selection and prediction (BSAP-24) algorithm.
- Less than 1mA sleep mode.
- Transfer rate up to 7.5A.
- 12 volts.

Pro Charging Systems Sportsman Series Battery Chargers

- Approved for Wet Cell and AGM batteries.
- DeltaVolt Intuitive Charging Technology.
- Waterproof, dependable, rugged construction.
- Fully automatic/multi stage charging.
- Battery maintenance mode. On-board diagnostic codes.
- Temperature compensated. Advanced microprocessor controlled.
- L.E.D. lights indicate the state of charge.
- Zero spark technology. Reverse polarity protected. No installation restrictions.
- FCC Parts A & B interference compliant.
- DC charge cables: 5'. AC power cord: 3'.
- Ignition protected.

ProMariner ProSportHD Series Lithium Battery Chargers

ProMariner™

2901762

2901759

- Lightweight, tri-surface heatsink design.
- This delivers significantly faster charging through optimal cooling, while delivering true rated constant current charging amps during charge mode.
- Fully automatic multi-stage charging enhances battery performance while extending battery life.
- User selectable charging profiles for Flooded, AGM, Gel and ProMariner approved LiFePO4 chemistries.

ProMariner Battery Isolator

ProMariner™

- Gold-plated terminals and improved efficiency, provide enhanced charging and gives peace of mind by preventing total discharge of the starter battery.
- Allows simultaneous charging of two batteries from one alternator, without connecting the batteries together.
- Discharging the household battery, will not result in also discharging the starter battery.
- Endures harsh environments thanks to waterproof design - IP68 rating.
- Allows one direction electric flow.
- Rated for use with DC devices ranging from 10A to 13A.
- Long lasting quality.
- ROHS, CE, Prop65 and ABYC E-11 compliant.
- Configuration: 1 Alternator, 2 battery.
- Maximum current: 70A.

2901702	(01-70-2)	\$126.89 F0-2888000

ProMariner ProMar1 Digital Series On-Board Battery Charger

ProMariner™

- Fully automatic 4-stage charging (Analyzing, charging, conditioning and built-in auto-maintain mode).
- Single preset charging profile - Use with Flooded (Lead-Acid) or Gel batteries.
- Integrated LEDs for battery status and fault detection
- Auto-maintain/energy saver modes extends battery life.
- Pre-wired with waterproof inline DC fuses and nickel-plated copper ring terminals.
- Built-in safety features: Dual inline DC safety fuses for all multi-bank models, reverse polarity, over-temperature, over-current, over-voltage, and ignition protection.
- Meets US FCC emissions requirements and CEC compliance.
- Maximum number of batteries: 3 Banks.
- DC amp: 15A.
- Volts DC: 12V/24V/36V.

Guest On-Board Battery Chargers

GUEST

- All high frequency, digital charging technology.
- Fully automatic 5-stage performance charging.
- Dedicated battery charging, sensing and control per bank.
- Expanded LED charge status monitor.
- Wiring and battery fault detection.
- Auto-maintain energy saver mode.
- 100% Waterproof (IP67) and shock resistant for all fresh and saltwater applications.
- For all 12 volt flooded and AGM lead acid batteries.
- Built-in safety: reverse polarity, over-current, over-voltage, over-temperature and ignition protection. In-line fuses for maximum DC wire protection.
- Input volts: 90-135V AC, 50/60Hz.
- 2 year warranty.

NOCO On-Board Battery Chargers

NOCO

- On-Board Battery Charger, Battery Maintainer, and Battery Desulfator.
- For 12-volt batteries, including marine, boat, starter, and deep-cycle batteries.
- Selectable charging modes - including 12V, 12V AGM, 12V Lithium, and 12V Repair Mode - for all types of lead-acid and lithium-ion batteries.
- An integrated thermal sensor detects the ambient temperature and alters the charge to eliminate over-charging in hot climates and under-charging in cold climates.
- Charges batteries as low as 1-volt. Or use the all-new force mode that allows you to take control and manually begin charging dead batteries down to zero volts.
- Automatically detects battery sulfation and acid stratification to restore lost battery performance for stronger engine starts and extended battery life.
- A simplified mounting system allows for quick and easy installations in any direction - even up-side-down - with an integrated anti-vibration backing to isolate shock, vibration, and noise.
- A fully-sealed and waterproof.
- 12 volt.

