Danforth® Standard® Anchors

- Has the traditional holding power which has always been associated with Danforth Standard Anchors.
- The shank is made of high strength steel.
- The steel flukes are strong and wide.
- Each anchor has a hot dipped galvanized coating for long lasting protection.
- Note: Holding power data is based on bottoms of medium consistency.

Order No.	Mfg. No. / Description	Holding Power:	List Price

Danforth® Hi-Tensile® Anchors

- Our toughest, most durable anchors and features very high holding power.
- The flukes are fabricated for additional strength and then beveled to allow quick, deep bottom penetration.
- Shanks made from drop forged steel.
- Hot dipped galvanized coating.
- Note: Holding power data is based on bottoms of medium consistency.

Guardian Marine Anchors

- Precision-machined from an aluminum alloy that is as strong as steel, but only half the weight.
- Less machining steps than Fortress with 32° angle only and non-anodized finish.
- Easy to manage weight.
- Rustproof.
- An affordable alternative to heavy steel anchors.
- Features Mud Palms designed to help the anchor set faster in any type of sea bottom. Mud Palms create a "life" to the crown of the anchor, causing the flukes to point more directly to the seabed.
- Disassembles for easy storage.

Fortress Marine Anchors

- Tough anodized finish.
- Corrosion resistant.
- Precision-machined from an aluminum alloy that is as strong as steel, but only half the weight.
- Rustproof.
- Will set faster and penetrate deeper into common sea bottoms for incredible holding power.
- Adjustable 32° to 45° fluke angle.
- Exclusive and patented feature which dramatically increases holding power in problem soft mud bottoms.
- Disassembles for easy storage.

Taylor Made "How to Size the Mooring Chain"

Taylor Made PRODUCTS

- Taylor Made suggests the chain used will work best if it is 1/2" smaller in width than the tube ID. The customer will have to determine the weight of the chain in relation to the buoyancy and water depth to properly determine what they will need. This will obviously affect the buoy diameter and thus tube size they decide to go with. The chain weight should not surpass greater than half of the buoyancy rating of the buoy. The length of the chain can be calculated by multiplying the depth of the water by 1.5.
- Maximum Mooring Chain size per Taylor Mooring Ball tube ID:
 2" Tube = 1/2" Maximum Chain Size.
 2-1/2" Tube = 5/8" Maximum Chain Size.
 3" Tube = 3/4" Maximum Chain Size.

Marpac Pyramid Style Mooring Anchors

- Rapid set design for permanent use in fresh or saltwater.
- Extra thick short shaft and eye for maximum durability.
- Short shaft allows usage in shallow water and reduces chain wrap.
- Primer coated heavy cast iron.
- Uses include mooring boats, anchoring docks or marker buoys and more.

Greenfield Anchor Buddy - Poly-Covered Bungee Cord

- Poly-covered bungee cord.
- Simply drop anchor about 30' out, proceed to shore, and Anchor Buddy stretches, while your anchor stays set. As you pay out your bow line, Anchor Buddy retracts, anchoring your boat safely offshore. Also works great for anchoring in rough water.
- For temporary anchoring/mooring only.

LIMITED QUANTITIES

ANCHOR BUDDY. STRETCHES FROM 14' TO 50'

Marpac 8 Plait Nylon Rope Anchor Rods

- Extra-strong factory spliced chain to rope.
- 8 Plait nylon rope: Eliminates ALL hockling and kinking, reduces risk of jamming the windlass gypsy, resists stiffening with age, 50% more line fits in locker than standard 3-strand rope
- High test, hot dipped, galvanized G4 chain minimizes corrosion.
- Excellent for use with most windlasses.
- Included swivel reduces chain twisting.

Airhead Anchor Bungee

AIRHEAD

- Enables you to tether your boat offshore, away from a beach or rocky shoreline without having to swim or use a dinghy.
- Connect an anchor to your boat with the high tensile strength Anchor Bungee and set the anchor offshore.
- A heavy duty zinc plated shackle and snap hook are provided for attaching the Anchor Bungee to your anchor and boat.
- Tie a line to the stern to pull the boat into the shore to unload your group.
- Simply secure the end of the rope to a stake onshore and release the rope; Anchor Bungee will pull the boat away from shore into safe waters.
- Anchor Bungee flexes to relieve stress on the anchor, increasing its holding power.
- The bright red and yellow 16 strand 2,500 lb. tensile strength rope is easy to spot and is constructed of polypropylene so it floats.
- Stretches from 14' to 50'.

Taylor Made Hull Gard® Inflatable Vinyl Fenders

- Combines unsurpassed softness and superior strength to provide boaters with the maximum protection available from a utility fender.
- Valve seats are integrally molded into the fender, not glued in like the competition.
- Reinforced molded-in eyelets.
- Unique oval design which prevents the fender from rolling out of position.
- Inflation valves adjust the level of firmness to satisfy all applications.

Taylor Made Big B™ Inflatable Vinyl Fenders

- Made from the highest quality marine grade vinyl with a high gloss finish.
- Incorporates a center rope tube that allows end-to-end line passage.
- Features seamless construction, with molded ribs to minimize roll.
- Rubber football needle valve for easy inflation and long life.
- 3/4" diameter center hole accepts up to 5/8" diameter rope to secure the fender.
- End-to-end rope passage - Horizontal hanging is useful protection against pilings and tidal change areas.

Hull Hugr Contour Fenders

- Unlike traditional boat fenders, the contoured shape prevents these boat dock fenders from rolling or riding up, meaning your boat stays protected.
- They hinge to wrap around the gunwale and hull, following the contours of the boat.
- Constructed with a marine grade, rip-proof, tri-laminate cover, with closed cell foam inside.
- Durable polycarbonate grommets at each end allow you to hang from cleats.
- Manufactured from three layer dual density EVA and can be stowed under seats.

Airhead Bungee Docklines

- Absorb shock to boats, cleats, docks, pylons and other hardware.
- The bungee cord is hidden inside the rope and acts as a built-in snubber.
- Two foam floats protect boat from chafing.
- There's a sliding adjustment at both ends for quick docking.
- Recommended for docking boats and PWC's up to 3,500 pounds.
- Tensile strength is 2,150 pounds.

Taylor Made Sur-Moor™ Shackle Buoy

- The rope nest design has a built in cup shape at the top of the buoy that allows the anchor shackle to nest below the buoy surface.
- This recessed area helps shield the shackle from contacting the boat hull and offers a nesting place for the pennant line when the boat departs from the mooring.
- Hard skin polyethylene shell is UV protected.
- Hard skin shell now has a sandblasted finish which allows the buoy to be easily painted for identifying.

Order No.	Mfg. No.	Diameter	Buoy Diameter	Buoyancy	List Price	
719150	(46818)	2-1/2"	18"	100 lbs.	\$225.69	F0-8975100

Taylor Made Mast Buoys

- Perfect as a pick-up buoy and ideal for all diving applications.
- 5/16" diameter pultruded fiberglass mast with PVC outer layer adds strength, flexibility and no more fiberglass shards to become exposed.
- Sealed urethane foam - provides great floatation and years of service.
- Corrosion resistant HDPE-coated cast metal weight that will not scratch or mar your boat's finish.

Order No.	Mfg. No. / Description	List Price	
719154	(22105) Mast Length 48"	\$61.89	F0-2334000