Newmar Phase Three Modular Battery Charger

- Powder coated stainless steel case.
- Three stage "smart" charging: bulk, absorption, float.
- Battery type selector switch: gel-cell, lead-acid, AGM.
- Temperature compensated output via sensor.
- Maximum output: 67 amps.
- Universal input: 90–264 VAC, 50–60 Hz, usable anywhere in the world.
- ABS approved as redundant power system for essential services as well as a battery charger.

Order No.	Mfg. No. / Description	List Price	
700396	(PTMS-24-67) Phase Three Modular Battery Charger	\$7,163.89	FO-2741050
700307	(PTM-24-22) Individual Module	\$1,756.99	FO-9892210

Newmar Temperature Compensation Sensors

- An optional remote sensor for optimizing the voltage output of your Phase Three charger based on ambient or battery temperature.
- Designed for use with Phase Three Series and Phase Three Modular Battery Chargers.

Order No.	Mfg. No. / Description	List Price	
699974	(TCS-12/24-25) 25' Cable	\$162.09	E0-7512100
699977	(TCS-12/24-40) 40' Cable	\$211.19	E0-9385100

Newmar Phase Three Series Battery Chargers

- "Smart" circuitry provides three stage charging: bulk, absorption, float.
- Gel-Cell/Flooded Lead-acid/AGM battery type switch selects optimum charge/float voltages.
- Multiple isolated output banks, ammeter indicates output current.
- Built to last - a rugged stainless steel case with a durable white powder coat finish, an optional drip shield, and marinized internal circuitry for enhanced durability.
- Protection: current limiting, thermal protection, forced air cooling, drip shield.
- ABS Type approved for battery charging and power supplies.

Newmar Remote Monitor Panel

- An optional remote indicator/activation panel which will allow you to monitor the status of your Phase Three Charger and when necessary, re-initiate the three stage charge regimen.
- It is designed for use only with the following models: PT-14, PT-25W, PT-80, PT-24-8, PT-24-13, PT-24-45, PT-24-95.
- LED's indicate charger output stage.
- Manual re-initialization of three stage charge cycle.
- Comes prewired with 25' of cable.
- Panel dimensions: 3" H x 4.75" W.

Order No. **698146** Mfg. No. / Description (RP) List Price **\$259.99** E0-9949100

Newmar Phase Three Charger Monitor/Control Unit

- Anodized aluminum case with strong mounting flanges.
- Digital readout for three battery bank voltages to 1/10th accuracy.
- Adjustable high/low DC voltage alarm and float voltage fine-tuning.
- Includes AC power indicator and 10' wiring harness.
- Designed for various PT and PTMS Series chargers.
- Wire cord grips for moisture resistance.
- Case dimensions: 8.7" H x 4.6" D x 5.5" W.
- Output: 6 amps.
- Input VAC (50-60 Hz): 90-130 or 180-264.
- 12 volt.

Order No. **700384** Mfg. No. / Description (PT-MCU) List Price **\$957.19** F0-3007600

Newmar ABC Series Battery Charger

- Rugged, powder-coated aluminum case with vibration absorbing mounts and conformal-coated circuit board.
- 3-step output (bulk, absorption, float) supports two isolated battery banks for optimal recovery and battery life.
- Includes ammeter, on/off switch, power indicator light, and 115/230 VAC input selector.
- Auto-reset thermal overload protection and convection cooling for high-moisture environments.

Order No. **700304** Mfg. No. / Description (ABC12-6) List Price **\$766.19** F0-3363500

Newmar High Power DC-AC Inverter with Built-in Battery Charger

- Rugged circuitry delivers stable "Perfect Wave" AC, suitable for appliances from heavy-duty refrigerators to sensitive electronics.
- Built-in 3-stage charger supports gel-cell, flooded lead-acid, or AGM batteries, with adjustable amp-hour capacity for efficient charging.
- Internal charger activates via automatic transfer relay when external AC power is detected; optional Battery Integrator supports multiple banks.
- Features large DC terminal blocks, GFCI-protected outlets, and the option for hard-wired AC output.
- Front panel shows operational status; optional remote panel available.
- Thermally controlled fan extends component life.
- Automatic low-voltage shutdown prevents overdischarge damage.
- Heavy-duty aluminum case with powder coating and polyurethane-coated internal circuitry for harsh environments.
- Case dimensions: 7.5" H x 16" W x 15.5" D.
- UL listed with a two-year warranty.
- Watts (cont.): 1,800.
- Inverter input: 11-14V DC, 180 amps.
- Charger input: 115V, 60 Hz, 15 amps. Charger output: 85 amps @ 12 volt.

LIMITED QUANTITIES

Order No. **700399** Mfg. No. / Description (12-1800IC) List Price **\$5,923.09** H0-5835530

ASEA Dock Boost Transformer

- Provides precision voltage regulation to the vessel, delivering complete protection from the most common shore power problems, including: Brownouts, spikes, sags and low-line or high-line voltage conditions from the dock power pedestal.
- Auto-restart from shore brownout or blackout.
- Auto-restart from overload.
- Fault shield fro bonded, galvanic bridged/isolated ground.
- Serial bus (RS-232) remote diagnostics.
- Remote on/off.
- kWh meter.
- Advanced power monitoring (input/output).
- Input - voltage: 167-270V AC, phase: 1, amps: 50, frequency: 57-63Hz.
- Output - power form: Split Phase 12/240V AC, Rated power: 12kVA.

Newmar DC-DC Converters

STANDARD SERIES

- Designed for communication and navigation equipment on negative ground systems ensuring consistent and reliable power output.
- Corrosion-resistant anodized aluminum case with polyurethane-coated PC boards and heavy-duty shock mounts for harsh environments.
- Includes current limiting, thermal shutdown, short circuit, reverse polarity, and overvoltage safeguards.
- Output voltage: 13.6.
- Input voltage: 20-50.

Order No.	Mfg. No.	Output Amps	List Price	
700615	(32-12-10)	10 Intermittent, 10 Continuous	\$664.69	E0-2589400
700662	(32-12-35)	35 Intermittent, 30 Continuous	\$1,413.79	E0-4306010

ISOLATED SERIES

- Handles a wide input voltage range with precise voltage regulation.
- Includes reverse polarity, input/output fuses, current limiting, short circuit protection, and thermal/voltage shutdown.
- Rugged case for high-vibration environments with polyurethane-coated PC board for added durability.
- Power ON indicator and full isolation for positive or negative ground systems.
- Output voltage: 13.6.
- Input voltage: 20-56.
- Output amps: 18 Intermittent, 10 Continuous.

Order No.	Mfg. No. / Description	List Price	
700636	(48-12-181)	\$1,338.19	E0-4630010

LIMITED QUANTITIES

Newmar Battery Isolators

- Allow charging multiple batteries automatically from one or two alternators and prevent discharge or dumping of one battery into another.
- Conservatively rated diodes and a rustproof anodized aluminum heat sink case.
- Rated for up to 48 volts DC, negative ground.
- Heavy duty construction.
- Stainless steel mounting hardware provided.
- Protective covers provided for terminals.

MAXIMUM AMPERAGE INPUT CAPACITY: 70 AMPS

Order No.	Mfg. No. / Description	List Price	
378679	(1-2-70) 1 Alternator Source 2 Battery Banks	\$160.69	F0-8421100
378706	(1-3-70) 1 Alternator Source 3 Battery Banks	\$370.79	H0-7422200

378681	(1-2-120) 1 Alternator Source 2 Battery Banks	\$310.69	H0-1468100
378700	(2-3-120) 2 Alternator Source 3 Battery Banks	\$310.69	H0-1468100

Newmar Power Supplies - Heavy Duty Power Series

- Excellent regulation and ripple spec: Output voltage maintained within 1% under all rated line and load conditions.
- Polyurethane conformal coated PC board and corrosion resistant heavy duty aluminum case with integral shock mounts assures survival in hostile environments.
- Ideal for powering 12 and 24 volt communication/navigation equipment aboard commercial vessels where reliability is essential.
- Input range: 105-125/210-250 VAC (selectable), 50-60 Hz.

12 VOLT MODELS. OUTPUT VOLTAGE: 13.6

Newmar Automatic Power Selectors (APS)

- A solid state device which enables installation of a seamless, redundant power system for critical electronic loads.
- Should one source falter or fail, the other will automatically supply the load with no transfer delay, operation continues uninterrupted.
- Selects the higher voltage of two independent DC power sources and routes power to the load.
- Easy installation, two independent power sources are wired to the APS and routed in a single output to the vital load.
- Rugged, rust-proof anodized aluminum case.
- Voting rating: 6-50V DC, negative ground.

Order No.	Mfg. No. / Description	List Price	
700434	(APS-70) Maximum Loads: 70 amps	\$207.09	F0-6944100
700450	(APS-160) Maximum Loads: 160 amps	\$659.19	H0-1559300

NEWMAR

A MISSION CRITICAL ELECTRONICS BRAND

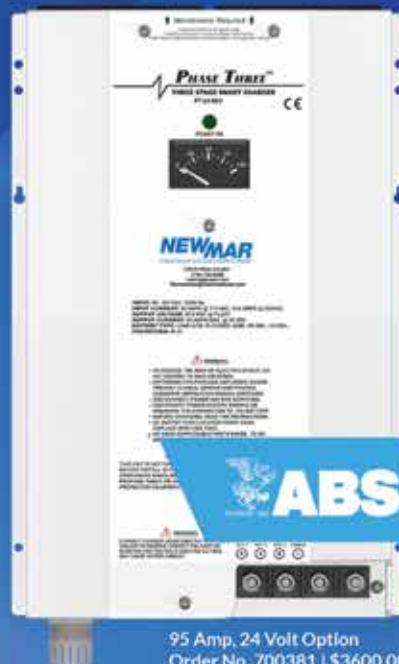

PHASE THREE SERIES Battery Charger

12 & 24 Volt Options

"Smart" battery charging technology for systems aboard workboats, military vessels, commercial vessels, and recreational craft.

These chargers interact with batteries providing the optimum three stage charge process for fast recovery and conditioning, maximizing performance and extending battery life.

- "Smart" circuitry provides three stage charging: bulk, absorption, float
- Gel-Cell/Flooded Lead-Acid/AGM battery type switch selects optimum charge/float voltages
- Optional sensor adjusts output voltage based on battery temperature (except PT-7)
- Current limiting prevents damage from overloading
- Use as a power supply - can power loads without a battery in-line
- ABS type approved battery charger and power supply
- PT-MCU control/monitor optional

BATTERY CHARGERS

TRUECHARGE™3

- Lightweight, ultra-compact, universal chargers
- Settings for flooded, gel, AGM or Lithium-ion batteries, as well as custom profile for different battery types
- Drip-proof design characteristics enable the charger to be mounted in multiple orientations
- Meets CE, ABYC, IEC and UL1564 with marine supplement standards

12 Vdc Applications **20 A** **40 A** **60 A** **80 A** **100 A** **120 A**

24 Vdc Applications **10 A** **20 A** **30 A** **40 A** **50 A** **60 A**

NOTE: 12V (80 A, 100 A, 120 A) and 24 Vdc (40 A, 50 A, 60 A) achieved through stacking.

Part #	Description	MSRP
804-1220-10	TRUEcharge3 20, 12V/20A	\$467.48

FREEDOM X

- Full output from -4°F to 104°F. Operates up to 140°F
- Extended surge, 10 ms UPS like AC transfer time
- Configurable low battery voltage shutdown
- Meets UL458 with marine supplement, ABYC, CSA and FCC Part 15 Class B
- Huge wiring bay and quick connect terminals for fast and easy installation
- Ignition lockout to minimize battery drain
- Built-in 30 A Automatic Transfer Switch
- NEW 24 Vdc 2000W model now available

Marpac Power Inverter

- Converts 12 volt DC to 110 volt AC for power when needed.
- Charge most USB compatible devices.
- Plugs into cigarette lighter.
- Fits in most cup holders.
- Great for charging mobile phones, laptops, MP3 players.
- Automatic shut off if voltage drops below 10V or exceeds 15V DC.
- CE and E-Certified.

LIMITED QUANTITIES

Order No.	Description	List Price	Mfg. No. / Description
7-1279	Power Inverter	\$49.59	G0-3233000

Newmar Power-Pac™ Power Supplies with Built-in Battery Back-Up

- Highly regulated, low ripple, noise-free 12 volt output.
- Built-in, "on-line" stand-by battery provides immediate back-up power in case of AC power loss.
- Internal mounting space and terminals for conversion of 7 A/H model into 14 A/H model.
- Includes output "Normal" indicator L.E.D., "Back-up power only" warning light, and audible & visual low battery (10.7 VDC) voltage indicators.
- Low battery warning buzzer mute switch.
- Input/output fused.
- Automatic low battery (10.3 VDC) voltage disconnect with low voltage disconnect override button.
- 115/230 50-60 Hz input, selected by slide switch on rear panel.
- 7 amp/hour.

Marinco 2-Wire ConnectPro® Charging/Trolling System

MARINCO

CONNECTPRO RECEPTACLE

- Works with 12V, 24V, or 36V 2-wire systems.
- For front mount panel installations.
- Weather resistant sealing cap.
- Drain holes in receptacle keep water away from electrical components.
- Perma-Lock screw terminals will not loosen under extreme hull vibration.
- Fits standard 1-1/8" diameter mounting hole.
- Accepts 10 and 8 AWG wire.

Order No.	Mfg. No. / Description	List Price
2460108	(12VBR52)	\$32.19 G1-2902000

CONNECTPRO PLUG

- O-ring seal for waterproof connections.
- Weather resistant plug cover.
- Ergonomic contoured grip for easy hook-up and ground blade alignment.
- Max rating is 40 amps.
- Accepts 16 to 8 AWG wire.

Order No.	Mfg. No. / Description	List Price
2460107	(12VBPS2)	\$24.99 G1-4261000

Marinco 4-Wire 12/24V Locking Charging/Trolling System

The 4-wire trolling/charging system eliminates the need for a charge/run switch. Install the receptacle on the boat, mount the black trolling motor plug on the trolling motor, and the red charger plug on the leads of the battery charger. Simply plug in the black plug to troll, or plug in the red plug to charge.

Marinco Charger Plug (Male)

MARINCO

- Accepts up to 10 AWG wire.
- Red.

Marinco EEL ShorePower-Style Straight Adapters

- Straight Adapters are high quality, one-piece adapters used much like Pigtail Adapters. However, they do not have sealing collars and are not recommended for use in wet locations.
- Use only in an enclosed, dry location, such as powering your boat from a 15 amp power receptacle inside a house.
- LED power indicator.
- Ergonomic design for easier gripping.

- Y-Adapters enable you to split one dock side receptacle between two boat inlets of similar or dissimilar power configurations.
- Sealing collar to create a weatherproof seal when joining cables together.
- Suitable for use in wet locations.
- Watertight molded plug and connector ends for safety and durability.
- Heavy duty, super flexible marine grade cable.
- Corrosion resistant, nickel-plated contacts.

Marinco Reverse "Y" Adapter

- The reverse "Y" adapter has two male plugs with special power isolation circuitry for added safety.
- They provide 50A 125/250V power when only two 30A 125V receptacles are available.
- Reverse "Y" adapters are fully molded and equipped with the Marinco unique sealing collar and covers (where indicated) for use in wet locations.

Marinco Railmount Cord Clips

MARINCO

- For 30A cords.
- Organize shore power cords quickly and easily.
- Can be used on tube or wire rails.
- UV stable.
- Practically unbreakable.
- Packaged as set of 6 clips.

Order No. **218809** Mfg. No. / Description (CLIP-01) List Price **\$15.69** FO-8901000

Newmar PX Series Waterproof Box

NEWMAR
A HUBBARD-POWER ELECTRONICS BRAND

	PX-1
Number of Connector Strips:	1
Positions Per Strip:	6
Max. Wire Gauge:	16
Number of Cable Entry Points:	5
Number of Cable Entries Installed:	3
Spare Cable Entries Provided:	2
Cable Diameter Range:	.14 - .81

- Ideal for making wiring connections above or below decks, even in areas subject to occasional spray
- Similar to BX Series junction boxes, but made from rugged, non-corrosive, high impact polypropylene
- Snap-on cover provides watertight seal.
- Multiple position connector strips with "captive" screw compression wire terminals installed - meets ABYC standards
- Multiple knockouts provided for conduit access (in addition to cable entries)
- IEC Waterproof Rating: IP54.
- Box dimensions: 2.95" x 2.95" x 1.66".

Order No. **699938** Mfg. No. / Description (PX-1) List Price **\$53.19** EO-9893000

Marinco Organizer Bag

MARINCO

- Heavy duty nylon zippered bag with handle.
- Ideal for storing cordsets and adapters.
- Dimensions: 20" x 15" x 8".

Order No. **218784** Mfg. No. / Description (BAG) List Price **\$48.29** FO-0833000

Newmar BX Series Splashproof Boxes

NEWMAR
A HUBBARD-POWER ELECTRONICS BRAND

- Rugged cast aluminum box with white enamel finish
- IP rating 54 - Splashproof.
- Provides for secure, protected below-deck wiring connections in wheel house or below decks and engine rooms.
- Supplied with high quality connector strips - secure wires with compression fittings - no terminals required.
